tp-link UH7020C USB Type-C 7 In 1 Hub

FAQs

Q: Does the hub support data transfer through the USB-C PD port?

A: No, the USB-C PD port is for unidirectional charging only when connected to a PD charger.

Q: Can I use this hub with a Chromebook?

A: Yes, the hub is compatible with ChromeOS along with other supported systems.

Q: What is the maximum data transfer speed supported by the microSD card slot?

A: The microSD card slot supports speeds of up to 200MB/s with SD 3.0; UHS-I technology.

Q: Is it safe to use a non-certified PD charger with the hub?

A: It is recommended to use an original or certified PD charger to ensure compatibility and safety.

Product Overview

1. USB-C Connector

- For connecting to your host device.

2. USB-C PD (Power Delivery) Port*

- For unidirectionally charging your host device when connected to a PD charger.
- PD 3.0; Up to 100W
- Does not support data transfer.

3. USB-C Port

- USB 3.0; Up to 5 Gbps data transfer

4. HDMI® Port

- Up to 4K@60Hz (backward compatible)

5. TF (microSD) Card Slot

- SD 3.0; UHS-I; Up to 200MB/s;

6. SD Card Slot

- Supports simultaneously reading and writing two cards

7. USB-A Ports ×2

- USB 3.0; Up to 5 Gbps data transfer

Note: The ports' actual performance may vary based on your host device specifications.

specifications

- **Input**

- PD: 5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/5A
- **USB-C Connector:** 5V/3A

- **Supported Systems**

- Windows, macOS, iPadOS, iOS, ChromeOS, Linux, Android

- **Plug and Play**

- USB-C PD port, USB-C port, HDMI® port, TF (microSD) card slot, SD card slot, USB-A ports

Using the Hub

This hub supports the Plug and Play feature. Plug the USB-C connector into your host device, then plug in your external peripheral into the corresponding port of the hub.

Note: A PD charger (not included) is not required. If you wish to use a PD charger to charge your host device, please refer to Tips (2B).

Tips:

1. When not in use, please unplug or remove the external peripherals from the hub first, and then unplug the hub from your host device.
2. If you need to connect a PD charger to the hub's USB-C PD port, please:
 - A) Notice that it only has the charging function and is input only.
 - B) Use an original or certified PD charger to charge your host device. The output of the PD charger should meet the input specifications of the USB-C PD port.

CE CE Mark Warning

This is a class B product. In a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures. The terms HDMI, HDMI High-Definition Multimedia Interface, HDMI trade dress, and HDMI Logos are trademarks or registered trademarks of HDMI Licensing Administrator, Inc.

- TP-Link hereby declares that the device is in compliance with the essential requirements and other relevant provisions of directives 2014/30/EU, 2009/125/EC, 2011/65/EU and (EU)2015/863.
- The original EU Declaration of Conformity may be found at <https://www.tp-link.com/en/support/ce/>
- TP-Link hereby declares that the device is in compliance with the essential requirements and other relevant provisions of the Electromagnetic Compatibility Regulations 2016.
- The original UK Declaration of Conformity may be found at <https://www.tp-link.com/support/ukca/>

SAFETY INFORMATION

- When the product has a power button, the power button is one of the ways to shut off the product; when there is no power button, the only way to completely shut off power is to disconnect the product or the power adapter from the power source.
- Do not attempt to disassemble, repair, or modify the device. If you need service, please contact us.
- Keep the device away from water, fire, humidity or hot environments.
- This equipment can be powered only by equipment that complies with Power Source Class 2 (PS2) or Limited Power Source (LPS) defined in the standard of IEC 62368-1.
 - Operating Temperature: 0°C~40°C (32°F~104°F),
 - Storage Temperature: -40°C~60°C (-40°F ~140°F)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help

Explanation of the symbols on the product label

Symbols may vary from product.

Note: The product label can be on the product and its I.T.E. power supply

	Indoor use only
	DC voltage
	AC voltage
	RECYCLING This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment. User has the choice to give his product to a competent recycling organization or to the retailer when he buys a new electrical or electronic equipment.
	Energy efficiency marking (level VI)
	Polarity of output terminals
	Class II equipment
	Caution
	Operator's manual
