What to do when you can't find the router's WiFi signal?

It is suitable for: **N100RE, N150RH, N150RT, N151RT, N200RE, N210RE, N300RT, N300RH, N300RH, N300RU, N301RT, N302R Plus, N600R, A702R, A850R, A800R, A810R, A3002RU, A3100R, T10, A950RG, A3000RU**

Application introduction: When you can't find the SSID of the router even you have powered on the router? you can check the settings following these steps.

STEP-1:

Connect your computer to the router by cable or wireless, then login the router by entering http://192.168.0.1 into the address bar of your browser.
