THANK YOU!

Thank you for your purchase of the Tobenone Triple-Display Docking Station UDS-015D-Silver. Our dock provides the ability to connect three I monitors through two HDMI and one VGA interface SD&Micro SD Card Reader, 3.5mm Audio Microphone, USB-A 3.0, and USB-C PD 3.0. RJ45 Gigabit Ethernet to your USB-C laptop via one USB-C cable.

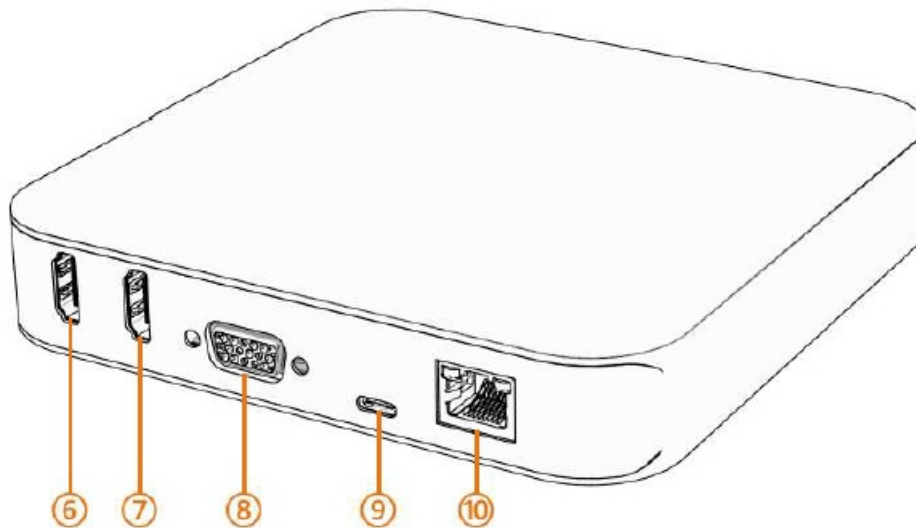

Ports and Connectors

Front:

- Host: Connect the laptop
- LED indicator
- SD&Micro SD: Read: 50-104MB/s, Write: 30-80MB/s
- 3.5mm Audio Microphone
- 4*USB 3.0: 5Gbps, 5V/0.9A@4.5W

Back:

- HDMI 1: Up to 4K@30Hz on DPI .2, 4K@60Hz on DPI .4
- HDMI 2: Up to 4K@28Hz on DPI .2, 4K@30Hz on DPI .4
- VGA: Up to 1080P
- PD 3.0: Connect the Power adapter
- RJ45 Gigabit Ethernet: Up to 1 000Mbps

INSTRUCTION STEPS

- **Step 1:** Connect the Power Cord to the 65W Power Adapter
 - **Step 2:** Connect the 65W Power Adapter to PD 3.0(@)
 - **Step 3:** Connect the dock and your laptop via USB C to USB C cable as provided
 - **Step 4:** Connect monitors via dual HDMI(@@) and VGA(@), cables(HDMI to HDMI/ VGA/DP, VGA to VGA/HDMI/DP) are not included
 - **Step 5:** Install initiate InstantView to display:
 - Firstly, connect the docking station to the laptop via USB C cable, and you will see a disk named "INSTANTVIEW"
 - Double-click and open the file, according to your system choose the proper application and complete the driver installation within seconds
 - For macOS, the opp will require a screen recording permission to capture pixels and send them to your external monitors Apple Menu-> System Preference->Security&Privacy-> select "Privacy" tab->5coll to find "Screen Recording" and check "macOS instant view"
- NOTE:** The INSTANVIEW app doesn't store or record any screen content.

- Click Instantview APP, and it will enable external displays immediately
- **Step 6:** Attach USB 3.0 D, devices to the front USB 3.0(®). Insert SD card and Micro SD card into SD/TF slot(@)
- **Step 7:** Connect the speaker, headphones, or microphone to the 3.5mm Audio Microphone(@). Connect the Ethernet cable to the RJ45 Ethernet port(@))

Troubleshooting

No Display output via HDMI

1. Please ensure your laptop's USB-C port supports Power Delivery, DisplayPort, and Data transfer
2. Please check if the connection between the monitors, dock and laptop is tight
3. Please use a standard HDMI cable, HDMI to HDMI is recommended

NO audio output from the monitor

1. Please make sure your monitor supports the audio output function
2. Set the external monitor as the default audio output device
