## SAFETY INSTRUCTIONS

Thank you for choosing this product. Please consider the following instructions to ensure safe and proper use:

1. Only use this dehumidifier indoors; avoid outdoor use.
2. Place the appliance on a flat surface away from direct sunlight to prevent damage.
3. Keep the appliance upright to prevent water leakage.
4. Always unplug the appliance before cleaning or removing the water tank.
5. Don't use the power adapter in damp locations to avoid electric shock. Keep it well-ventilated.
6. Keep the power adapter away from high-traffic areas, never placing cords under rugs or near heat sources.
7. Don't use the appliance if the cord or plug is damaged.
8. Don't move or tilt the appliance while in use.
9. Keep the air inlet and outlet unblocked for proper performance.

- 10. Never insert foreign objects into the air outlet to prevent damage.
- 11. Don't use sharp objects to clean or scrape the appliance.
- 12. Don't place heavy objects on top of the appliance to avoid damage.
- 13. If not in use for an extended period, drain the water tank and turn off the appliance.
- 14. Only allow persons 8 years and above, or persons with supervision, to use the appliance after they have been instructed on safe use and hazards.
- 15. Use the included power supply only.

By following these instructions, you will use your dehumidifier safely and prolong its lifespan.

Rated Power	76.5-93.5W
Net Weight	5.3LB

Water Tank Volume	2000ml
Dehumidifying Capacity	Approx. 1000ML/D (86°F, 80%RH)
Product Dimensions	8.27×5.55×13.78IN
Working Environment	59°F-104°F, >45%RH

## HOW TO USE YOUR DEHUMIDIFIER

### ON/OFF Button

Tap ” to turn on the dehumidifier. Meanwhile, the LED light is open. Tap ‘’ again to turn off the dehumidifier.

### LED Light Button

At startup, the dehumidifier has 7 lights that change continuously. When you see your favourite colour, you can press  to lock your preferred or. Press'  ' again to turn off the light, and press  ' again to return to the 7 ever-changing lights.

### **Sleep Mode**

Press'  'to activate Night mode, which will turn off the lights, reduce the sound, and shift the gear to a lower setting. Press'  ' again to return to the normal mode. NOTE: Night mode may have a weaker dehumidifying effect and take longer to dehumidify.

### **Red Light and Warning Sound**

When the water tank is full, the dehumidifier will stop working automatically. During this time, the warning sound will emit 3 times, and the red light will flash. To resume regular operation, the water tank must be emptied and placed back into the appliance correctly.

### **THE WAY TO GET A BETTER RESULT OF DEHUMIDIFICATION**

- Close the doors and windows where you run this room dehumidifier.

- Keep the front air inlet and back outlet of this electric dehumidifier free from blocking.
- Run the dehumidifier when the temperature is between 59°F (15°C) to 104°F (40°C) and the humidity is over 45%RH.
- Best for small volume spaces such as dressing rooms, basements, bathrooms, etc.

## HOW TO REMOVE THE WATER TANK AND POUR OUT THE WATER

- When the water tank is the dehumidifier working and the light on the water tank will flash red.
- Unplug the power cord, then remove the water tank.

- Remove the cover of water tank and discard the collected water
- Assemble the water tank cover well, then put the water tank back into the unit

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

The 'Red LED' is flashing first when power is connected.	The water tank is full.	Empty the water tank.
The dehumidifier does not work.	The float gets jammed.	Press the float.
	The power supply is cut off.	Check if the power adapter is plugged in.
The	AC power socket is loose.	Check the AC power socket and the power cord.
	The air outlet is blocked.	Maintain the minimum clearance (at least 10cm) around the dehumidifier when the appliance is operating.

## FREQUENTLY ASKED QUESTIONS

What is the ToLife TZ-C2 Dehumidifier?

The ToLife TZ-C2 Dehumidifier is a compact, portable dehumidifier designed for home use, featuring a 95 fluid ounce water tank, semiconductor condensation technology, two speed modes, and a 7-color LED night light.

What are the key features of the ToLife TZ-C2 Dehumidifier?

The ToLife TZ-C2 Dehumidifier offers high-efficiency moisture removal, two operating modes (efficient and sleep), automatic shutoff, portability, quiet operation under 30 dB, and 7-color LED lighting for ambiance.

What is the difference between the efficient mode and sleep mode on the ToLife TZ-C2 Dehumidifier?

Efficient mode removes moisture faster, while sleep mode operates quietly (<30 dB) to provide a peaceful environment. Sleep mode is recommended at night to avoid disturbance.

Will the ToLife TZ-C2 Dehumidifier stop working under extreme temperatures?

When the temperature falls below 59 degree F or rises above 104 degree F, the ToLife TZ-C2 Dehumidifier will continue to operate, but dehumidification efficiency may decrease or even stop temporarily.

Why is my ToLife TZ-C2 Dehumidifier collecting very little water?

The water collection depends on room size, humidity, and temperature. The ToLife TZ-C2 Dehumidifier performs best in smaller rooms with higher humidity, while performance may seem slower in dry or large areas.

Can I run the ToLife TZ-C2 Dehumidifier continuously?

Continuous operation is not recommended. After 48 hours, unplug the ToLife TZ-C2 Dehumidifier and let it rest at least 10 minutes to protect its lifespan.

How does the automatic shutoff work on the ToLife TZ-C2 Dehumidifier?

The ToLife TZ-C2 Dehumidifier automatically stops operating when the water tank is full or incorrectly positioned, preventing overflow and ensuring safety.
