60532 Ejection Handle

This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazard involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision. Do not attempt to repair this product yourself, as opening or removing covers may expose you to dangerous voltage points or other risks. Do not submerge into water. Indoor use only.

Features

- 1 ejection handle.
- 1 two way toggle switch with guard.
- 1 three-way switch. Momentary-off-momentary.

Installation

1. Connect the unit to your computer via an USB port.

2. Windows will automatically detect the unit as TC Ejection Handle and install all necessary drivers.
3. Click Start/Settings/Devices. TC Ejection Handle should appear in the list.
4. To set the unit to DCS-mode (three quick pulses on one pull), pull the handle and flip the toggle switch five time. Then release the handle. This is the default mode.
5. To set the unit to BMS-mode (one continuous pulse on one pull), pull the handle and flip the toggle switch twice in quick sequence. Then release the handle.
6. Layout of the device can be found on page 2 in this user manual.

Note. Do not connect to a computer while the handle is pulled. Do not engage switches with the handle pulled unless you intend to change any settings.

Troubleshooting

If some buttons are not operational on the unit, disconnect the device from your computer and re-connect it again.

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 - (1) This device may not cause harmful interference, and
 - (2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
