Product Overview

1 USB-C Connector	For connecting to your host device.
2 USB-C PD (Power Delivery) Port*	For unidirectionally charging your host device when connected to a P D charger. PD 3.0; Up to 100W * Does not support data transfer.
3 HDMI Port	Up to 4K@60Hz (backward compatible)
4 USB-A Port	USB 3.0; Up to 5 Gbps data transfer

Note: The ports' actual performance may vary based on your host device specifications.

Input	PD: 5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/5A USB-C Connector: 5V/3A
Supported Systems	Plug and Play on Windows, macOS, iPadOS, iOS, ChromeOS, Linux, Nintendo OS, a nd Android.

Using the Hub

This hub supports the Plug and Play feature. Plug the USB-C connector into your host device, then plug in your external peripheral into the corresponding port of the hub.

Note: A PD charger (not included) is not required. If you wish to use a PD charger to charge your host device, please refer to Tips (2B).

- 1. When not in use, please unplug or remove the external peripherals from the hub first, and then unplug the hub from your host device.
- 2. If you need to connect a PD charger to the hub's USB-C PD port, please:
 - A) Notice that it only has the charging function and is input only.
 - **B)** Use an original or certified PD charger to charge your host device. The output of the PD charger should meet the input specifications of the USB-C PD port.

C € CE Mark Warning

This is a class B product. In a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures.

FCC Compliance Information Statement

Product Name: USB Type-C 3-Port Hub

Model Number: UH3020C

Responsible party: TP-Link Systems Inc. Address: 10 Mauchly, Irvine, CA 92618 Website: http://www.tp-link.com/us/

Tel: +1 626 333 0234 **Fax:** +1 909 527 6804

E-mail: sales.usa@tp-link.com

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- 1. This device may not cause harmful interference.
- 2. This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

We, TP-Link Systems Inc., has determined that the equipment shown as above has been shown to comply with the applicable technical standards, FCC part 15. There is no unauthorized change is made in the equipment and the equipment is properly maintained and operated.

Issue Date: 2024-10-14

Recycling

X

This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment.

User has the choice to give his product to a competent recycling organization or to the retailer when he buys a new electrical or electronic equipment.
