Product Overview

Features

- 24 push buttons
- 2 rotary encoders with push function
- 1 jettison push button
- 2 toggle switches with momentary function
- 1 four-way switch with push function
- 2 rocker switches with momentary function
- Detachable hook and landing gear handles
- 7 lights knobs

Installation

1. Screw off the caps on the hook and landing gear switches. Attach the handles as described on page 3 in this user manual.
2. Attach the extension to the four-way switch as described on page 3 in this user manual.
3. Plug in the included USB cable to the unit then connect it to your computer via an USB port.
4. Windows will automatically detect the unit as Total Controls MFBB and install all necessary drivers.
5. Control the button light levels by holding the option buttons (A/P) and (TCN) simultaneously. Then use Radio 2 rotary to adjust light intensity.
6. Layout of the devices can be found on page 2 in this user manual.

Troubleshooting

If some buttons are not operational on the button box, disconnect the device from your computer and re-connect it again.

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
 1. This device may not cause harmful interference, and
 2. This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
