PRODUCT UPDATES

niagara414

Niagara 4.14u1 now available

Niagara Framework ® 4.14u1 is now available and contains a number of general core hardening features, such as fixes for any defects and security issues reported since the release of Niagara 4.14.

RELEASE ANNOUNCEMENT

niagara access

Niagara Access Beta Testing

Niagara Access is a powerful access control solution supporting the latest innovations in physical security and biometric access. Interested in testing Niagara Access features? Contact tridiumbetatest@tridium.com if you would like to get started testing today.

Niagara Data Service Beta Testing

There's still time to sign up to participate in beta testing for Alarms Management but now you also have the ability to sign up for beta testing of the new Point Manager interface. When completing the form, select Niagara Data Service – Alarms Management(Beta) and/or Point Manager(Beta) from the offerings list.

SIGN UP FOR NDS BETA

Niagara Tenant Billing Service

Updated app to enable users to easily monitor tenant utility usage and to create invoices based on that usage. Another advancement from Tridium Professional Services!

NIAGARA CASE STUDIES

Shifting/Shaping Energy Demand Curve

Office complex in South Africa deploys a Niagara-based controls system to orchestrate the many pumps, chillers, valves, controllers and sensors that ensure optimized delivery of Ice Plant cooling energy.

Airport Operational and Terminal Management Integration

Ontrol integration experts, aided by the Elekon and Helvar lighting team, configured a comprehensive integration platform based on the Niagara network. A total of approximately 110,000 points are monitored and controlled by this system..

Find available case studies in the Library using the drop down menu to choose 'Case Study' or 'White Papers' along with your preferred language.

LINK UP TO LEVEL UP

EXPANDING IOT CAPABILITIES THROUGH PEOPLE AND TECHNOLOGY

[VISIT NIAGARA MARKETPLACE](#)

The Niagara Resource Center also provides access to release announcement, marketing resources and product materials (such as product guides and manuals). Use your Niagara Community account to find important information and read any announcement that you may have missed.

If you haven't signed up for the Niagara Community now's your chance! The Niagara Community provides a forum to better understand how to manage your Niagara network and is the source for support, resources and ideas for projects built on the Niagara Framework®.

Thank you for being an integral part of the Niagara Community. Your dedication and creativity continue to drive innovation in the IoT space. If you have any questions, suggestions, or just want to connect, feel free to reach out to us at support@tridium.com

FAQ

- **How can I participate in beta testing for Niagara Data Service?**

To participate in beta testing for Alarms Management and Point Manager interface, select the desired offerings in the sign-up form available on the Tridium website.

- **How do I monitor tenant utility usage using Niagara Tenant Billing Service?**

To monitor tenant utility usage, use the updated app provided with the Niagara Tenant Billing Service. The app enables users to easily track utility consumption and generate invoices based on that usage.
