N600R IP filter settings

It is suitable for: **N600R, A800R, A810R, A3100R, T10, A950RG, A3000RU**

Application introduction:

Solution about how to configure IP Address and Port Filtering on TOTOLINK

STEP-1:

Connect your computer to the router by cable or wireless, then login the router by entering http://192.168.0.1 into the address bar of your browser.

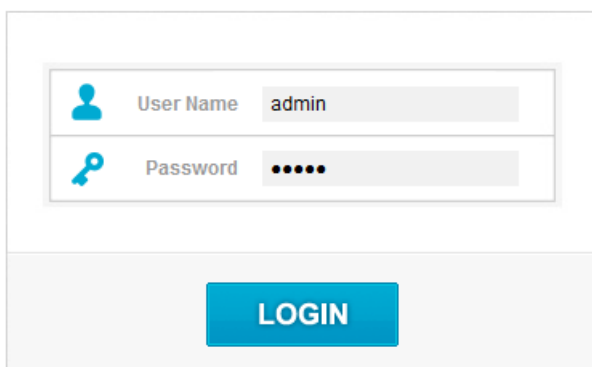

Note: The default access address varies depending on the actual situation. Please find it on the bottom label of the product.

STEP-2:

User Name and Password are required, by default both are **admin** in lowercase letter. Click **LOGIN**.

USER LOGIN

[Forget Password?](#)

A user login form. At the top right, there is a link 'Forget Password?'. The form itself is a light gray box. Inside, there are two input fields. The first is labeled 'User Name' with a person icon and contains the text 'admin'. The second is labeled 'Password' with a key icon and contains five dots. Below these fields is a blue button with the text 'LOGIN' in white capital letters.

STEP-3:

Please go to **Firewall ->IP/Port Filtering** page, and check which you have selected. Select **Enable**, then Input your own **IP Address** and **Port Range** which you want to restrict or click Scan bottom to restrict it and give a **Comment** for this item, then Click **Add**.

Management

IP/Port Filtering

Entries in this table are used to restrict certain types of data packets from your local network to Internet through the Gateway. Use of such filters can be helpful in securing or restricting your local network.

On/Off **Enable**

Add a rule

IP Address 192.168.0

Protocol TCP+UDP

Port Range 1-65535

Comment

Scan

Add

Current IP/Port Filtering List (The maximum entry count is 10)

ID	IP Address	Protocol	Port Range	Comment	Select
----	------------	----------	------------	---------	--------

Delete Reset

Note: You need add items in this way one by one.
