A2004NS repeater setting

It is suitable for: **A1004** / **A2004NS** / **A5004NS** / **A6004NS**

Application introduction: Solution about how to set repeater mode on TOTOLINK products.

STEP-1: Connect your computer to the router

1-1. Connect your computer to the router by cable or wireless, then login the router by entering http://192.168.1.1 into the address bar of your browser.

Note:The default access address differs by model. Please find it on the bottom label of the product.

1-2. Please click **Setup Tool** icon 5bd17628198ec.png to enter the router's setting interface.
