Getting Started

1. Register & log in

   Turn on the UltraDiag tablet and log in to your TOPDON account. (If you do not have an account, please register with your email.)
2. Plug the UltraDiag VCI into the vehicle's DLC

   The vehicle's DLC is usually located under the dashboard.
3. Turn the ignition to the "ON" position
4. Bind the UltraDiag VCI

   ① Go to User Info > VCI Management. Tap the + icon at the top right corner of the screen, and the device will ask you to connect the Bluetooth first.

   ② Connect the Bluetooth as prompted. Then the serial number and activation code will be automatically obtained (see Figure 1).

   Then tap Activate to bind the UltraDiag VCI.
5. Connect the UltraDiag VCI to the UltraDiag tablet

   The UltraDiag VCI can be connected to the UltraDiag tablet either via wireless (Bluetooth) or wired connection (USB cable) (see Figure 2).

   : UltraDiag VCI is successfully connected via Bluetooth

   : UltraDiag VCI is successfully connected via USB cable

6. Your UltraDiag is now ready for use
