# **Parts Required**

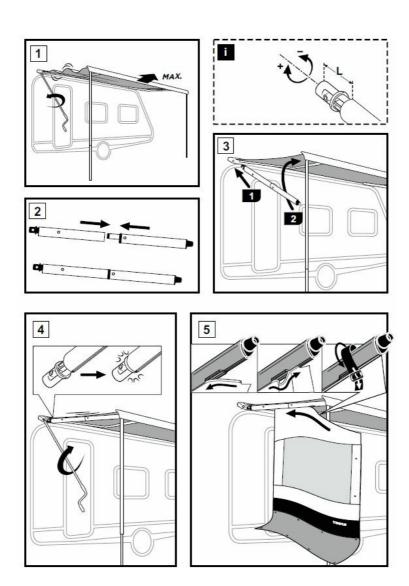

## **Product Usage Instructions**

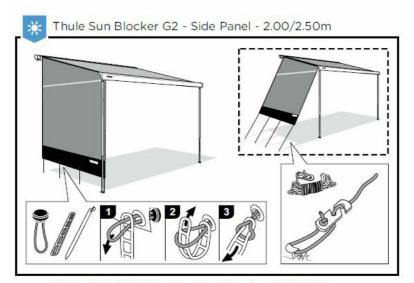

To use the Thule Smart Panels, follow these steps:

- 1. Determine the specific model of the side panel you have (e.g., Thule Sun Blocker G2, Thule Rain Blocker G2, Thule View Blocker G2).
- 2. Ensure you have the correct size of the side panel based on your needs (2.00/2.50m or Minivan VW California T5/T6 > 2003).
- 3. Attach the side panel to the corresponding Thule product by following the instructions provided in the product's user manual.
- 4. If necessary, repeat the attachment process for multiple side panels.
- 5. Ensure that the side panels are securely attached and provide the desired coverage.

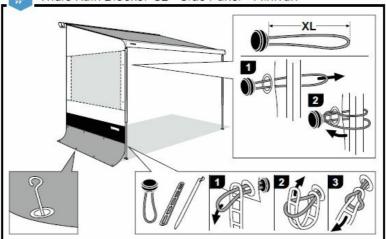

Note: The specific attachment method may vary depending on the Thule product you are using the side panels with. Refer to the respective product's user manual for detailed attachment instructions.

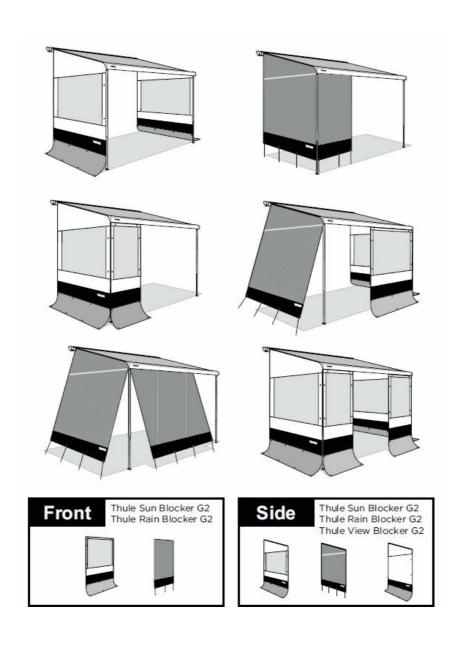

## **Assembling**

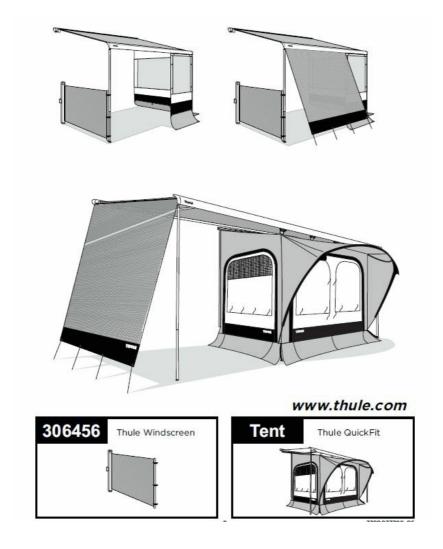

Thule Rain Blocker G2 - Side Panel - 2.00/2.50m
Thule View Blocker G2 - Side Panel - 2.50m
Thule Rain Blocker G2 - Side Panel - Minivan

Read the instructions carefully. Wrong installation, use or repair voided warranty. If recovery is needed, consult a dealer.

#### **General remarks**

Check if the supplied product suits the type, height, and projection of the canopy.

- When attaching the positioning pieces in the main housing of the awning, respect the following rules:
- The surface has to be dry and clean, no dust, no grease. Press well. Please wait 72h before usage!
- The sun can affect colors depending on usage.
- When it rains, put one side of the awning lower so that the water can drain.
- When wind reaches 6 Bft. please store the panels and close the awning.
- Don't place heat sources near the walls or the roof.

#### **Maintenance**

- Ensure that there are no hard objects on the window during folding. This is to prevent impressions.
- Let the panel dry thoroughly before long time storage.
- Use pure water or a dry brush to clean the panel.
