N600R PPPoE DHCP static IP settings

It is suitable for: **N600R, A800R, A810R, A3100R, T10, A950RG, A3000RU**

Application introduction: Solution about how to configure Internet mode with PPPoE ,Static IP and DHCP for TOTOLINK products

STEP-1:

Connect your computer to the router by cable or wireless, then login the router by entering http://192.168.0.1 into the address bar of your browser.

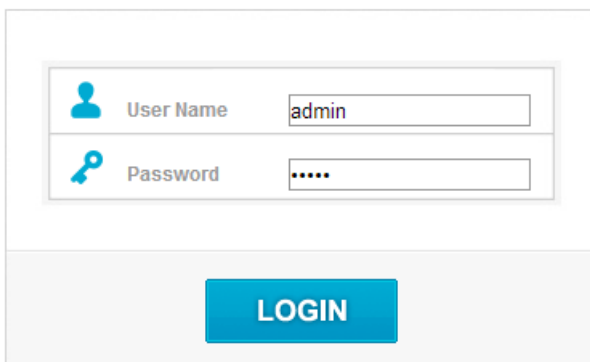

Note:The default access address varies depending on the actual situation. Please find it on the bottom label of the product.

STEP-2:

User Name and Password are required, by default both are **admin** in lowercase letter. Click **LOGIN**.

USER LOGIN

The server 192.168.0.1 requires a username and password.

A screenshot of the 'USER LOGIN' web form. It features two input fields: 'User Name' with the value 'admin' and 'Password' with masked characters '.....'. Below these fields is a prominent blue button labeled 'LOGIN'. The form is enclosed in a light gray border.

STEP-3.1.1: Easy Setup DHCP setting

The Easy Setup page will turn up for basic and quick setting. Select **DHCP** as **WAN Connection Type**, then Click **Apply**.

The screenshot shows the 'Easy Setup' page for a TOTO LINK N600R device. The page is titled 'Easy Setup' and includes a sub-header 'The easy setup will guide you to configure IP for first time.' There are two tabs: 'Easy Setup' (selected) and 'Advanced Setup'. The 'Connect Status' section shows 'Connect Status: DHCP Mode: Connected'. The 'Internet Setting' section has a 'WAN Connection Type' dropdown menu with 'DHCP' selected. A red circle with the number '1' is around the dropdown. The 'Wireless Setting' section has 'Radio On/Off' set to 'Enable', 'SSID' set to 'TOTOLINK_test', 'Encryption' set to 'WPA/WPA2-PSK', and 'Key' set to '88888888'. A red circle with the number '2' is around the 'Apply' button at the bottom right.

STEP-3.1.2: Advanced Setup DHCP setting

Please go to **Network -> WAN Setting** page, and check which you have selected. Select **DHCP Client** as **WAN Type**, then Click **Apply**.

The screenshot shows the 'WAN Setting' page for a TOTO LINK N600R device. The page is titled 'WAN Setting' and includes a sub-header 'This page is used to configure the parameters for internet network which connects to the WAN port of your device. Here you may change the access method to DHCP, Static IP, PPPoE...'. There are two tabs: 'Easy Setup' (selected) and 'Advanced Setup'. The 'Connect Status' section shows 'Connect Status: DHCP: Connected'. The 'Connection Type' dropdown menu has 'DHCP' selected. A red circle with the number '3' is around the dropdown. The 'MTU' field is set to '1500'. The 'Obtain DNS Automatically' checkbox is checked. The 'Primary DNS' field is set to '202.96.128.166'. The 'Secondary DNS' field is set to '202.96.134.133'. The 'Clone MAC Address' field is set to '14:28:53:40:0b:c1'. A red circle with the number '4' is around the 'Apply' button at the bottom right.

STEP-3.2.1: Easy Setup Static IP setting

The **Easy Setup** page will turn up for basic and quick setting. Selecting **Static IP** as **WAN Connection Type** and input your information about **Static IP** which you want to fill in. Then Click **Apply**.

Easy Setup

The easy setup will guide you to configure IP for first time.
