How to change SSID of the router?

It is suitable for: **iPuppy,iPuppy3**

STEP-1:

Login the router web-configuration interface.

1-1. If you turn the button to the Router side, you should connect your computer to the router wirelessly, then login the router by entering http://192.168.1.1 into the address bar of your browser.

1-2. Please login to the Web Setup interface (the default user name and password is admin).

STEP-2:

Click Wireless Settings->Wireless Setup.

STEP-3:

In wireless setup interface, you can change the SSID now. You can also change the encryption method here.
