Finish

STEP-6:

It takes several seconds to save the settings and then your router will restart automatically. This time your Phone will be disconnected from the router. Please back to the WLAN list of your phone to choose the new Wi-Fi name and input the correct password. Now, you could enjoy the Wi-Fi.

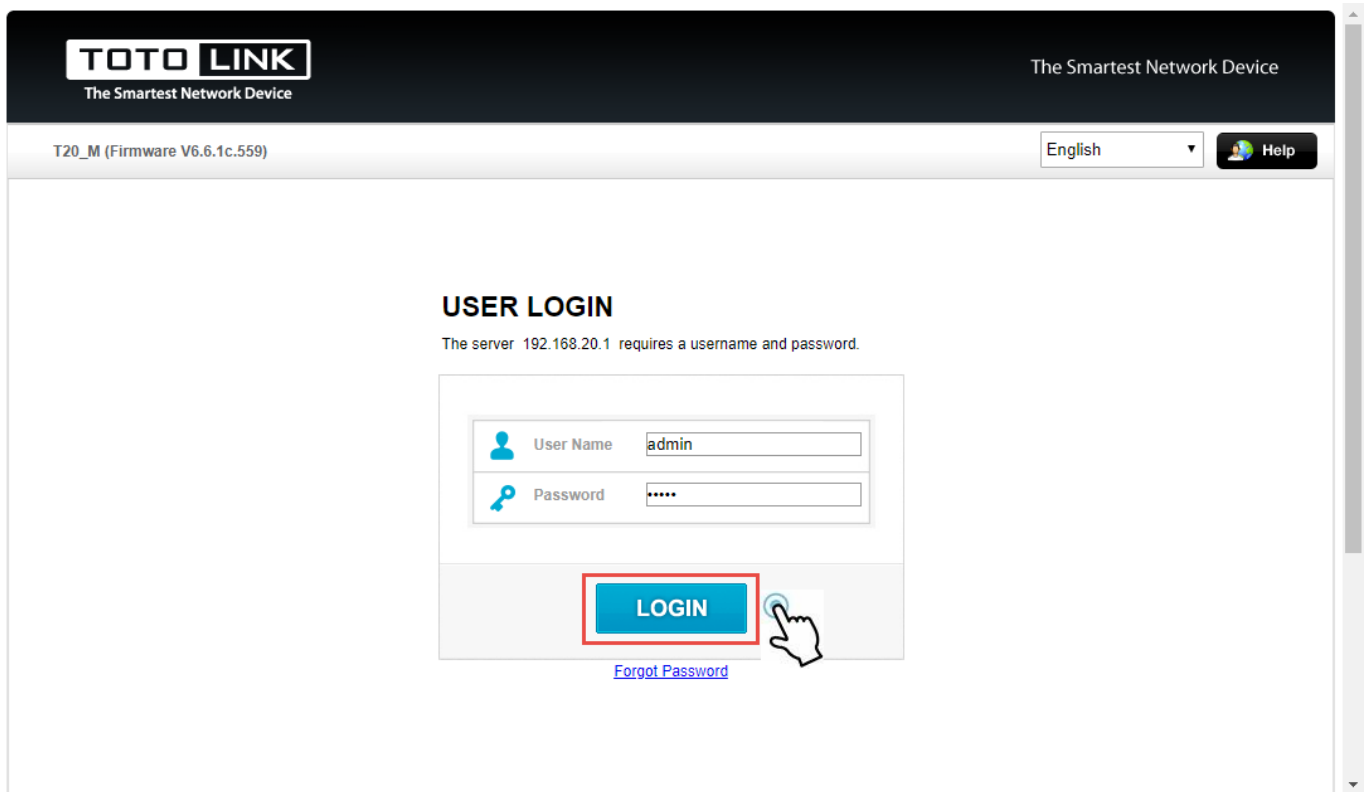

Method Two: login via PC

STEP-1:

Connect your computer to the router by cable or wireless. Then run any Web browser and enter <http://itotolink.net> in the address bar.

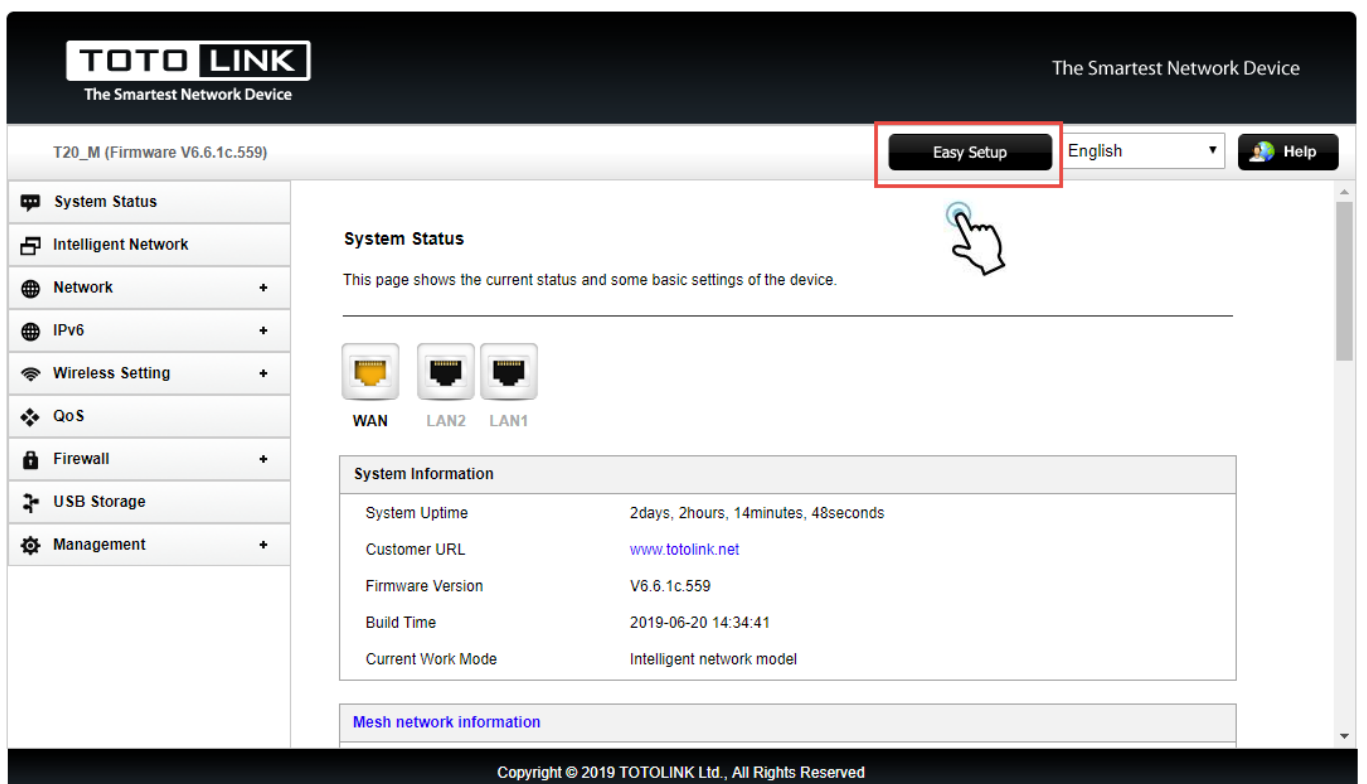

STEP-2:

Enter admin for the password and then click LOGIN.

STEP-3:

Click Quick Setup.
