Tizwis CL-V11 LED Fill Light

Product Information

Specifications

- Product Name: LED Fill Light
- Models: CL-V11, CL-V11SE, CL-V11R
- Ultra-thin design
- Color temperature/brightness adjustable
- Built-in 3000mAh battery
- Approximately 2 hours of continuous lighting
- Compatibility: Mobile phones and laptops

Product Usage Instructions

Matters Needing Attention

1. This fill light does not have waterproof and dustproof functions.
2. Do not let this fill light be strongly impacted.
3. Do not look directly at the light-emitting surface of the fill lamp in use for a long time in a static distance, or it may damage your vision.
4. After charging, unplug the power cord.
5. After not using this product for a long time, the battery should be fully charged before using this product again, otherwise it may lead to no power and unable to start.
6. To extend the service life of the battery, it is recommended to charge and maintain it every three months.
7. This product has a built-in rechargeable lithium battery, which has a certain life limit. After a certain period of use, the performance will be reduced, which is a normal phenomenon.

Product Installation

Fixing Clip 1

It is fixed through the 1/4 screw hole and can be fixed by screwing the knob. (Compatible with other accessories linked by 1/4 screw)

Fixing Clip 2

1. First install the single leg of the fixing clip into the slot on the back of the fill lamp.
2. Then push the fixing clip towards the direction of both feet until the two feet of the fixing clip are also installed in the slot of the fill lamp.
3. Screw out the mobile phone mounting base of fixing clip 2.
4. Place the mobile phone in the direction as shown in the figure.

Function and Display

• CL-V11

- **ON/OFF:** Press and hold the power button for 3 seconds to turn on the fill light. Press and hold the power button again for 3 seconds to turn off the light.
- **Parameter Settings:** Briefly press the M button to toggle color temperature/brightness options. Use the +/- buttons to adjust the parameter values.
- **Charge:** When using Type-c or Micro-USB interface to charge, the battery indicator will flash in flowing water. When the indicator is no longer flashing, it means that the charging is completed.

• CL-V11SE and CL-V11R

- **ON/OFF:** Press and hold the power button for 3 seconds to turn on the fill light. Press and hold the power button again for 3 seconds to turn off the light.
- **Mode Switching:** Briefly press the power button to switch modes, CCT/HSV/special effect, and three modes are switched.
- **Parameter Adjustment:** In any mode, briefly press the M key to switch between different parameters, and use the +/- keys to adjust the parameter values.

FAQ

• Q: Does the fill light have waterproof and dustproof functions?

A: No, the fill light does not have waterproof and dustproof functions.

• Q: How long does the battery last?

A: The built-in 3000mAh battery can provide approximately 2 hours of continuous lighting.
