Odmaster Web

Odmaster Web allows you to set parameters on the web page. After saving, it will be synchronized to the mobile phone and can be directly written to the radio. Compared with the mobile phone page, the web page is more

comfortable, convenient and faster.

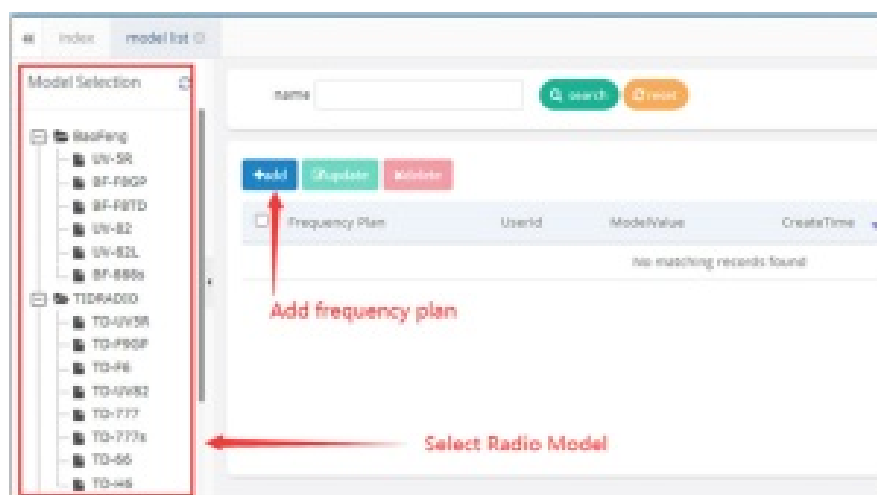

1. Open the “Remote Program” button in the selling of the Odmaster APP

2. Sign in your account on Odmaster Web (web.odmaster.net)

3. Select radio model,click “add” then program frequency and function

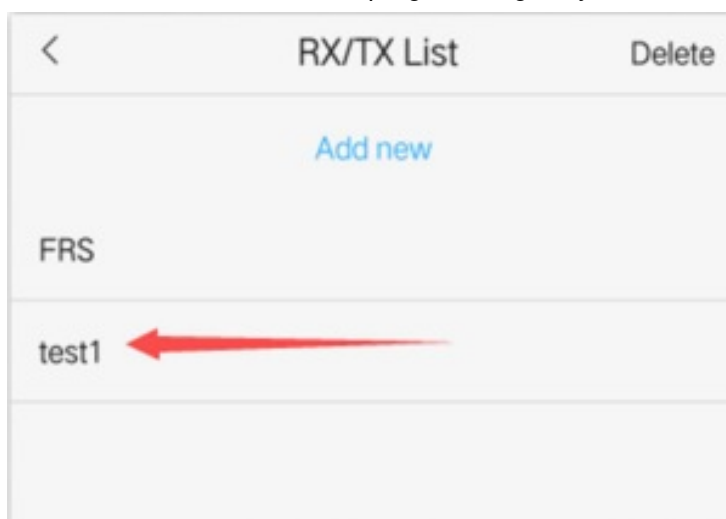

4. Write channel information and optional feature, finally name it and save

Channel	RX Frequency	TX Frequency	Enc	Enc	TX Power	Wdth	PTTID	Busy Lock	Scan Add	Signal Code	Name
0	158-171.000.00	158-171.000.00	QPSK	QPSK	HQ20	10	QPSK	QPSK	QPSK	1	Custom or name
1	158-171.000.00	158-171.000.00	QPSK	QPSK	HQ20	10	QPSK	QPSK	QPSK	1	Custom or name
2	158-171.000.00	158-171.000.00	QPSK	QPSK	HQ20	10	QPSK	QPSK	QPSK	1	Custom or name
3	158-171.000.00	158-171.000.00	QPSK	QPSK	HQ20	10	QPSK	QPSK	QPSK	1	Custom or name
4	158-171.000.00	158-171.000.00	QPSK	QPSK	HQ20	10	QPSK	QPSK	QPSK	1	Custom or name
5	158-171.000.00	158-171.000.00	QPSK	QPSK	HQ20	10	QPSK	QPSK	QPSK	1	Custom or name
6	158-171.000.00	158-171.000.00	QPSK	QPSK	HQ20	10	QPSK	QPSK	QPSK	1	Custom or name
7	158-171.000.00	158-171.000.00	QPSK	QPSK	HQ20	10	QPSK	QPSK	QPSK	1	Custom or name
8	158-171.000.00	158-171.000.00	QPSK	QPSK	HQ20	10	QPSK	QPSK	QPSK	1	Custom or name
9	158-171.000.00	158-171.000.00	QPSK	QPSK	HQ20	10	QPSK	QPSK	QPSK	1	Custom or name
10	158-171.000.00	158-171.000.00	QPSK	QPSK	HQ20	10	QPSK	QPSK	QPSK	1	Custom or name

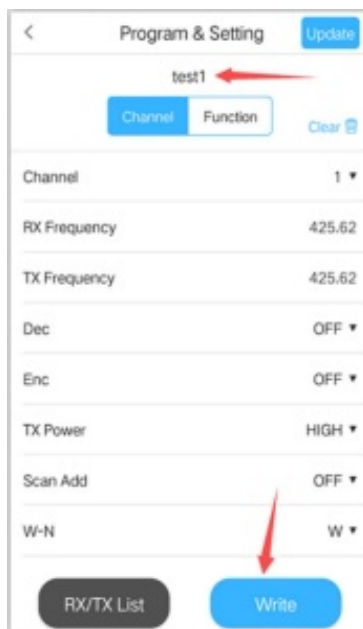

5. Connect the Bluetooth programmer, select radio model, then read from your radio

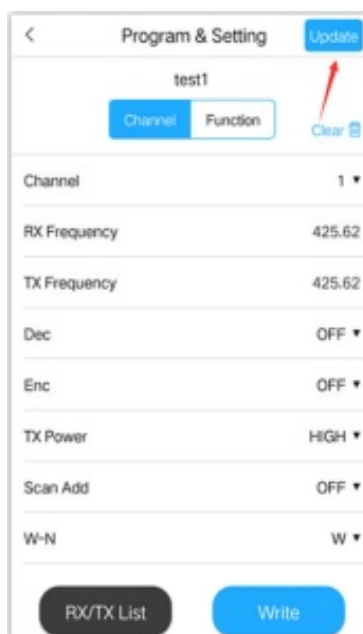

6. Click “RX/TX List”, select the programming file you have saved

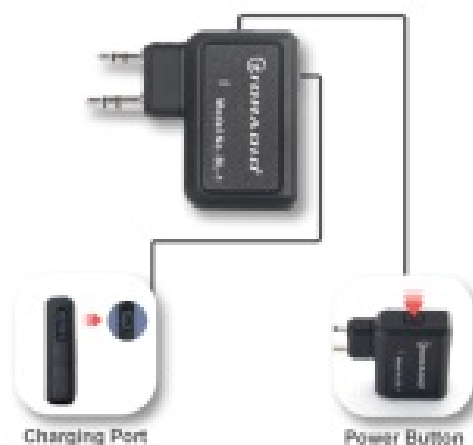

7. Then write to your radio

8. If you want to modify the parameter on App.you can change it, then click “Update”

Tips for indicator light

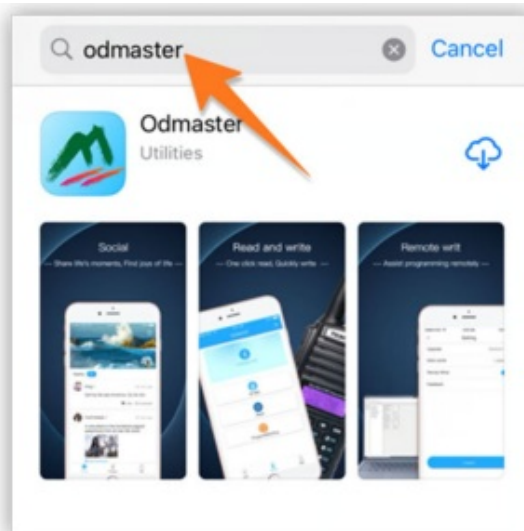

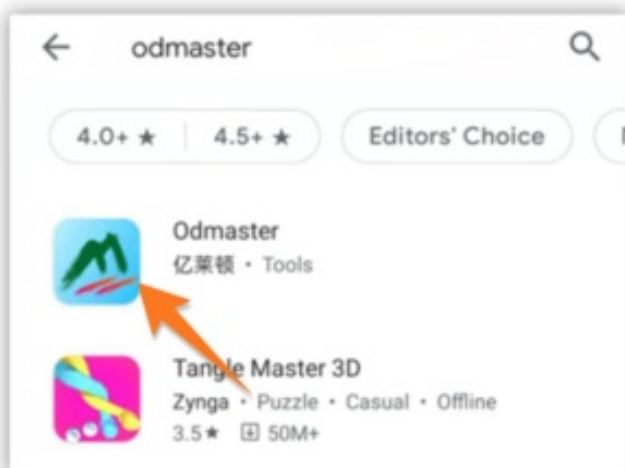

Download Odmaster App

Google Play

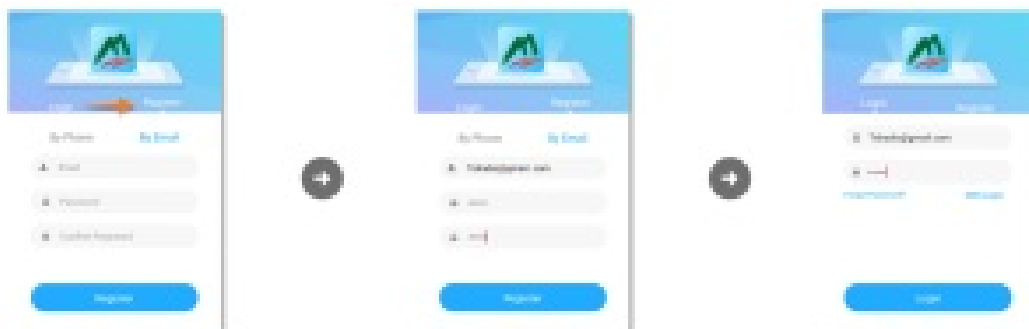

iOS App Store

— Step 2 —

Register an account and log in

Tips: It is recommended to register by email

— Step 3 —

Plug the Bluetooth programmer into your radio and make sure they are both on

Tips: After the Bluetooth programmer is turned on the indicator light is **green**.

– Step 4 –

Connect bluetooth and radio in app

Tips:

After the phone is turned on Bluetooth, do not paired the device with your phone in BT settings, **just make sure that BT is enabled** and then open the Odmaster App and **pair with the programmer within the App.**

– Step 5 –

Select model and read from radio

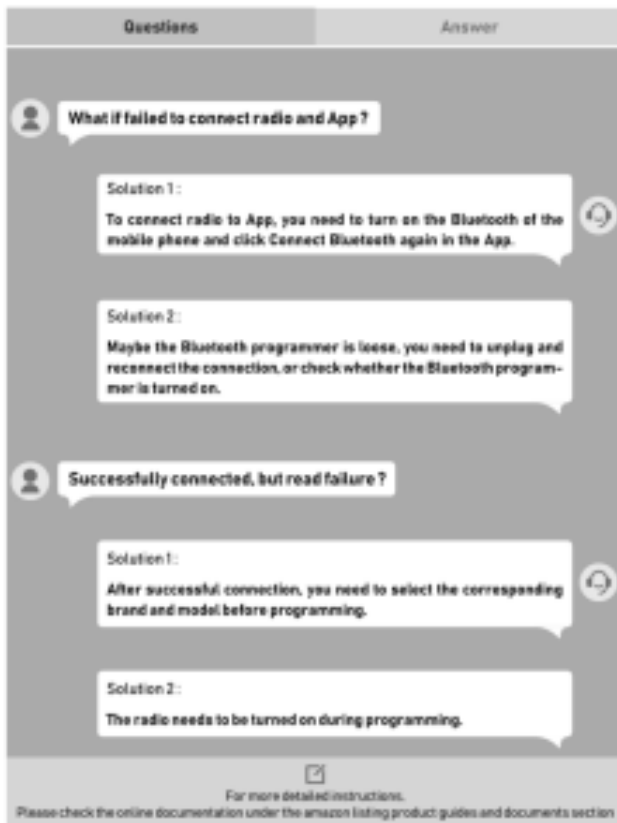

– Step 6 –

Program data and write to radio

Tips:
When the Bluetooth
programmer is **writing**,
the indicator light
flashes green.
