Application introduction: Solution about how to configure Wireless MAC Filtering on TOTOLINK router

STEP-1:

Connect your computer to the router by cable or wireless, then login the router by entering `http://192.168.0.1` into the address bar of your browser.

STEP-3:

Please go to **Firewall ->MAC filtering** page, and check which you have selected.

Select **Deny list**, then Input **MAC Address** you want to restrain , then Click **Apply**.

The screenshot shows the TOTO LINK web interface for MAC Filtering. The left sidebar has 'Firewall' selected (1) and 'MAC Filtering' selected (2). The main area shows 'MAC Filtering' with 'Deny Listed' selected (3). Below this, there is a section 'Add a rule(Max number of rule is 10)' with a 'MAC Address' input field (4) and a 'Scan' button. There is also an 'Apply' button (5) and a 'Refresh' button. At the bottom, there is a 'Current Filter Table' with columns: Host Name, MAC Address, Comment, and Select. Below the table are 'Delete Selected' and 'Delete All' buttons.

Host Name	MAC Address	Comment	Select
-----------	-------------	---------	--------

STEP-4:

Please go to **Firewall ->MAC filtering** page, and check which you have selected.

Select **Allow list**, then Input **MAC Address** you want to allow to surf the Internet and those you do not fill in will be restrained , then Click **Apply**.

The screenshot shows the TOTO LINK web interface for MAC Filtering. The left sidebar has 'Firewall' selected (1) and 'MAC Filtering' selected (2). The main area shows 'MAC Filtering' with 'Allow Listed' selected (3). Below this, there is a section 'Add a rule(Max number of rule is 10)' with a 'MAC Address' input field (4) and a 'Scan' button. There is also an 'Apply' button (5) and a 'Refresh' button. At the bottom, there is a 'Current Filter Table' with columns: Host Name, MAC Address, Comment, and Select. Below the table are 'Delete Selected' and 'Delete All' buttons.

Host Name	MAC Address	Comment	Select
