Tiqiaa R09-T Smart Remote Control

Specifications

- **Compatibility:** IOS and Android devices
- **Connection:** Bluetooth
- **DIY Learning Function:** Available for Android devices
- **FCC Compliance:** Part 15

Download APP

- Scan the QR code to download the app.

Assembly the smart remote control

IOS

Scan the package QR code to download the app, or search “Uni TV Remote” in the Apple App Store to download the app.

Android

Scan the package's QR code to download the app, or search for and download "ZaZa Remote" in the Google Play Store.

Insert the Remote-control Accessories IOS(USB-C)

Please make sure that the Bluetooth on the mobile phone is turned on before use, and there is no need to connect it manually.

Android(Type-C)

Please make sure that the Bluetooth of the mobile phone is turned on before use, and there is no need to connect it manually. For the first use of an Android phone, you need to click Add Remote Control in the upper left corner, and select Tiqiaa Smart Add BLE accessory ADD to connect and pair. After a successful pairing, you do not need to operate again next time.

Adapt Infrared Appliances

Method One: Feature Matching After confirm that the remote-control accessories are connected, open the APP and enter the remote-control interface, click the "≡" on the top left corner, click "+", select the type of the appliance in the "add control" interface, and then select the brand of the appliance. Complete the matching as per the instructions and select the most adaptive remote-control code according to the match situation (press the button in the interface, if the appliance sends a proper response, it means the matching is correct).

Method Two: Brand and Model Matching

In the search box, enter the brand and model of the appliance, and you can download the corresponding remote code.

Method Three: DIY Learning Function

(IOS system temporarily not supported)

If no matching appliance remote code can be found, DIY learning can be chosen to record an existing appliance remote.

Save the remote-control unit

After adapting the appliance as per instructions, save the remote-control unit and it can be used directly next time.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected

- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. The device has been evaluated to meet the general RF exposure requirements. The device can be used in portable exposure conditions without restriction.

FAQs

Q: Can I use this remote with all types of appliances?

A: The remote can be used with a wide range of appliances; ensure compatibility by following the setup instructions for each device.

Q: How do I reset the remote if it stops working?

A: To reset the remote, remove the batteries, wait for a few seconds, then reinsert them. Follow the initial setup process again if needed.
