TIGGSY SL-000 2-Pack Tree Solar Lanterns

INTRODUCTION

The TIGGSY SL-000 2-Pack Tree of Life Solar Lanterns will turn your patio, backyard, or garden into a calm and magical haven. These gorgeously crafted lanterns, which retail for **\$47.99**, are the perfect addition to any outdoor area because they skillfully combine artistic elegance and practicality. A warm, inviting atmosphere is created for family get-togethers, evening parties, or peaceful evenings outside thanks to the distinctive Tree of Life pattern on each lantern, which creates complex, captivating shadows. These lanterns are built to last all year round since they are made of sturdy powder-coated metal with an antique bronze finish that is resistant to rust, corrosion, and inclement weather. Equipped with energy-efficient solar panels, they can brighten your space for up to eight hours at night and charge automatically in sunlight during the day. Perfect for anyone wishing to enhance their outdoor décor, the TIGGSY SL-000 lanterns are a decorative marvel and a useful lighting solution that is simple to hang and maintain.

WHAT'S IN THE BOX

- 2 x TIGGSY SL-000 Tree of Life Solar Lanterns
- 1 x User Manual

FEATURES

- **Elegant Tree of Life Design:** Each lantern showcases a beautifully crafted Tree of Life cutout, casting intricate and mesmerizing shadows that instantly elevate your outdoor décor.
- **Antique Bronze Finish:** The classic powder-coated bronze finish adds a vintage charm, making these lanterns a stylish accent for any garden, patio, or backyard space.
- **Solar-Powered Efficiency:** Equipped with built-in solar panels, these lanterns harness sunlight during the day and automatically illuminate your space at night—no batteries or wiring required.
- **Automatic Dusk-to-Dawn Lighting:** A smart light sensor ensures the lanterns switch on at sunset and turn off at sunrise, offering effortless, worry-free illumination.
- **Long-Lasting Battery Life:** Once fully charged, each lantern can provide up to 8 hours of steady, warm light, ensuring your evenings stay beautifully lit.
- **Weather-Resistant Build:** With an IP65 waterproof rating, these lanterns are designed to endure rain, wind, and other outdoor elements without compromising performance.
- **Compact and Versatile Size:** Measuring 6.8 inches tall and 4.7 inches wide and deep, these lanterns fit perfectly in various outdoor settings, from small patios to garden nooks.
- **Flexible Placement Options:** Hang them from hooks, pergolas, or trees, or place them on any stable surface, allowing you to decorate your space exactly how you want.
- **Energy-Efficient LED Lights:** The built-in LEDs provide bright, warm illumination while consuming minimal energy, making them eco-friendly and cost-effective.
- **Eco-Conscious Design:** Powered entirely by solar energy, these lanterns help reduce your carbon footprint while keeping your outdoor space lit.
- **Low Maintenance Requirement:** Made with durable materials, these lanterns are easy to clean and maintain, letting you enjoy their beauty without extra effort.
- **Simple Installation:** No technical setup needed—just place or hang in a sunny location, and they're ready to glow.
- **Gift-Ready Presentation:** Packaged attractively, these lanterns make a thoughtful and stylish gift for housewarmings, holidays, or any special occasion.
- **Handcrafted Quality:** Each lantern is carefully handmade, ensuring attention to detail and a unique touch in every piece.

- **Customer Satisfaction Guarantee:** TIGGSY offers a 30-day return policy, reflecting their dedication to providing a high-quality product you'll love.

SETUP GUIDE

- **Unbox the Lanterns:** Gently remove the lanterns from their packaging to prevent scratches or damage.
- **Check All Components:** Verify that hooks, batteries, and other parts are included in the box.
- **Inspect for Damage:** Look over each lantern for dents, cracks, or defects before starting setup.
- **Activate the Solar Panel:** Turn the switch on the bottom of the lantern to the “on” position to begin charging.
- **Initial Sun Charge:** Place the lanterns under direct sunlight for 6–8 hours before their first use to ensure optimal battery performance.

- **Choose the Perfect Spot:** Pick a location that receives maximum sunlight exposure throughout the day.
- **Avoid Shading:** Ensure nearby trees or structures don't block sunlight from reaching the solar panel.
- **Hang or Mount:** Use the included hooks to hang the lanterns from branches, pergolas, or wall mounts.
- **Flat Surface Placement:** If not hanging, place the lanterns securely on a stable, level surface outdoors.
- **Maintain Proper Spacing:** Keep lanterns at least 12–18 inches apart to maximize light projection and aesthetic appeal.
- **Correct Orientation:** Angle the solar panel upward to absorb sunlight efficiently.
- **Ensure Stability:** Position lanterns firmly to prevent tipping in windy or rainy conditions.
- **Test Automatic Lighting:** Wait until dusk to confirm the lanterns turn on automatically.
- **Adjust as Needed:** Move lanterns to sunnier spots if the light output is weak or inconsistent.
- **Daily Sun Exposure:** Leave the lanterns in sunlight every day for consistent, bright evening illumination.

CARE & MAINTENANCE

- **Regular Cleaning:** Wipe the lanterns with a soft, damp cloth to remove dust, dirt, and debris.
- **Keep Solar Panels Clear:** Make sure the panels are free of leaves, dust, or other obstructions to maintain efficient charging.
- **Replace Batteries When Needed:** If the lanterns fail to light after charging, install a compatible rechargeable battery.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or strong chemicals, as they can damage the lantern's finish.
- **Store During Extreme Weather:** Bring the lanterns indoors during storms or harsh winter conditions to prolong their lifespan.
- **Inspect for Wear:** Check regularly for signs of damage and repair or replace parts as necessary.

- **Prevent Overcharging:** Although designed for sunlight exposure, avoid leaving them in the sun for longer than required.
- **Use Correct Batteries:** Always replace batteries with those matching the manufacturer’s specifications.
- **Secure Placement:** Ensure lanterns are placed in safe areas where they won’t be knocked over by wind or pets.
- **Seasonal Storage:** Clean the lanterns and store them in a dry, cool place when not in use for extended periods.
- **Check LED Function:** Inspect lights if they flicker or fail to illuminate, ensuring wiring and connections are intact.
- **Avoid Overloading:** Do not hang additional weight from the lanterns to prevent structural strain.
- **Monitor Light Output:** If illumination decreases, check solar panels for cleanliness and correct positioning.
- **Prevent Pests:** Keep lanterns free from insects, nests, or debris that could block light emission.

TROUBLESHOOTING

| Issue | Possible Cause | Solution |
|-----------------------------------|--------------------------------|---|
| Lantern doesn’t light up at night | Switch is off | Turn the switch to the “on” position |
| Lantern doesn’t light up at night | Insufficient sunlight exposure | Relocate to a sunnier spot |
| Dim light output | Dirty solar panel | Clean the solar panel with a soft cloth |
| Flickering light | Loose LED connection | Check and secure the LED connections |
| Short battery life | Battery nearing end of life | Replace with a new rechargeable battery |

| Issue | Possible Cause | Solution |
|---------------------------------------|------------------------------------|---|
| Lantern lights briefly then goes off | Weak solar charge | Leave lantern in direct sunlight for a full day |
| Lantern light is uneven | Obstructed solar panel | Remove debris or shade from solar panel |
| Lantern does not charge | Damaged solar panel | Inspect panel for cracks; replace if necessary |
| Light is very dim | Old rechargeable battery | Replace battery with a new, compatible one |
| Lantern does not turn off in daylight | Faulty light sensor | Reset the switch or move lantern to a properly lit area |
| LED fails to glow | LED burnout | Replace LED module if accessible |
| Lantern turns on too early | Sensor exposed to artificial light | Move lantern away from street lights or lamps |
| Lantern rusting | Prolonged exposure to water | Dry lantern and apply rust-resistant coating if needed |
| Lantern unstable | Improper mounting or placement | Secure hooks or place on a flat, stable surface |
| Solar panel not angled correctly | Incorrect positioning | Adjust panel to face upward for maximum sunlight exposure |

PROS & CONS

Pros:

- Elegant and unique design
- Solar-powered, eco-friendly operation

- Durable and weather-resistant
- Easy to install and maintain
- Versatile placement options

Cons:

- Limited to areas with sufficient sunlight
- May require battery replacement over time
- Not suitable for areas with extreme weather conditions without additional protection
- Light intensity may vary based on solar exposure
- May not be as bright as wired lighting options

WARRANTY

TIGGSY offers a **30-day** return policy for the SL-000 2-Pack Tree of Life Solar Lanterns. This warranty ensures customer satisfaction and provides peace of mind regarding the quality and performance of the product. Should you encounter any issues within this period, TIGGSY's customer support team is available to assist with returns or replacements. It's advisable to retain your purchase receipt and contact TIGGSY directly for warranty claims.
