TOBENONE UDS022S USB-C Docking Station Dual Monitor

THANK YOU!

Thank you for your purchase of the Tobenone 11-in-1 USB C Dual Monitor Dock UDS-022. This dual-monitor docking station can help to expand Windows laptop's USB C port to two HDMI, SD & microSD card slots, 3.5mm audio & Mic, USB-A, USB-C, DC-IN, and RJ45 Gigabit Ethernet, so you can easily connect multi-devices via one USB-C cable.

Ports and connectors

1. **Audio Port:** Connect to earphones or other devices with a 3.5mm connector
2. **SD 3.0 card reader support read:** 88MB/s, write: 38MB/s
3. **Micro SD card reader support read:** 88MB/s, write: 38MB/s

4. **USB A Port:** Support data transfer at speeds up to 5Gbp/s.
5. **USB-A 3.1 Port:** Support data transfer at speeds up to 10Gbp/s
6. **USB-C 3.1 Port:** Support data transfer at speeds up to 10Gbp/s
7. **DC-IN Port:** Charge your laptop through the DC port. power supply included
8. **Ethernet Port:** Supports 10/100/1000 Mbps
9. **HDMI 2 Port:** Connect to a device with an HDMI port to stream video at resolutions up to 4K 3840×2160@60Hz (DPI .4) | 3840x 2160@30Hz (DPI .2)
10. **HDMI 1 Port:** Connect to a device with an HDMI port to stream video at resolutions up to 4K 3840×2160@60Hz (DPI .4) | 3840x 2160@30Hz (DPI .2)
11. **USB-C Host:** Connect to your Full-feature USB C Windows laptop

Note: This laptop Dual display dock only can work for Full-feature USB C Windows laptops, not for macOS!

Using Your Dock

Please follow the Below Steps to Using Your Dock

- **Step 1:** Please plug the power adapter into the DC-IN port((7)
- **Step 2:** Please connect the USB C host (11) of the dock UDS22 and the USB C port of the Windows laptop via USB-C cable as provided
- **Step 3:** Use a standard HDMI cable to connect the first HDMI monitors via HDMI 1 port(10)
- **Step 4:** Use a standard HDMI cable to connect the second HDMI monitor via HDMI 2 port(9)
- **Step 5:** Attach USB 3.0, USB 2.0, and USB-C devices to the USB ports of the dock(4, 5, 6). Attach SD and microSD cards to the card slots(2, 3)
- **Step 6:** Connect Speaker/headphones or Microphones to the audio port(1)
- **Step 7:** Connect the ethernet cable to the Ethernet port(8)

Extend Dual Monitors Docking Station

Troubleshooting

Q: There's no video output after connecting the product.

A: Please make sure the port you are plugging into the product is USB C or Thunderbolt 3/4 port which supports Power Delivery and Alt Mode DisplayPort. You can check this by the manual of your laptop or contact your laptop manufacturer for support.

Q: My USB device is detected, but it shows an unrecognized error on the screen.

A: First connect the power supply to the DC-IN port, then connect all other devices, and finally reset the SMC (System Management Controller) Please unplug and plug in again.

Free warranty Extended

Register FREE 24-Month Warranty at www.tobenone.com/warranty.
