## SKILLS TO LEARN

COLOUR AND NUMBER RECOGNITION SIMPLE COMMUNICATION MEMORY, CONCENTRATION & ATTENTION FOLLOWING INSTRUCTIONS HAND-EYE COORDINATION IMAGINATIVE PLAY LISTENING BASIC VOCABULARY

Non-rechargeable batteries are not to be recharged, as they may explode or leak. Rechargeable batteries are only to be charged under adult supervision. Rechargeable batteries are to be removed from the toy before being charged. Do not mix different types of batteries (i.e. alkaline and zinc-carbon) or new and used batteries. Batteries must be inserted with the correct polarity.

Remove batteries if the toy is not to be used for a long period of time. Remove exhausted batteries as they may leak and cause damage to the toy. Do not short circuit the supply terminals. The packaging must be retained because it contains important information.

Remove all packaging materials before giving this toy to a child. Details and color of parts may vary. Subject to availability. Conforms to safety requirements. Batteries: 2 x AAA (included)

The purpose of the crossed-out wheellie bin symbol is to remind us that most electrical products and batteries contain trace elements that could be harmful to our environment and therefore our health. We must all be careful to dispose of them responsibly in a specifically designated way —either using a collection scheme or into the correctly labeled civic amenity (NOT into general waste) — this will help your local authority to arrange to recycle or dispose of them in the appropriate manner.
