TOMZON

TOMZON A32 Flying Orb Ball

Launch Date: November 4, 2022

Price: \$43.18

Introduction

The TOMZON A32 Flying Orb Ball is a bright LED light toy that is fun to play with and responds to movement. This lightweight orb is fun to move and fly with and is made for both kids and adults. The orb's hand-controlled flight system makes it easy for users to move it around with simple hand movements. The ball has multicolored LED lights that make a beautiful show, especially when there isn't much light. It is made from long-lasting ABS plastic and can handle drops and light hits. The TOMZON A32 can be charged and plays music for up to 12 minutes on a single charge. The flying orb is a great way to have busy, hands-on fun, whether you're playing inside or outside. Since it's good for kids 6 and up, it makes a great gift. The safety of kids was thought through when making the toy. Anyone who likes toys should have the TOMZON A32 Flying Orb Ball because it is simple and fun to use.

Specifications

- **Brand:** TOMZON
- **Model:** A32
- **Dimensions:** 6.5 x 6.5 x 6.5 inches (approximately)
- **Weight:** 0.55 lbs (lightweight and portable)
- **Material:** High-quality ABS plastic shell (durable and drop-resistant)
- **Battery Type:** Built-in rechargeable lithium-ion battery

- **Charging Time:** Approximately 30 minutes
- **Play Time:** Up to 10-12 minutes per charge
- **Control Type:** Motion sensor (hand-controlled)
- **LED Lights:** Yes, color-changing LED lights that enhance the visual appeal during flight
- **Flight Type:** Hover and fly, with various interactive flying techniques such as hovering, throwing, and spinning
- **Age Range:** Suitable for ages 6 years and up
- **Country of Origin:** China
- **Item Weight:** 4.9 ounces

Package Includes

- 1 x TOMZON A32 Flying Orb Ball
- 1 x USB Charging Cable
- 1 x User Manual
- 1 x Gift Box Packaging

Features

1. Advanced motion-sensing technology in the TOMZON A32 Flying Orb Ball can recognize hand motions, which lets users control the orb's flight with simple movements. It's easy to make it rise, hover, or glide in any direction, which makes it a very fun and responsive toy.
2. **Color-Changing LED Lights:** The ball has bright, multicolored LED lights that make it breathtaking to look at while it flies. The lights make the orb look like a glowing UFO, whether you play in the dark or at night. This makes its flight paths even more exciting and mysterious.

3. Made of high-quality ABS plastic, the TOMZON A32 Flying Orb Ball is made to last and can handle drops, bumps, and light hits. Its strong design means that it can withstand rough play without breaking or getting damaged. This means that both kids and adults can enjoy it for a long time.
4. **Rechargeable Battery:** The TOMZON A32 has a lithium-ion battery that can be charged and used again and again. After a quick 30-minute charge, the ball can fly continuously for up to 10 to 12 minutes. It can be charged using a USB cord, so you don't have to buy new batteries every time you want to use it.
5. **Great for Everyone:** For kids ages 6 and up, the TOMZON A32 Flying Orb Ball is a fun and different way to play that both kids and adults will enjoy. It's made to keep people of all ages entertained, whether they're playing inside or outside. This makes it a great toy for getting the whole family involved.
6. **Use Indoors and Outdoors:** The TOMZON A32 Flying Orb can be used indoors and outdoors without any problems. It's best used in open spaces, so people can enjoy its hover and flight functions in a range of settings, like at home, in the backyard, or at the park.
7. **Easy to Use:** The TOMZON A32 is easy to use because it has a motion control system that is easy to understand. Making hand motions to make it fly is an easy way for people to get good at it. It is easy for everyone to use and fun, even young children can learn how to handle it.
8. **Safe Design:** The TOMZON A32 was made with safety in mind. It has a protective shell around the flying orb that keeps fingers and other items from getting hurt by the propellers. The ball is safe to handle because it is made of soft, light materials that keep you from getting hurt while you play.

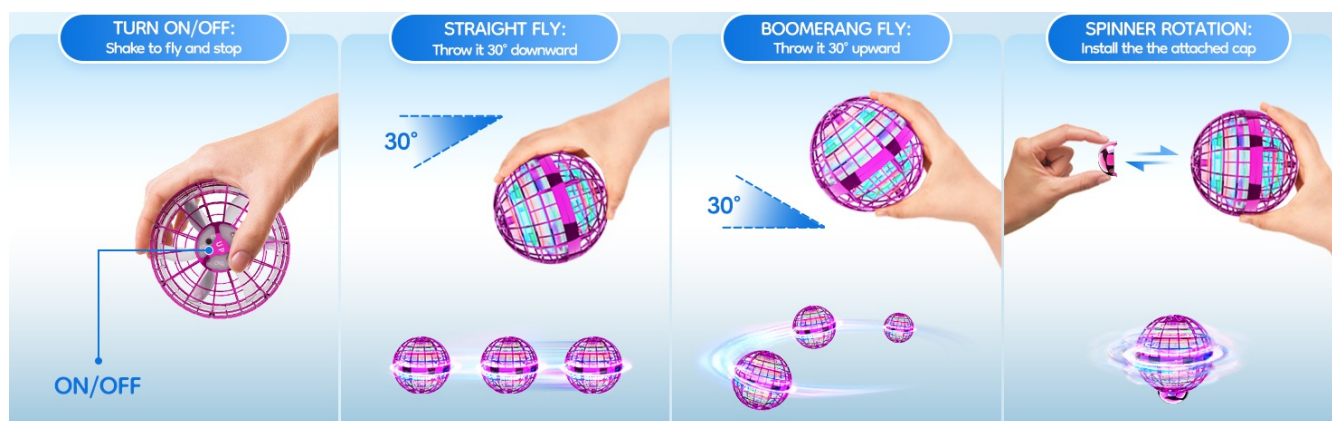

9. **Bright LED Light:** The TOMZON A32 Flying Orb Ball has bright LED lights that change colors, making it a beautiful sight to see, especially at night. It looks like a strange UFO or a bright meteor in the sky because of its lights, which add to the futuristic feel.
10. **Different Ways to Play:** The ball has three different ways to play:
 11. Throw it and it comes back to you like a boomerang in Booster Mode. You can also control it by hand like a mini drone in Levitation Mode. Finally, you can fly it straight to your partner in Flight Mode. It gets easier to master these fun games as you play more.
12. **Safe and lasts a long time:** The TOMZON A32 is made of strong ABS materials so it can withstand drops and last a long time. The orb is safe for kids to use because it is soft and light, and it has a protective shell that keeps the blades from hurting them.
13. **Great Gift for Kids and Families:** The TOMZON A32 is a great gift for kids and families, especially those who like toys that they can play with. Its artistic look and fun game modes make it a great birthday present for kids or a fun way for the whole family to spend time indoors or outdoors.
14. **Rechargeable Battery via USB:** The TOMZON A32 Flying Orb can be charged quickly and easily thanks to its rechargeable battery via USB. The orb can play continuously for 10 minutes after only 25 minutes of charging. This makes it great for spontaneous fun and taking happiness with you.

15. **DIY Stickers:** The DIY stickers that come with the TOMZON A32 Flying Orb let you design and change the look of the orb to make it your own. With these stickers, your flying ball will be one of a kind. They add a personal touch that makes the game even more fun and creative.
16. **Beautiful Light Show:** The TOMZON A32 Flying Orb's bright LED lights create a beautiful light show, which makes it especially fun to play with at night. The orb's beautiful glow makes it a treat to look at and adds to its overall appeal.

Instructions for Flying the Orb

Shake to Start & Stop:

- Shake the **flying orb** gently to start its flight or to stop it.

- The motion-sensing feature allows the orb to respond to hand gestures, making it interactive.

Throwing Technique:

- To activate the flight mode, throw the orb **30° upward** at a slight angle. This will help it take off and hover in the air.

Cap Installation:

- You can enhance the orb's playability by **installing the attached cap**. This cap can change how the orb behaves, possibly affecting its **flight stability** or adding more features such as **boomerang flight**.

Additional Notes:

- Ensure the orb is properly balanced and the cap is securely attached before use.
- The **cap** may serve multiple functions, including turning the orb into a **spinner** or stabilizing its flight.

Usage

- **Turning On:** Press the power button to activate the **TOMZON A32** Flying Orb Ball. It will begin flying once the propellers are activated.
- **Hand-Controlled Flight:** Use your hand gestures to control the orb. Move your hand up to lift it, or push forward to make it glide in a direction.
- **Charging:** Use the included USB cable to charge the orb. Plug it into any USB port for about 30 minutes to achieve a full charge.
- **Boing Effect:** When thrown at an angle, the orb will come back towards you due to its boomerang-style flight pattern.
- **Levitation:** Hold the orb with your hand underneath, about 1-5 cm, and it will hover in place, following the movement of your palm.

Care and Maintenance

- **Charging:** Always charge the **TOMZON A32** Flying Orb Ball using the provided USB cable. Avoid overcharging to prolong battery life.
- **Cleaning:** Wipe the surface of the orb with a soft, dry cloth to remove dust or dirt. Do not use harsh chemicals or abrasive materials.
- **Storage:** Store the orb in a cool, dry place when not in use. Avoid leaving it in direct sunlight or areas with high temperatures.
- **Battery Care:** If not in use for extended periods, ensure the orb's battery is partially charged before storage to maintain battery health.
- **Check for Damage:** Regularly inspect the orb for any signs of wear or damage, particularly the propellers and the protective shell. Avoid flying it if any parts are damaged.

Troubleshooting

Orb Not Turning On:

- **Solution:** Ensure the orb is charged. If not, charge it using the USB cable for 30 minutes and try again.

Orb Won't Hover or Fly Properly:

- **Solution:** Check if the propellers are obstructed. Clean the propellers if there is debris blocking them.

Orb Stops Mid-Flight:

- **Solution:** The battery might be low. Charge the orb fully before attempting to use it again.

Orb Bumps and Stops:

- **Solution:** The orb has a safety feature that stops the propellers if it collides with an object. Gently place the orb in the air again to continue play.

LED Lights Not Working:

- **Solution:** If the LED lights are not activating, ensure the orb is powered on. If the issue persists, check for any damage to the LED components.

Pros and Cons

Pros:

- Engaging and fun for all ages.
- Safe design minimizes the risk of injury.
- Easy to use with intuitive controls.

Cons:

- Limited flight time of 15 minutes per charge.
- Requires careful handling to prevent damage.

Warranty

The TOMZON A32 Flying Orb Ball comes with a one-year warranty covering manufacturing defects. Please retain your receipt for warranty claims.

FAQs

What is the TOMZON A32 Flying Orb Ball?

The TOMZON A32 Flying Orb Ball is a motion-sensing flying toy that can hover and fly, controlled by hand gestures and equipped with color-changing LED lights.

How does the TOMZON A32 Flying Orb Ball work?

The TOMZON A32 uses motion sensor technology to allow users to control its flight with simple hand gestures, making it easy to fly and hover.

What age group is the TOMZON A32 Flying Orb Ball suitable for?

The TOMZON A32 is designed for children aged 6 and up, making it a great interactive toy for both kids and adults.

How long does the battery of the TOMZON A32 Flying Orb Ball last?

The TOMZON A32 can fly for up to 10-12 minutes on a single charge, providing ample time for fun play sessions.
