tp-link UE300 USB to Ethernet Network Adapter

Product Specifications

- Product Name: USB to Ethernet Network Adapter
- Interface: USB to RJ45
- Plug and Play Support: Yes

Product Usage Instructions

1. Plug and Play Feature:

This adapter supports the Plug and Play feature. Follow these steps to start using the adapter:

1. Insert the USB end of the adapter into a USB port on your computer.
2. Wait for a few seconds for the system to detect the adapter.
3. Once detected, the adapter is ready to use.

2. Driver Installation (if required):

If the adapter does not work as Plug and Play on your operating system, follow these steps:

1. If a prompt page appears after inserting the adapter, click to install the driver.
2. If no prompt appears, visit the official website at **www.tp-link.com**.

3. Search for the model of the adapter and download the driver from the website.

4. Install the downloaded driver on your computer.

FAQs

Q: Is driver installation necessary for all operating systems?

A: No, driver installation is only required for operating systems where the adapter is not recognized as plug-and-play.
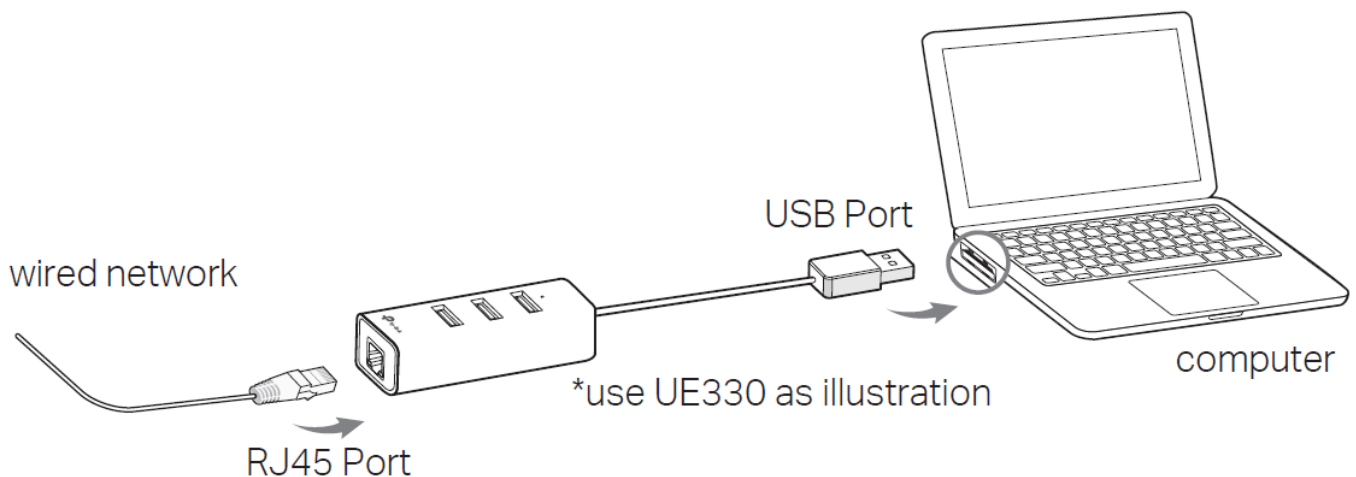

Q: Can I use this adapter for wired network connections?

A: Yes, this adapter provides connectivity to wired networks through the RJ45 port.

USING INSTRUCTION

This adapter supports Plug and Play feature. Plug in and wait for seconds. Then this adapter is ready to use.

Note: For some operating systems, the adapter is not plug-and-play. If you see a prompt page after inserting the adapter, just click to install the driver, or download and install the driver from our official website: visit **www.tp-link.com** and search for the model.
