### Installation Instructions

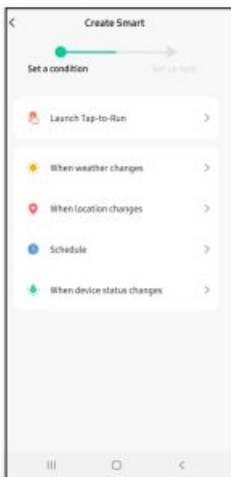

1. From the home screen click on the Smart icon at the bottom of the menu

2. Press on Automation

3. Press on “When Device Status Changes”

4. Choose the device, for example “Door Sensor”

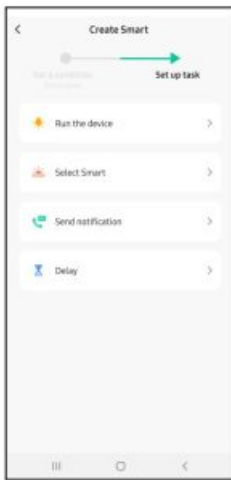

5. Select "Status"

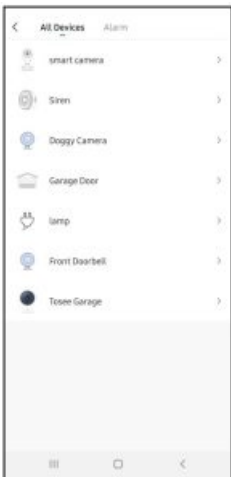

6. Select "Open" (if PIR select Motion Sensor and then Alarm)

7. Select "Run Device"

8. Select device (for Alarm Kit, choose Siren)

9. Select "Alarm Period"

10. Adjust how long you wish to have the Siren sound for by pressing the + button and save

11. Select “Alarm Switch”

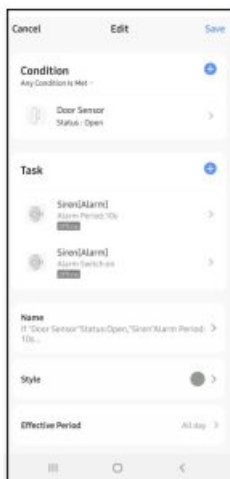

12. Choose the action, (e.g when door sensor opened turn on Siren.) and press save

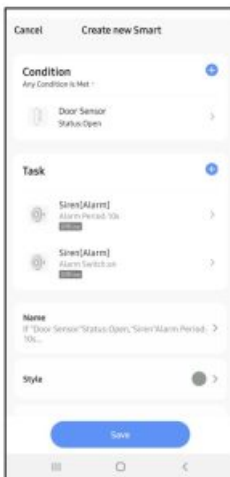

13. Click “next”

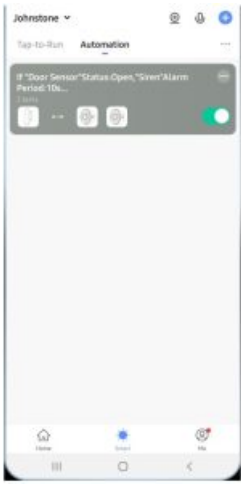

14. Completed, this is where you can rename or edit the automation.

15. Click "Save"

16. All Automations will be on this page, you can go back and edit by pressing on the ...
