## AX3000 WiFi 6 Range Extender

### Product Information

Product Name	AX3000 Wi-Fi 6 Range Extender
Model	RE700X
Highlights	Extend AX3000 Wi-Fi to Your Whole Home, Works with any Wi-Fi router, Wider Channel Width, Connect More Devices, Easy Setup Within Minutes
Features	OneMesh™, Wi-Fi Dead-Zone Killer, Uninterrupted Roaming, One Wi-Fi Name, Easy Setup and Unified Management, Secure One-touch Connection (WPS), Smart Signal Indicator, Gigabit Ethernet Port
Specifications	Hardware: Reset Button, WPS Button, Ethernet Port Wireless: AX3000 Wi-Fi 6 Others: LEDs, Plug

### Product Usage Instructions

1. Connect the AX3000 Wi-Fi 6 Range Extender (RE700X) to a power source.
2. Press the WPS button on the range extender and your Wi-Fi router to establish a secure one-touch connection.
3. Use the smart signal indicator on the range extender to find the best spot for extending your Wi-Fi coverage.
4. If you have wired devices, plug them into the gigabit Ethernet port on the range extender for network access.
5. Download the Tether app or access the web UI to easily set up and manage your Mesh network.

6. If you have a OneMesh™ router, connect the range extender to create a Mesh network for seamless whole-home coverage.
7. Enjoy uninterrupted streaming, surfing, and more, even when moving around your home.

AX3000 Wi-Fi 6 Range Extender  
Boost your Wi-Fi

RE700X

Wi-Fi Dead-Zone Killer

Wider Channel Width

Connect More Devices

Uninterrupted Streaming\$

Easy Setup Within Minutes

Highlights

Extend AX3000 Wi-Fi to Your Whole Home

Works with any Wi-Fi router to eliminate Wi-Fi dead zones, and blanket your home with stable, super-fast, seamless Wi-Fi via OneMesh™ .

4k

RE700X

INTERNET

Wi-Fi Coverage Ethernet Cable

Faster Wi-Fi 6 Speed

Experience explosive Wi-Fi speeds up to 3 Gbps with the wider 160 MHz channel.

Larger Capacity

Wi-Fi 6 builds a more efficient network that increases the average throughput by 4 times and servers more devices.

Ultra-Low Latency

Take advantage of ultra-low latency to enjoy smoother online experience.

Save Clients' Battery Power

Target Wake Time schedules the connection time of battery-powered devices to reduce their power consumption.\*

Adaptive Path Selection

Keep your network running at top-speed by automatically choosing the fastest connection path to the router.

Access Point Mode

Create a new Wi-Fi access point to enhance your wired network with Wi-Fi capability.

Easy Setup Within Minutes

Easy setup and management via WPS button/Tether app/Web UI.

TP-Link AX3000 Wi-Fi 6 Range Extender RE700X

Highlights

OneMesh™

RE700X is more than a traditional range extender. It creates a Mesh network by connecting to a OneMesh™ router for seamless whole-home coverage.

Wi-Fi Dead-Zone Killer

Eliminate weak signal areas with Wi-Fi coverage for the whole house.

Uninterrupted Roaming

Enjoy uninterrupted streaming, surfing, and more—even when moving around your home.

One Wi-Fi Name

Stay connected to the same network name in every room.

Easy Setup and Unified Management

Push the WPS button to set up a Mesh network you can manage from the Tether app or web UI.

\*More compatible devices coming soon

AX3000 Wi-Fi Range Extender

Secure One-touch Connection (WPS)

Instantly connect the extender to a router without inference configuration.

Smart Signal Indicator

See signal to find the best spot to extend Wi-Fi.

· Strong signal · Weak signal

Gigabit Ethernet Port

Plug in to give wired device network access, particularly ideal for high bandwidth consuming devices.

Features

Ease of Use

Speed

Reliability

- Intuitive Web UI Ensures quick and simple installation without hassle
- Fast Encryption One-touch wireless security encryption with the WPS button
- Hassle-free Management with Tether App Network management is made easy with the TP-Link Tether App, available on any Android or iOS device

- Ultimate Wireless Speed Combined wireless speeds of up to 574 Mbps (over 2.4 GHz) and 2402 Mbps (over 5 GHz)
- Support Wi-Fi 6 Turbocharge your devices with wireless speeds of up to 3 Gbps
- Adaptive Path Selection Keep your network running at top-speed by automatically choosing the fastest connection path to the router

- Simultaneous Dual Band Separate Wi-Fi bands enable more devices to connect to your network without a drop in performance
- Reliable Connection Internal antennas for optimal Wi-Fi coverage and reliable wireless connections
- Ultra-Low Latency Take advantage of ultra-low latency to enjoy smoother online experience

- Online Upgrade Keeps you informed of the latest firmware and allows online updating on the web UI

Maximum wireless signal rates are the physical rates derived from IEEE Standard 802.11 specifications. Actual wireless data throughput and wireless coverage per ft<sup>2</sup> are not guaranteed and will vary as a result of network conditions, client limitations, and environmental factors, including building materials,

obstacles, volume and density of traffic, and client location.

The product may not be compatible with routers or gateways with firmware that has been altered, is based on open source programs, or is non-standard or outdated.

§Uninterrupted Roaming is designed for devices that support the 802.11k/v standard.

Up to 4x Capacity refers to 4x increase in median throughput under dense environment compared to 11ac wave 2 range extender.

\*Saving clients' battery power requires clients to also support the 802.11ax Wi-Fi standard. Actual power reduction may vary as a result of network conditions, client limitations, and environmental factors. ©2022 TP-Link
