tp-link VIGI InSight Series Fisheye Network Camera Installation Guide

Contents

tp-link VIGI InSight Series Fisheye Network Camera

Specifications:

- **Product:** InSight Series Fisheye Network Camera
- **Model:** InSight S655I
- **Microphone:** Built-in
- **Speaker:** Built-in
- **Storage:** microSD Card slot (optional)
- **Mounting Options:** 3 options available
- **Waterproof:** Waterproof tape and cables (optional)
- **App:** TP-Link VIGI App for activation and access

Product Usage Instructions

Mounting the Camera:
When mounting the camera on a wall, point the microphone upward and the speaker downward.

Option 1:

1. Ensure you have the necessary tools and components ready from the box.
2. Mount the camera using the specified dimensions A, B, and C.
3. Refer to waterproof cables if needed.

Option 2:

1. Mount the camera using the provided microSD card and waterproof tape if needed.
2. Follow the dimensions A, B, and C for proper installation.
3. Keep the protective film on during installation and remove it before use.

Option 3:

1. Mount the camera using a 1/4-20unc screw.
2. If using a microSD card, insert it into the designated slot.

3. Keep the protective film on during installation and remove it before use.

Installing microSD Card (Optional):
If you choose to use a microSD card for storage, insert it into the designated slot on the camera.

Waterproof Cables (Optional):
If using Ethernet or power cables that require waterproofing, refer to the provided instructions for proper installation.

Activation and Access:
To activate and access the camera, use the TP-Link VIGI App.
Follow the instructions within the app for setup.

FAQ

**Q: Where can I find more information and technical support?**
A: For technical support, replacement services, user guides, and more information, please visit **TP-Link Support**.

More Information

- Web configuration: The default web login address is **https://192.168.0.60**.
- For more details on installation and setup, scan the following QR codes:

Usage Tips:

- Make sure your power supply matches your camera. The camera also supports PoE (802.3af/at).

  The power source should comply with Power Source Class 2 (PS2) or Limited Power Source (LPS) of IEC 62368-1.

- Make sure that the wall is strong enough to withstand 4 times the weight of the camera and mounting bracket.

- If you are uncertain or uncomfortable performing the installation, consult a qualified electrician.

Safety Information

- Do not use any other chargers than those recommended.
- Do not use damaged charger or USB cable to charge the device.
- Do not attempt to disassemble, repair, or modify the device. If you need service, please contact us.
- Adapter shall be installed near the equipment and shall be easily accessible.
- Keep the device away from fire or hot environments. DO NOT immerse in water or any other liquid.
