PARENTAL CONTROLS USER GUIDE

CONFIGURING PARENTAL CONTROLS VIA THE TIME INTERNET APP
For Huawei devices (Huawei HG8145V5 and WA8021V5) only.

1. Activate extra features in the Time Internet app.
   - Ensure your device is connected to your home WiFi network.
   - Log in to the Time Internet app using your Self Care credentials.
   - Swipe right until you see the Control Hub screen.
   - Tap on Start Now to activate extra features.
   - Allow Location permission for the app to detect your connected WiFi.
   - Tap on Confirm to activate.
   - Once activated, you will see extra tools to manage your WiFi network
2. Tap on the Parental Controls icon then the Set Up Now button to get started.

3. From there, you will be able to create a Profile name, select the device(s) you want to limit, set the start and end time for the device(s) to access the Internet and add websites to block. Your selected device(s) will not be able to connect to the WiFi outside the access period you've set. The access period can also be changed, added and removed after it has been set. Your blocked websites can also be managed the same way.

4. After you're done, tap on Create Profile to proceed. You will see the profile you have set up on the Parental Controls screen. You can turn the profile on or off by toggling the button on the right. Tap on the+ symbol to add another profile. To delete, swipe left on the selected profile and tap on Delete.

5. To edit a profile, simply tap on the name. Tap on Save on the top right after you have made your changes. You can also delete your profile from this screen.
