Introduction

This is a BLE 5.0 controllable tag used for contact tracing and other workplace health and safety applications. It operates with a CR2430 coin cell battery, gives LED indications for ON/OFF operations and Contact tracing. This hospital-grade, lightweight tag is waterproof, hypoallergenic, latex-free, and skin-friendly.

Features

- Bluetooth Low Energy 5.0 wireless protocol
- Compatible with Tracesafe's AllSafe system
- 290 mAh non rechargeable battery
- LED Indication and push button
- Waterproof
- Lightweight

Specifications

Electrical	Symbol	Min.	Typ.	Max.	Unit	Remarks
Supply Voltage			3 V		Vdc	Manganese Dioxide Lithium Battery (non rechargeable)

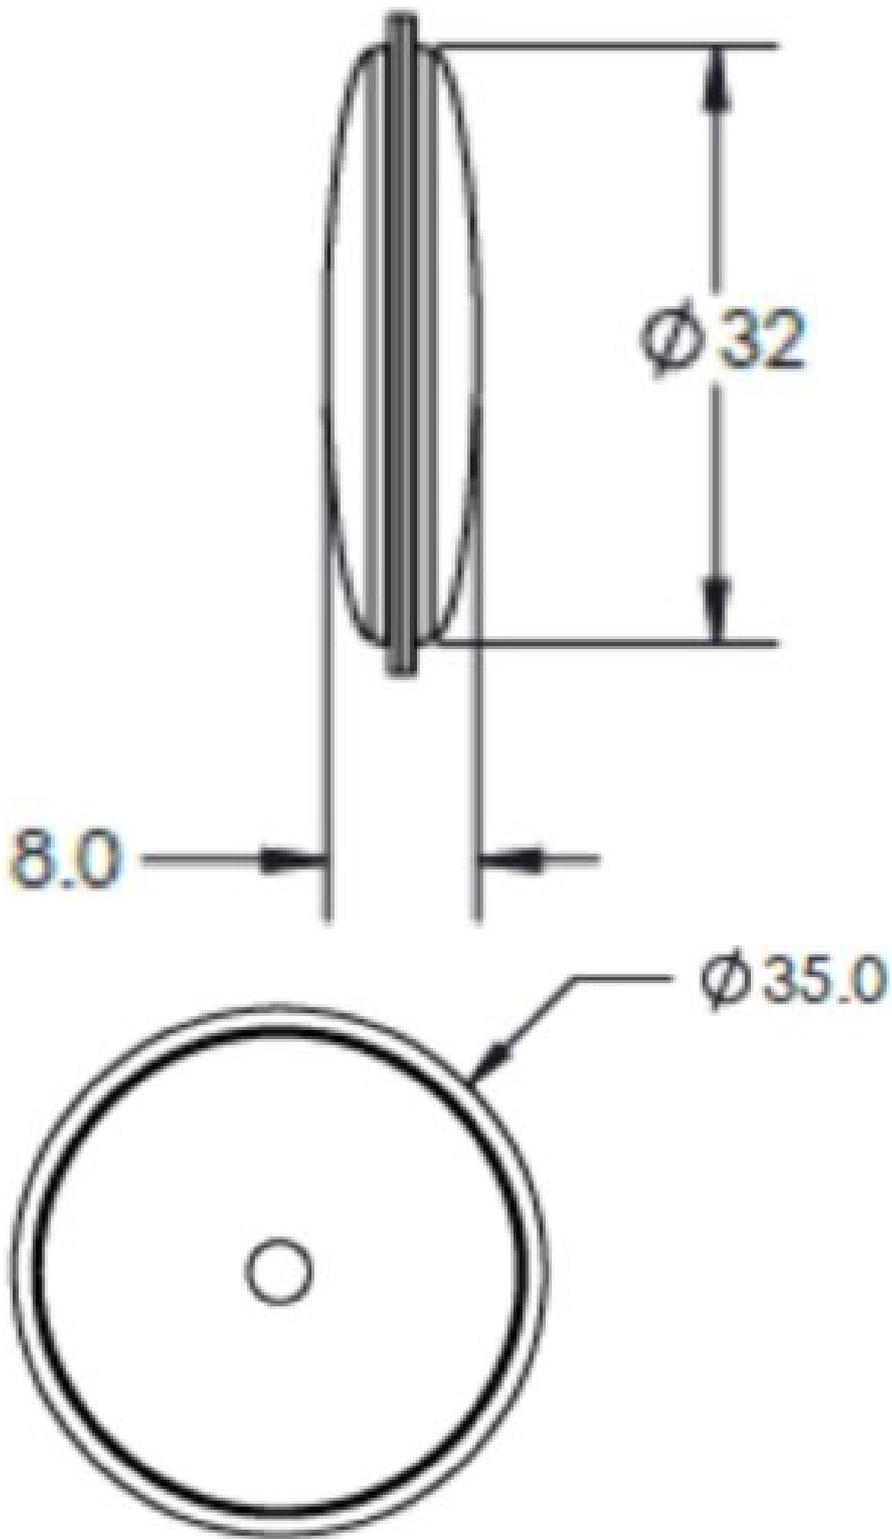

RF	Symbol	Min.	Typ.	Max.	Unit	Remarks
Frequency Range		2402		2480	MHz	
TX Power			4		dBm	
Receiver Sensitivity			-91		dBm	

Environment al	Symbol	Min.	Typ.	Max.	Unit	Remarks
Operating Temperature	tj	0		50	°C	
Storage Temperature	ts	-25		90	°C	
Relative Humidity	RH	20		95	%	

Mechanical	Symbol	Min.	Typ.	Max.	Unit	Remarks
Dimensions			35 x 8		x 8 mm	Dia x Height
Net Weight			6		g	In gram

FCC Warning

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0mm between the radiator and your body

ISED Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

The digital apparatus complies with Canadian CAN ICES-3 (B)/NMB-3(B).

This device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.

The device has been evaluated to meet general RF exposure requirement. This equipment should be installed and operated with minimum distance 0mm between the radiator and your body.
