How to set up a notification

In the phone settings, select "App management" or "APP", select the "Fundo" app. Select the item "permissions" allow and activate all the items in the list. Still in the "Fundo" app, select the "Notifications" item, also in this case allow and activate all the items in the list.

Notice: Please do not close the Bluetooth notification service or terminate the background application software. It will affect the sync function between watch and phone if you close it.

Introduction to the main functions

1. Telephone

Contacts: can synchronize mobile phone contacts, view and dial them via Bluetooth.

Dial: connects to the mobile phone to dial a number.

Call log: can synchronize the call log (made, received and missed).

Notifications: Synchronize all mobile messages.

2. Sleep Monitor

(1) The clock will show the user's sleep hours of the night before. The sleep measurement time is from 21:00 to

09:00 the next day. The total hours of sleep performed are displayed, divided into deep sleep and light sleep.

(2) Activation: after selecting the icon, drag your finger from bottom to top; activate the function (if deactivated), you can also view the history of the recorded data.

IP Heart Rate

The watch will measure the user's heart rate in its measurement interface. Your instant heart rate will be displayed. If the value is not detected, the zero value will always be displayed.

Blood Pressure

The watch will measure the user's blood pressure in its own measurement interface. It will take a few seconds for the pressure to be detected, after which the result will be displayed. If the value is not detected, the zero value will always be displayed.

Oxygen

The watch will measure the user's blood saturation in its measurement interface. Once its icon has been selected, select the word "Start" to start the detection, it will take a few seconds to detect the data, at the end of which the result will be displayed.

ECG

The watch will detect the user's ECG in its measurement interface. The instant ECG will be displayed. If the value is not detected, the zero value will always be displayed.

Remote Camera

To take a picture using the watch as a shutter command, the phone must be unlocked, the "Fundo" App is active and the "Take a picture" command on the app must be active.

Music

Once connected to Bluetooth, it is possible to act on the playback/ pause, track skip forward and back, music tracks on the phone and volume adjustment controls.

Find Phone

Once its icon has been selected, touch the word "Start", the phone will begin to ring. After finding it, tap "Finish" to stop the search.

Sedentary

You can set the time period by yourself (at 30-minute intervals, minimum 0m4-4300m maximum) when the sedentary time is reached, the watch will ring and vibrate to remind you to get up.

Sport

Sports mode: walking, running, mountaineering, cycling, basketball, badminton, table tennis, football, settings, historical records.

Pedometer

Before use, access the pedometer menu. Select the icon and drag your finger from bottom to top; activate the function (if disabled) and set all the personal information required. Wear the watch on your wrist, swing your arm normally while walking, the pedometer will count the steps and combine the total number of steps by calculating the calories burned.

Alarm

Customize the alarm time, number of rings, ring tones, and reminder types

Click the button in the lower-left corner to start timing. In this interface, click the button in the lower right corner to continue timing, click the button in the lower-left corner to pause timing, and slide the screen up and down to view historical data; when the stopwatch is paused, click the button in the lower right corner to clear data

On the watch side, click Bluetooth search device, select the Bluetooth name of the mobile phone that you want to pair with, click pair, and the phone end/ watch side click agree to pair successfully

16. Language Click on the icon to select and change the clock language.

Settings

WARNING

Always consult your doctor before starting an exercise program. TREVI T-Fit 270 CALL is not a device medical device but a device capable of measuring and displaying the wearer's heart rate, blood pressure, blood oxygenation and ECG on an LCD display. The measurement results of this product are for reference only and are not intended for any medical use.

Warnings

This device is an electronic instrument of high precision; therefore, avoid using it in the following cases:

- Close to strong heat sources such as heaters and stoves.
- In environments that are too cold or too hot or very dusty.
- The appliance must not be exposed to dripping or splashing water. No liquid-filled objects, such as vases, must be placed on the appliance.
- If liquids penetrate into the device, bring the device to the nearest authorized TREVI service Centre.
- Do not use the device near flammable or explosive gases, this may cause a malfunction of the device or a fire hazard.
- No naked flame sources, such as lighted candles, must be placed on the appliance.
- Keep the device out of reach of children. The device is not a toy. The device is made up of small removable parts which, if ingested, can cause suffocation.

- Do not expose the device to strong shocks.
- Store the product in a dry place when you are not using it.
- · Keep this instruction manual.

Precautions for correct disposal of the product

The symbol shown on the equipment indicates that waste must be disposed of in "separate collection" and so the product must not be disposed of together with urban waste. The user must take the product to special "separate waste collection centres" provided by local government, or deliver it to the retailer against the purchase of a new product. Separate collection of waste and subsequent treatment, recycling and disposal operations promotes the production of equipment with recycled materials and limits negative effects on the environment and on health caused by improper handling of waste. Illegal disposal of the product leads to the enforcement of administrative penalties.

Simplified EU Declaration Of Conformity
Hereby TREVI S.p.A. declares that the equipment
T-Fit 270 CALL is in compliance with Directive 2014/53/EU.
The full text of the EU declaration of conformity is available at the following internet address
https://www.trevi.it/dms/zidi/TREVI/DOCTFIT270CALL.pdf
