## How to set up static DHCP?

It is suitable for: **N150RH, N150RT, N151RT, N200RE, N210RE, N300RT, N301RT , N300RH, N302R Plus, A702R, A850R, A3002RU**

### STEP-1: Connect your computer

Connect your computer to the router by cable or wireless, then login the router by entering <http://192.168.0.1> into the address bar of your browser.

### Note:

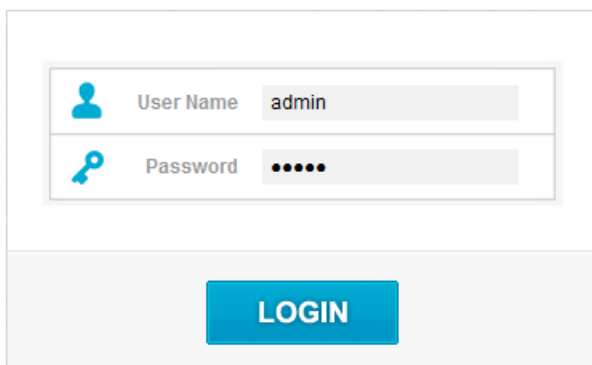

The default access address varies depending on the actual situation. Please find it on the bottom label of the product.

### STEP-2:

User Name and Password are required, by default both are **admin** in lowercase letter. Click **LOGIN**.

## USER LOGIN

[Forget Password?](#)

A screenshot of a user login form. At the top right, there is a link "Forget Password?". The form is enclosed in a light gray border. Inside, there are two input fields. The first field is labeled "User Name" with a blue person icon to its left; it contains the text "admin". The second field is labeled "Password" with a blue key icon to its left; it contains five black dots. Below these fields is a large blue button with the word "LOGIN" in white capital letters.

### STEP-3:

Enter advanced settings to select the LAN settings in Network,click the Set Static DHCP.
