Contents

Torich Electronic TM-015 Wireless Mouse

Product Information

Technical Specifications

- **Bluetooth Version**: BT5.2-1 / BT5.2-2 / BT5.2-3

Product Usage Instructions

Step 1: Charging
Before using the product for the first time, make sure to charge it fully using the provided USB-C cable. Plug one end of the cable into the USB-C port (9) on the product and the other end into a power source. The indicator light (6) will turn on to indicate charging and will turn off once fully charged.

Step 2: Pairing
To connect the product to your device, ensure that Bluetooth is enabled on your device. Press and hold the ON-OFF button (10) for a few seconds until the indicator light (6) starts blinking. The product will enter pairing mode. On your device, search for available Bluetooth devices and select the corresponding device name (BT5.2-1 / BT5.2-2 / BT5.2-3) to complete the pairing process.

Step 3: Button Functions
The product has several buttons with different functions:

1. **Left Click (1):** Press this button to perform a left-click action.
2. **Right Click (2):** Press this button to perform a right-click action.
3. **Wheel (3):** Scroll the wheel up or down to navigate through documents or web pages.
4. **Mode Button (4):** Press this button to switch between different modes or functions, if available.
5. **DPI Button (5):** Press this button to adjust the DPI (dots per inch) sensitivity of the mouse.

6. **Forward (7) / Backward (8):** These buttons can be used for navigation purposes in supported applications.

Step 4: Indicator Light
The indicator light (6) provides visual feedback on the status of the product:

- **Solid On:** The product is powered on and connected.
- **Blinking:** The product is in pairing mode or searching for a device to connect.
- **Solid Off:** The product is powered off or not connected.

Step 5: Cleaning and Maintenance
To maintain proper functionality and cleanliness, follow these guidelines:
- Regularly clean the product using a soft, lint-free cloth.
- Avoid using harsh chemicals or abrasive materials that may damage the product's surface.
- Keep the product away from liquids and excessive moisture.

Frequently Asked Questions (FAQ)

- Q: How do I know if the product is fully charged?
- A: The indicator light (6) will turn off once the product is fully charged.
- Q: Can I use the product while it is charging?
- A: Yes, you can use the product while it is charging. However, it may take longer to reach full charge if being used simultaneously.
- Q: How can I switch between different DPI settings?
- A: Press the DPI button (5) to cycle through the available DPI settings. The indicator light (6) may change colour to indicate the current DPI level.
- Q: Is the product compatible with both Windows and Mac computers?
- A: Yes, the product is compatible with both Windows and Mac computers that support Bluetooth connectivity.

To ensure optimum performance and safety, please read this user manual carefully before using the product. Keep this user manual safe to tutu e efe ences.

Wireless connection

1. To turn on the mouse, toggle the power button on the bottom of the mouse
2. With a plug-and-play installation system, the mouse does not require any additional drivers to operate
3. Remove the nano receiver from the mouse and plug it into the USB port of your computer.
4. Press the "Devices" button until the LED on the mouse lights up the wireless sign

5. The mouse will automatically connect with the computer

Bluetooth connection

1. To turn on the mouse, toggle the power button located at the bottom of the mouse, the device will start flashing.
2. Press the "Device" button until the LED on the mouse lights up the Bluetooth 1,2 or 3 sign.
3. Press and hold the "Device" button for 3 seconds, the Bluetooth 1/2/3 LED will start blinking rapidly.
4. On your device, look for "BT5.2-1 / BT5.2-2 / BT5.2-3 " in the list of available Bluetooth devices.
5. Once you identify the mouse in the list of Bluetooth devices, click on its name to connect it. The LED indicator flashes when the mouse is in pairing mode and turns off when the connection is successful.

TECHNICAL SPECIFICATIONS

- Connectivity: Bluetooth 5.0 + Wireless 2.4ghz
- Range: up to 10 meters
- Operating time: Up to 120 hours
- Standby time: Up to 100 days
- Charging time: Approx 4 hours
- Compatible systems: Windows, MAC, 10S, Android
- Multipoint technology: Up to 4 simultaneous connections
- Buttons: 8+2 scrollers
- Resolution: 3200 DPI
- Battery capacity: 800 mAh
- Charging connector: Type-C
- Available colours: Black
- Product dimensions: 120mm x 85mm x 50mm
- Product weight: 138 gr

Package includes:

- 1 x Bluetooth Mouse
- 1 x Nano eceive
- 1 x USB-C cha ging cable
- 1x User manual

FCC Warning

This device complies with part 15 of the FCC Rules. Opera-tion is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
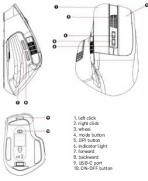

This equipment has been tested and found to comply with the limits for a Class B digital device, under part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used by the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:
The device has been evaluated to meet the general RF exposure requirements. The device can be used in portable exposure conditions without restriction.
