Woodcare

Information

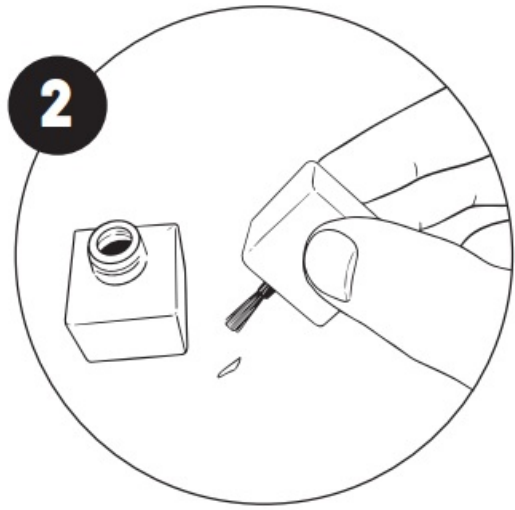

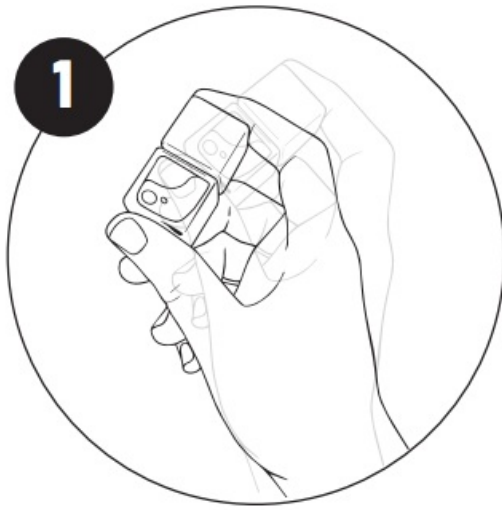

- Each Transformer Table comes with a package of 2 protective pads you will need to install onto each panel to prevent damage when they are being stored.

Maintenance

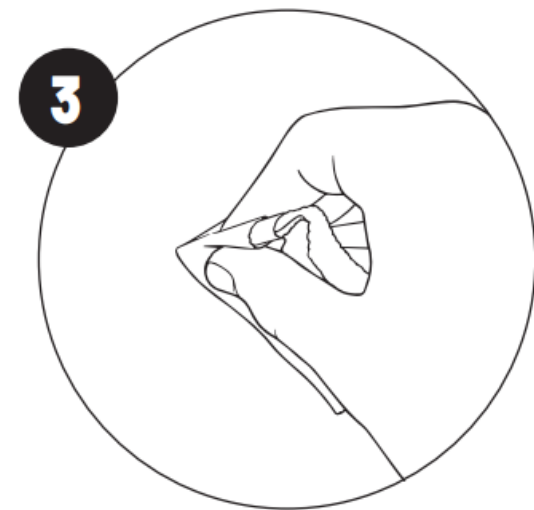

- Each one of the Transformer Table solid wood finishes is sealed by a ceramic lacquer coating, ensuring they are resistant to liquids, heat, scratches, and stains.
- Due to the nature of the wooden materials, we highly recommend taking the necessary precautions to keep your dining table looking brand new for many years to come, such as using protective accessories like tablecloths, placemats, coasters, and hot plates to shield your Transformer Table.
- Make sure to store your different Transformer Table components in the same living space as much as possible, and always keep them in a climate-controlled area.
- In the case of an accidental scuff, we do include a bottle of touch-up stain with each Transformer Table order so you have a perfect match on hand.

TOUCH UP

Steps

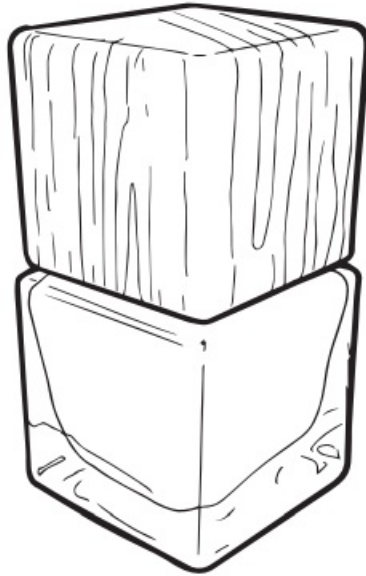

1. Shake the touch-up paint bottle until the color is even.
2. Apply the paint evenly on the damaged areas. Make sure not to apply too much paint as it will make it darker.

3. Using a microfiber cloth, wipe down excess paint until the damaged area is completely filled in and the color is matching.
4. Touch paint might seem darker upon application, however, it will lighten once dries. Let it dry for 24 hours minimum.
