TIME TIMER TTA2-W Countdown Timer

GETTING STARTED WITH YOUR TIME TIMER® MOD

Congratulations on the purchase of your new MOD. We hope that it helps you make every moment count!

INSTRUCTIONS

• INSTALL ONE AA BATTERY

If your Time Timer MOD has a screw on the battery compartment, you'll need a mini Phillips head screwdriver to open and close the battery compartment. Otherwise, simply lift the battery cover up to insert the battery into the compartment.

• CHOOSE YOUR SOUND PREFERENCE

The timer itself is quite distracting ticking sound but you can choose whether or not to have an alert sound when time is complete. Simply use the on/off switch on the back of the timer to control audio alerts.

- **SET YOUR TIMER**

Turn the center knob on the front of the timer counter-clockwise until you reach your chosen amount of time. Immediately, your new timer will begin to countdown, and a glance will reveal the time left thanks to the brightly colored disk and large, easy-to-read numbers.

BATTERY RECOMMENDATIONS

We recommend using high-quality, name-brand alkaline batteries to ensure accurate timing. You may use rechargeable batteries with Time Timer, but they may deplete more quickly than traditional batteries. If you do not plan to use your Time Timer for an extended period (several weeks or more), please remove the battery to avoid corrosion.

PRODUCT CARE

Our timers are manufactured to be as durable as possible, but like many clocks and timers, they have a quartz crystal inside. This mechanism makes our products quiet, accurate and easy to use, but it also makes them sensitive to being dropped or thrown. Please use with care.
