Attention

Although we encourage investigation of potential security breaches, we cannot tolerate any activity that may interfere with legitimate users or may violate applicable computer abuse, cyber security and data protection regulations.

Therefore, the following activities are prohibited:

- Modification or destruction of data
- Service disruption or degradation, such as DoS
- Disclosure of personal, proprietary or financial information

Response Time

After receiving the vulnerability you reported, we will send you vulnerability response related information within 48 hours based on the platform you used to report the vulnerability, as follows:

1. For vulnerabilities reported via email, we will send you a vulnerability response notice, information confirmation and feedback related to the vulnerability via email. The progress of the vulnerability’s solution development will also be continuously updated through email as soon as possible.
- * **Note:** Actual vulnerability response time may vary depending on the risk level and complexity of the vulnerability.

Product Support Policy

We strive to provide continuous security updates for our products. The security updates generally include the latest patches, vulnerability fixes, and other security improvements. We will generally maintain security updates for at least two years from the launch date of a product. However, the security update situation may vary by product, so please pay attention to our announcements.
