## TomTom FF50 Go Discover Navigation

### Getting to know your TomTom GO Discover

1. Search button.
2. Switch view button.
3. Sounds and Alerts button.
4. Main menu button.
5. Current location.
6. Points of interest and Favourites.

7. Instruction panel.
8. Fuel station and price.
9. Speed limit and current speed.
10. Estimated time of arrival.

11. Distance/time to your destination.
12. Traffic delays.
13. Route highlights.
14. Route options but

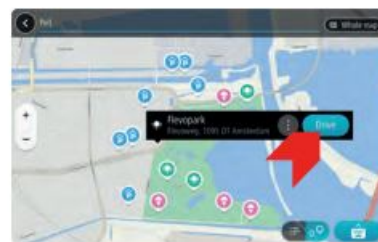

## Setting a destination

- Tap the Search button.
- Enter an address, the name of a place, or the type of place (eg. restaurant).

- Tap on a search result to select it.
- Tap the Drive button to plan a route.

## Easy updating using Wi-Fi®

1. Use Wi-Fi® to get the latest features, map updates, and QuickGPSfix for your GO Discover. No computer needed!
2. To get updates, open the main menu. Tap Settings, then tap Updates & New items. Follow the prompts to set up an internet connection and get the updates.

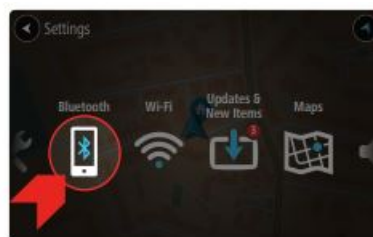

## In-car installation

1. Connect the USB cable to the mount and to your car's USB port.
2. Connect the charger to the power supply on your dashboard.
3. Push the mount firmly against your windshield and turn the base clockwise until you feel it lock.

4. Place your GO Supreme in the mount, making sure that it clicks into place. You can use a Dashboard Mount Disk (not included) to attach the mount to your dashboard.
5. On some of our larger devices there is an extra locking mechanism to the rear of the mount which may also need adjusting

## Connecting your phone

Connect your phone to your TomTom GO Discover for traffic updates, fuel prices, parking availability and electric vehicle points of interest. To set up the connection to your phone, open the main menu, tap Settings, then tap the Bluetooth® icon.

## TomTom MyDrive

Use TomTom MyDrive website or app to plan and edit your perfect drive. Find and book the best places to eat and stay with TripAdvisor reviews, and add them to your route. Sync them over Wi-Fi® to your device, then just drive.

## RoadTrips by TomTom
