**TOTAL CONTROLS Apache MPD Frames**

## Product Information

The Apache MPD is a button box device that allows users to control various functions of their computer. It comes with a USB cable for easy connection to a computer via a USB port. The device has three MPDs (Center, Left, and Right), option buttons, and light control buttons. The device is FCC-compliant and comes with a user manual that provides installation instructions, troubleshooting tips, and disposal information.

## Features

- Three MPDs (Center, Left, and Right)
- Option buttons
- Light control buttons (full, medium, dim, and off)
- USB connection
- FCC compliant

## Installation Instructions

1. Plug in the included USB cable to the unit then connect it to your computer via an USB port.
2. Windows will automatically detect the unit as TC Apache MPD Left/Center/Right and install all necessary drivers.
3. Click Start/Settings/Devices. TC Apache MPD Left/Center/Right should appear in the list.
4. To separate the devices in Windows you will need to assign it for Right, Center, or Left setup. To do this, hold option buttons (TSD) and (B2) simultaneously. Then press T1 for the left setup, T2 for the center setup, or T3 for the right setup.
5. Control the button light levels by holding the option buttons (TSD) and (B2) simultaneously. Then use L3 to L6 to adjust light intensity.
6. The layout of the devices can be found on page 2 in the user manual.

## Troubleshooting

If some buttons are not operational on the button box, disconnect the device from your computer and re-connect it again.

## Disposal Information

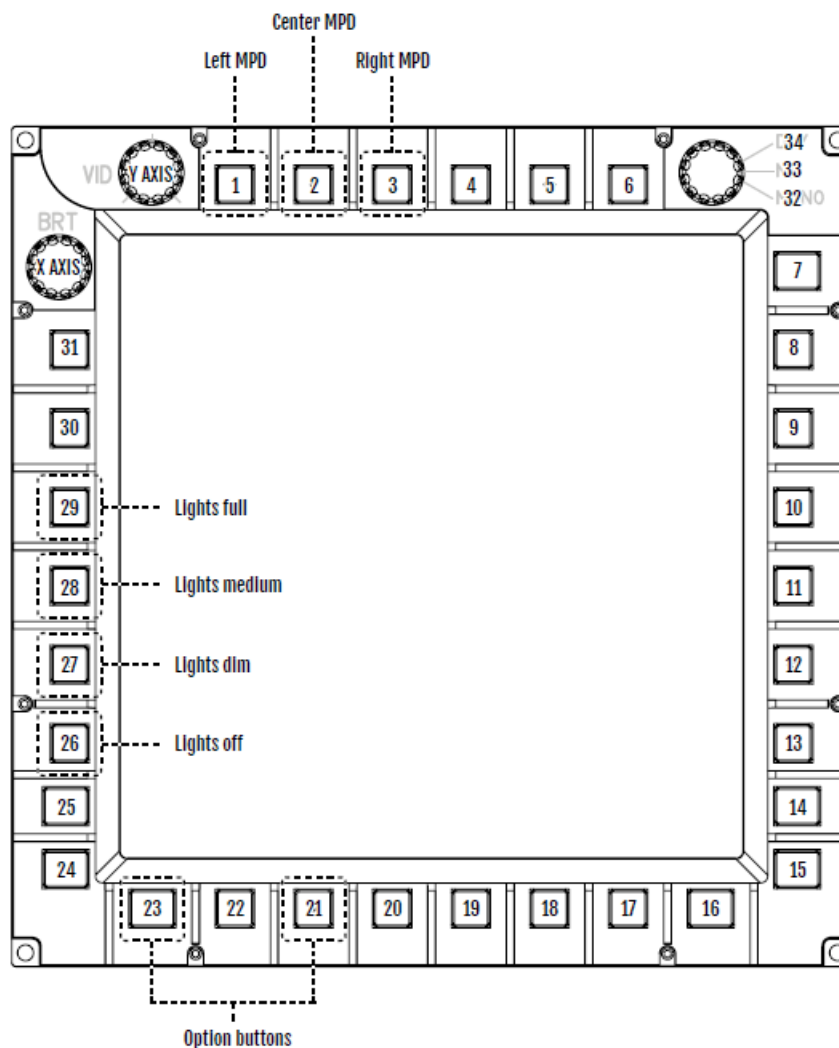

The crossed-out wheeled bin and/or accompanying documents mean that used electrical and electronic equipment (WEEE) should not be mixed with general household waste. For proper treatment, recovery, and recycling, please take this product to designated collection points where it will be accepted free of charge. Please contact your local authority for further details of your nearest designated collection point.

Disposing of this product correctly will help save valuable resources and prevent any potential negative effects on human health and the environment, which could otherwise arise from inappropriate waste handling.

For disposal in countries outside of the European Union, please contact your local authorities or dealer and ask for the correct method of disposal.

This appliance can be used by children aged 8 years and above and persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazard involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision. Do not attempt to repair this product yourself, as opening or removing covers may expose you to dangerous voltage points or other risks. Do not submerge into the water. Indoor use only.

## OVERVIEW

## Features

- 31 push buttons

- 2 potentiometers to control light levels in-game
- 1 three-way rotary switch

## Installation

- Plug in the included USB cable to the unit then connect it to your computer via an USB port.
- Windows will automatically detect the unit as TC Apache MPD Left/Center/Right and install all necessary drivers.
- Click Start/Settings/Devices. TC Apache MPD Left/Center/Right should appear in the list.
- To separate the devices in Windows you will need to assign it for Right, Center or Left setup. To do this, hold option buttons (TSD) and (B2) simultaneously. Then press T1 for left setup, T2 for the center setup or T3 for right setup.
- Control the button light levels by holding the option buttons (TSD) and (B2) simultaneously. Then use L3 to L6 to adjust light intensity.
- The layout of the devices can be found on page 2 in this user manual.

## Troubleshooting

If some buttons are not operational on the button box, disconnect the device from your computer and re-connect it again

## FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
  1. This device may not cause harmful interference, and
  2. This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
