How to setup Multi-SSID for the router

It is suitable for : **N150RA, N300R Plus, N300RA, N300RB, N300RG, N301RA, N302R Plus, N303RB, N303RBU, N303RT Plus, N500RD, N500RDG, N505RDU, N600RD, A1004, A2004NS, A5004NS, A6004NS**
Application introduction:

Multi-SSID allows users to create network name with different priority for clients or friends accordingly. It is good for access control and your data privacy.
STEP-1:

1-1. Connect your computer to the router by cable or wireless, then login the router by entering http://192.168.1.1 into the address bar of your browser.
