About this item

- **ZIGBEE 3.0 STANDARD:** Low power consumption and stability. Work with SmartThings, Aeotec, Hubitat, Third Reality Smart Hub, Home Assistant. Notes: ZIGBEE HUB REQUIRED AND SOLD SEPARATELY.

- **EASY MOUNTING:** With the wireless and compact design, you can place the Smart Button wherever it's handy, stick it to the wall by using the double-sided tape or attach to the fridge with the magnetic strips. Both accessories are included in the box.
- **REMOTE CONTROL:** Three type of control settings – Pressed, Double Pressed and Held, remote control smart home devices or groups with one action. One press to turn on the light, double press to turn on the fan and humidifier, long press to turn them off, etc.
- **SCENE CONTROLLER:** In our daily life, we may have some constant scenarios — Turn off some lights and close the blind when watching movies at home, turn off all the lights before sleeping or turn on some lights when arriving home. The repetitive things may disturb you, however, with THIRDREALITY Smart Button, you can assign the daily scenarios to the three types of control setting so that one press can realize the scenario you want.
- **LONG BATTERY LIFE:** 2 AAA Batteries-operated smart button, Low power consumption, can last 3-Year for normal use.
- **Compatible with Apple HomeKit through Smart Bridge MZ1:** Enabled by Smart Bridge MZ1 (Sold Separately) integrates with Apple HomeKit, to achieve easy control and monitoring. Additionally, it supports software OTA (Over-The-Air) updates.

SIMPLIFY

With one press of the button,
easily control a group of connected
smart devices.

Third Reality ZigBee Smart Button is a standard ZigBee 3.0 device, it can direct work with SmartThings/Aeotec hub, Hubitat, Third Reality Smart Hub and Home Assistant. Support three type of control settings-Pressed, Double Pressed and Held, remote control smart home devices or groups with one action.

Smart Scene

- Set up a Smart Button by your nightstand to activate a sleep scene, turn off all the lights and close the blinds.
- Or place a Smart Buttons at key exit points in your home. As you leave, turn off all lights and deactivate non-essential devices to save energy.

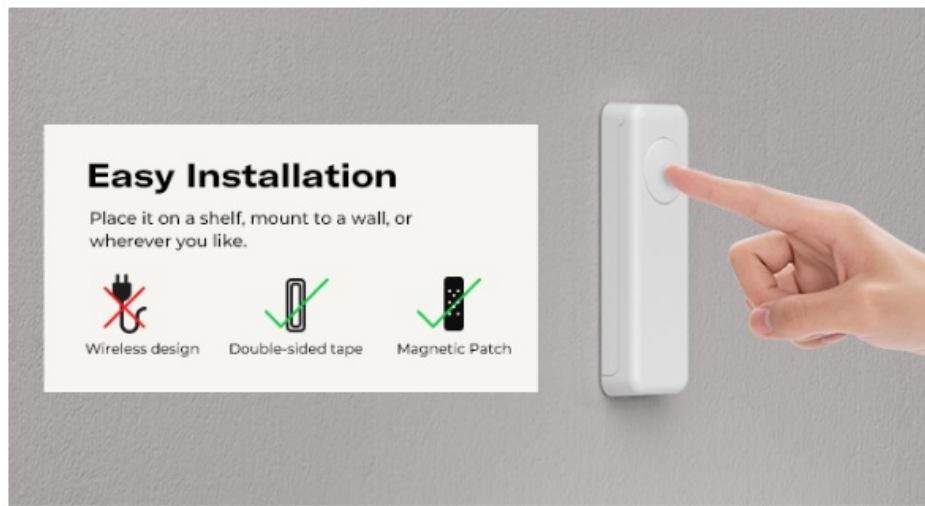

Personalized colors & stickers

- With four different colors available, you have more choices to easily identify the right area. Personalize your night light with custom colors and stickers to match your style.

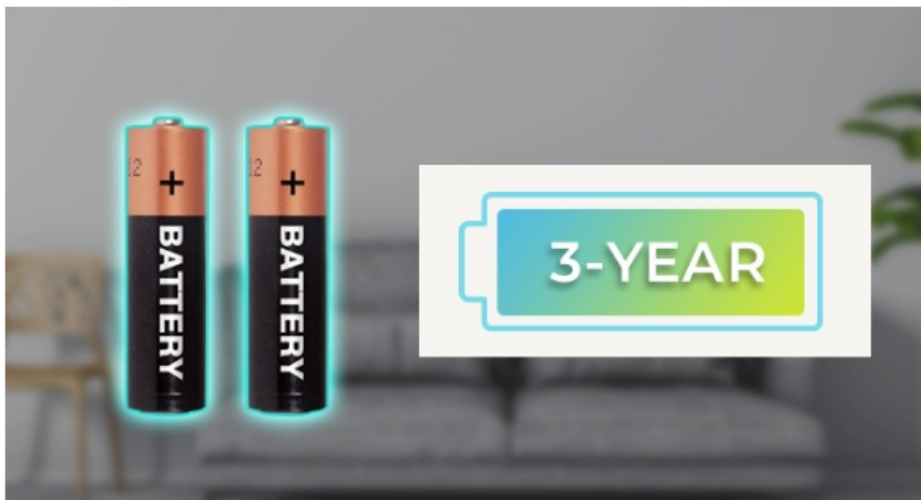

Easy Installation

- Compact design of the Smart Button allows you to place it wherever it's handy. You can stick it to the wall with the included double-sided tape or attach it to the fridge using the magnetic strips—both accessories are included.

Long battery life

- Powered by 2 AAA batteries, the Smart Button is easy to replace and can last up to 3 years, ensuring long-term reliability.

Ultimate Smart Button

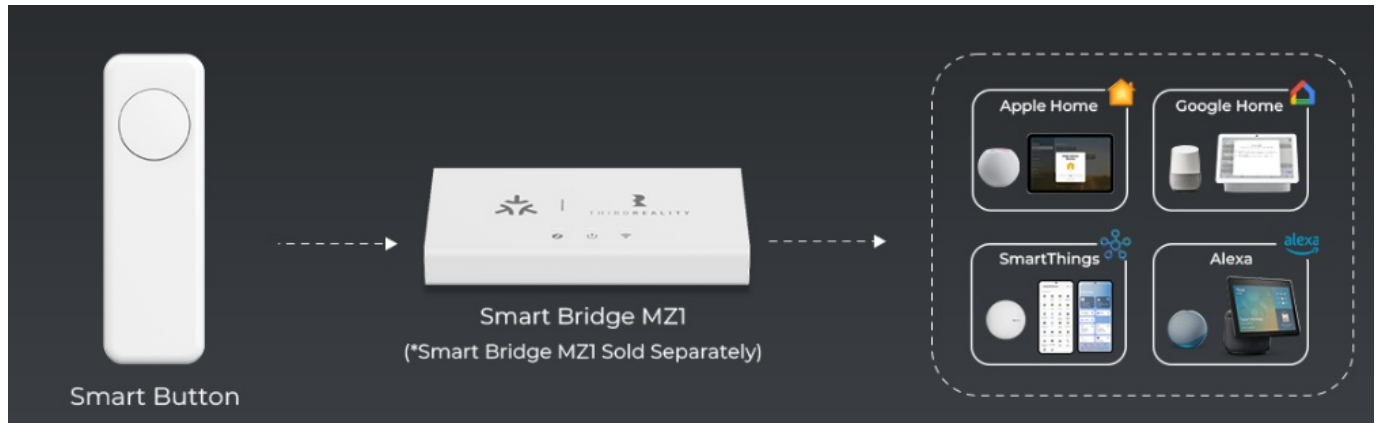

Elevate your home automation experience with the Ultimate Smart Button

With one press of the button, easily control a group of connected smart devices.

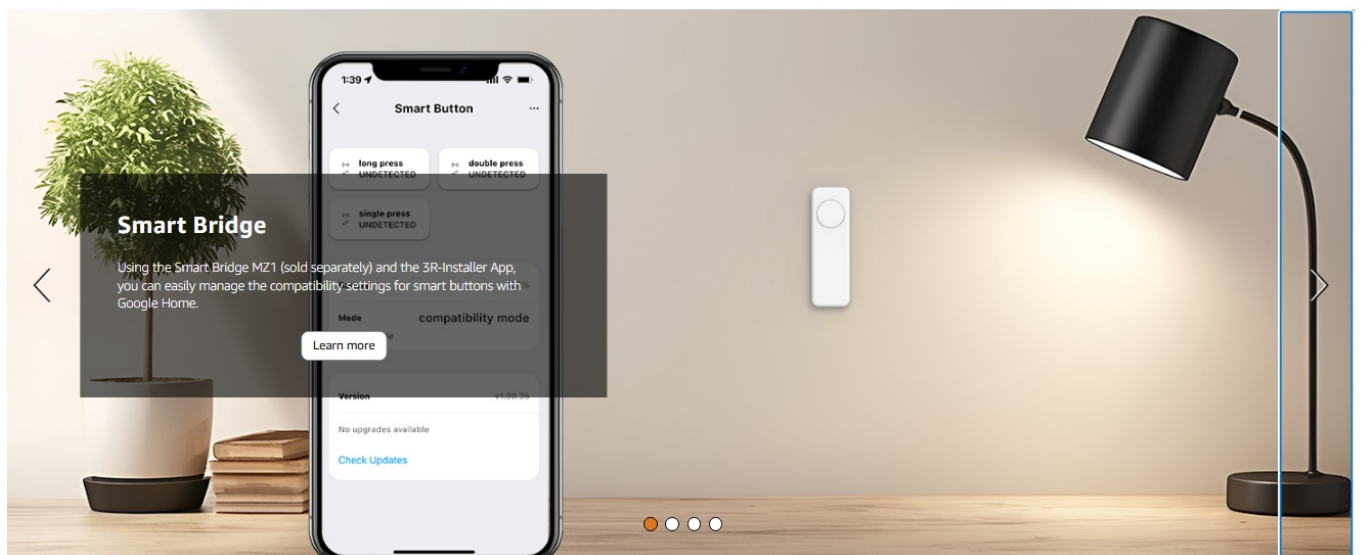

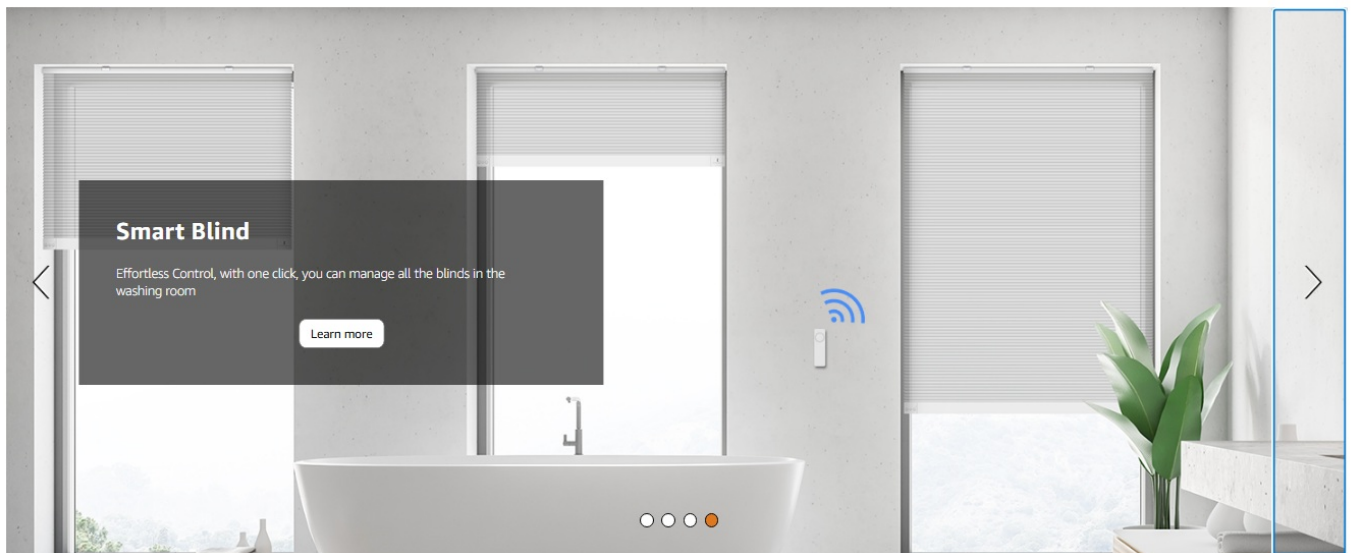

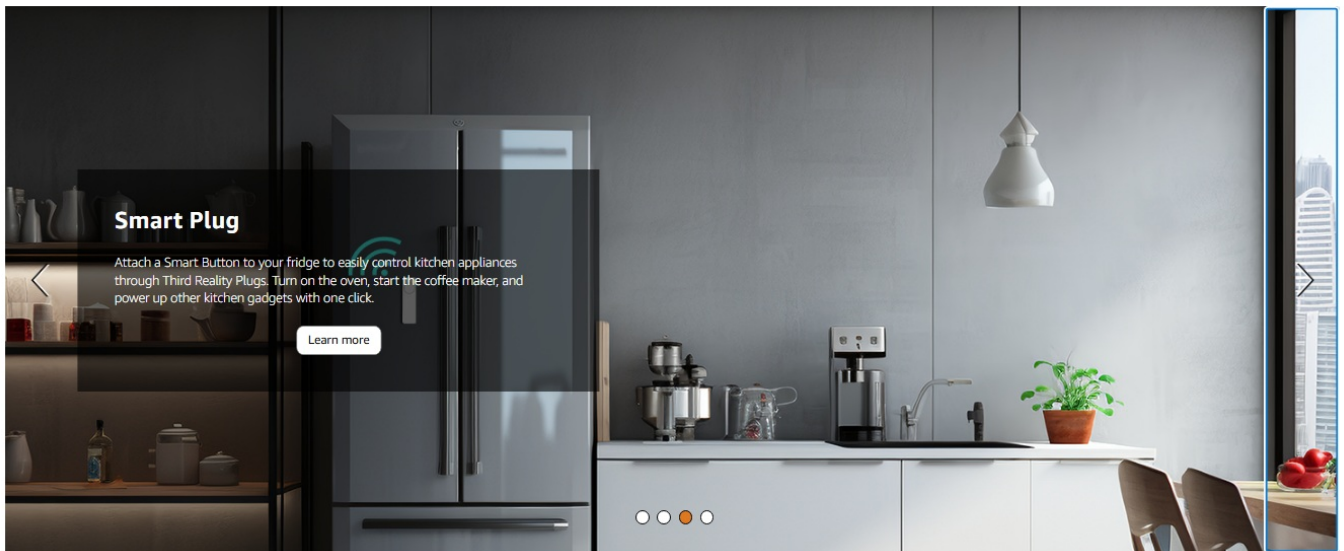

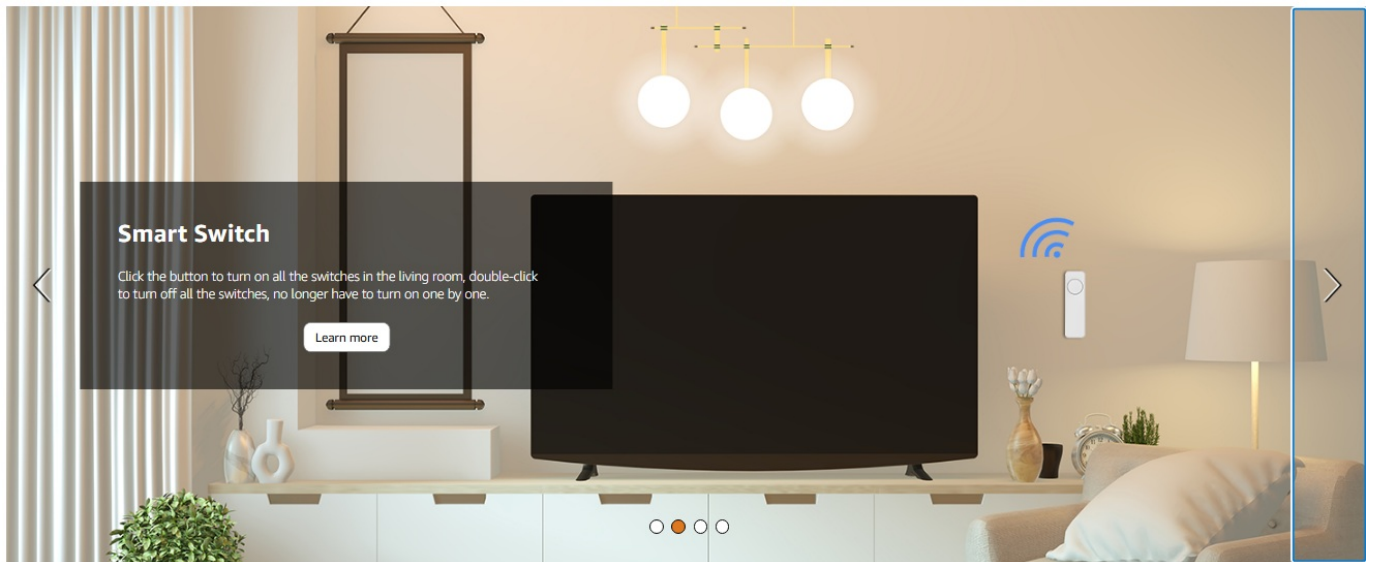

More Smart Assistant Supported

Enabled by Smart Bridge MZ1, Smart Button integrates with numerous smart assistants and home automation platforms, such as Apple Home, Google Home, Amazon Alexa, and SmartThings, ensuring easy control and monitoring.

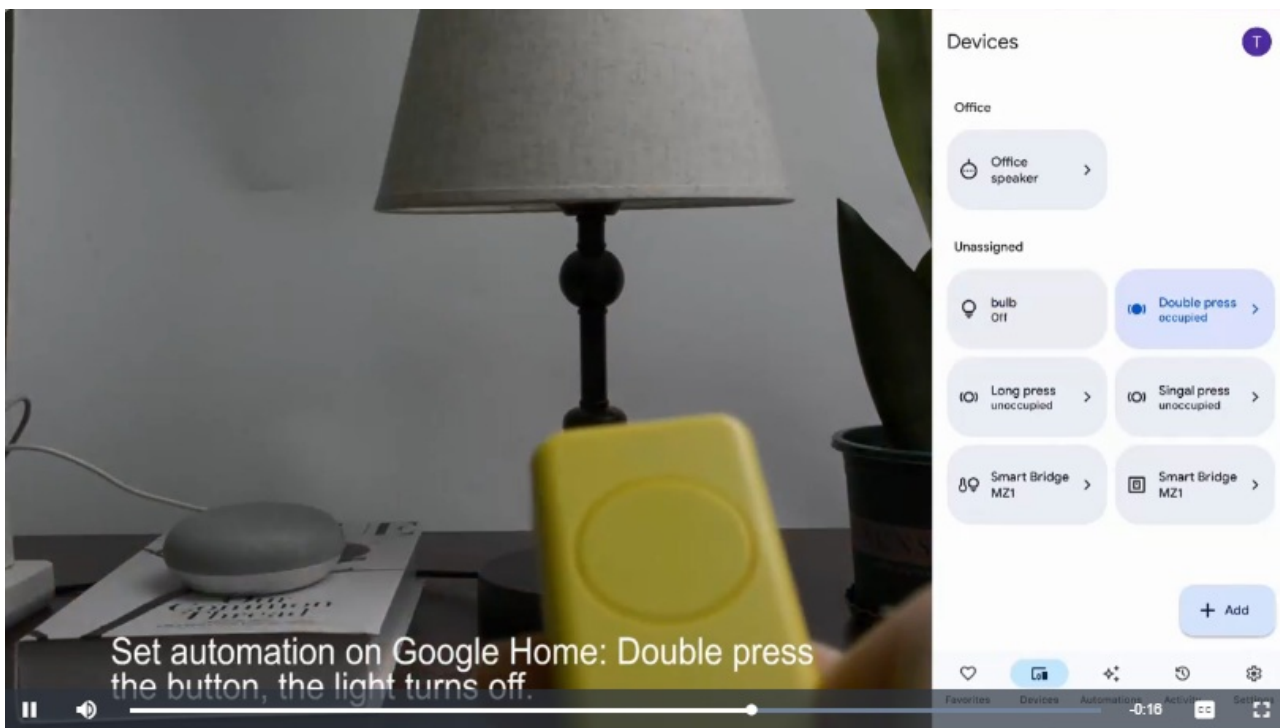

More fun with THIRDREALITY smart button

Product information

Technical Details

Manufacturer	Third Reality, Inc
Item Weight	4.3 ounces
Package Dimensions	4.21 x 3.86 x 1.18 inches
Country of Origin	China
Item model number	ZigBee Smart Button
Batteries	6 AAA batteries required. (included)
Color	Red/Blue/Yellow
Style	Samrt Button 3 Pack Red/Blue/Yellow
Material	Plastic
Shape	Rectangle
Power Source	Battery Powered
Voltage	3 Volts
Item Package Quantity	1
Temperature Range	0-45 Degrees Celsius
Special Features	Ergonomic
Batteries Included?	Yes
Batteries Required?	Yes
Battery Cell Type	Alkaline
Description Pile	Alkaline

Product Usage Instructions

- **Pairing the Smart Button:**

- To pair with Amazon Echo devices with built-in Zigbee hub, the smart button will blink blue/red. For other hubs:
- Press the reset button on the smart button five times quickly.
- The LED light should start blinking blue, indicating it's in standard pairing mode.
- **Using the Smart Button with Alexa:**
 - **Single press:** Register as Open in the Alexa app.
 - **Double press:** Register as Closed.
 - **Hold the button:** Toggle between Open and Closed.
- **Troubleshooting:**
 - **If the smart button becomes unresponsive or goes offline:**
 - Keep other hubs at least a meter away to avoid interference with Zigbee signals.
 - Check Wi-Fi router settings for channel interference and consider changing to a different channel (e.g., channel 1 or 6).
 - Refer to the Zigbee hub manual for troubleshooting connection issues.
 - **Adding the Smart Button to Apple Home:**
 - Detailed instructions for adding the smart button to Apple Home are not provided in the manual. Please refer to Apple Home support or the manufacturer's guides for assistance.
 - **Adding Edge Driver in SmartThings:**
 - Open the provided link in your web browser and log in to your SmartThings account.
 - Click Enroll, navigate to Available Drivers, and select Install to install the device driver.

FAQs

- **When powered up, my smart button turns blue/red blinking.**
 - Your smart button is in pairing mode for Amazon Echo devices with a built-in Zigbee hub. To pair with other hubs, follow the steps mentioned in the manual.
- **How to set up the smart button in Alexa?**
 - Refer to the usage instructions provided earlier for setting up and using the smart button with Alexa.
- **Why does my smart button sometimes become unresponsive or go offline?**

- The manual suggests keeping other hubs away, checking Wi-Fi router settings, and referring to Zigbee hub manuals for troubleshooting connectivity issues.
