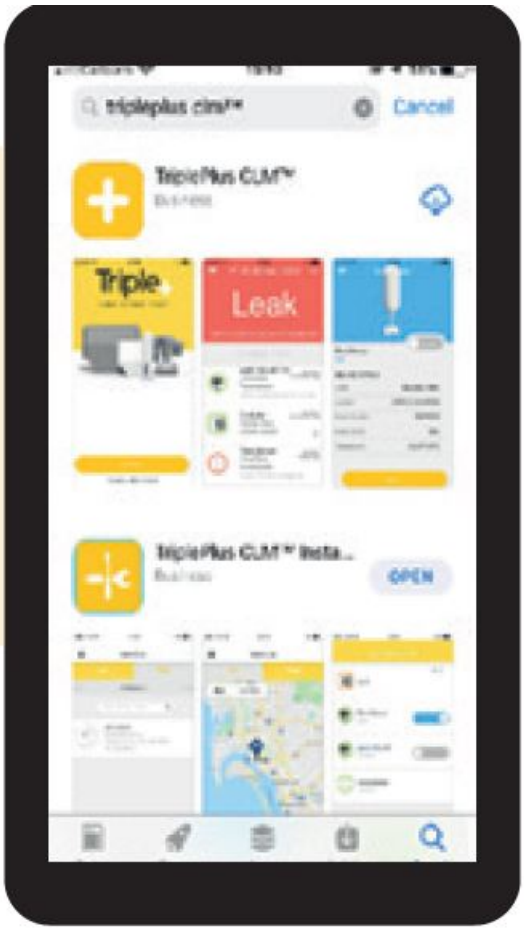
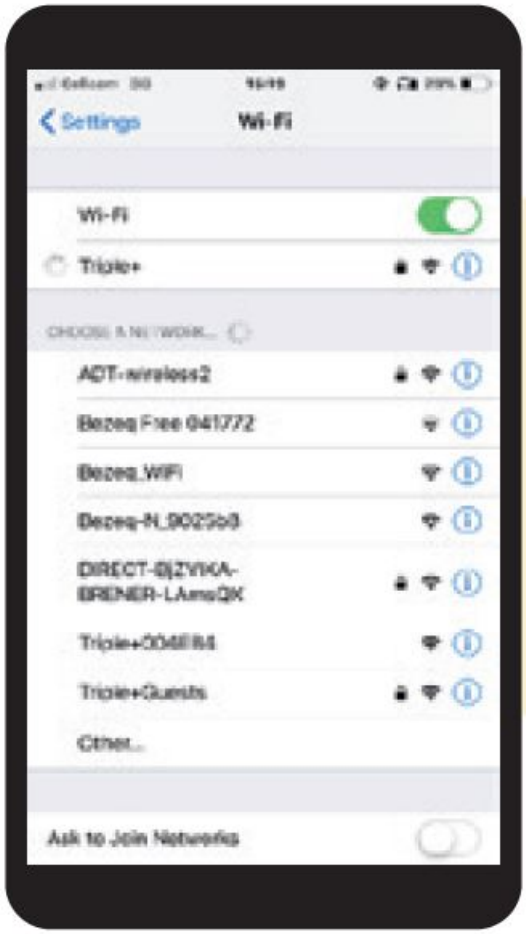
Installation Instructions

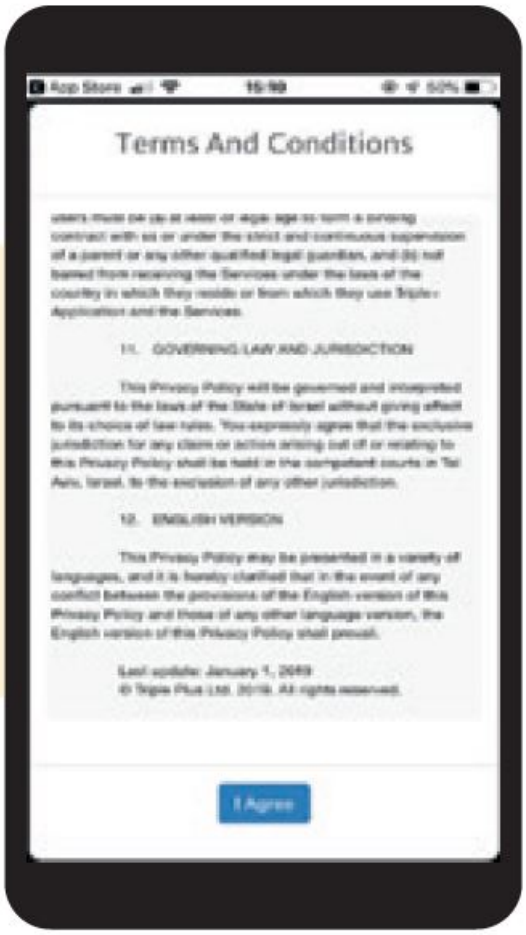
1. Download the free Triple+ CLM™ APP for your smartphone from Google Play or the AppStore. The entire installation is managed via your smartphone



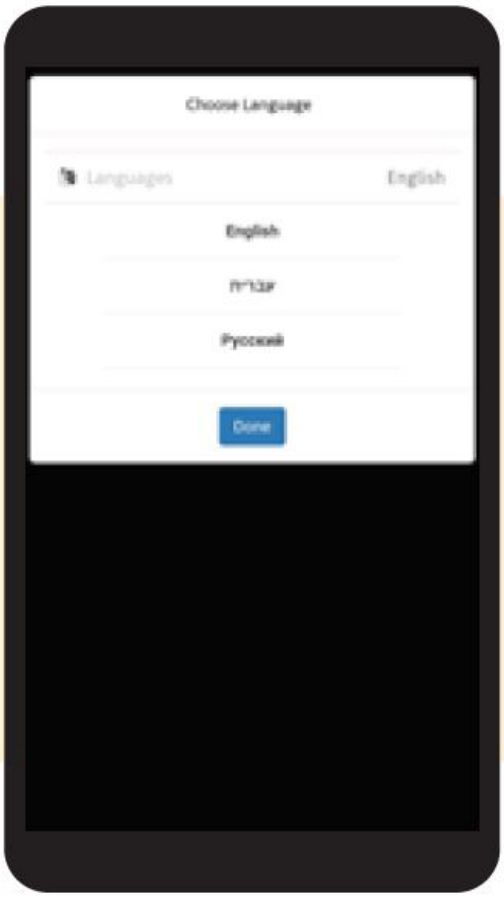
2. You will be registering the Triple+ CLM™ Hub V2.0 to your designated Wi-Fi network; please make sure that your mobile phone is connected to that same



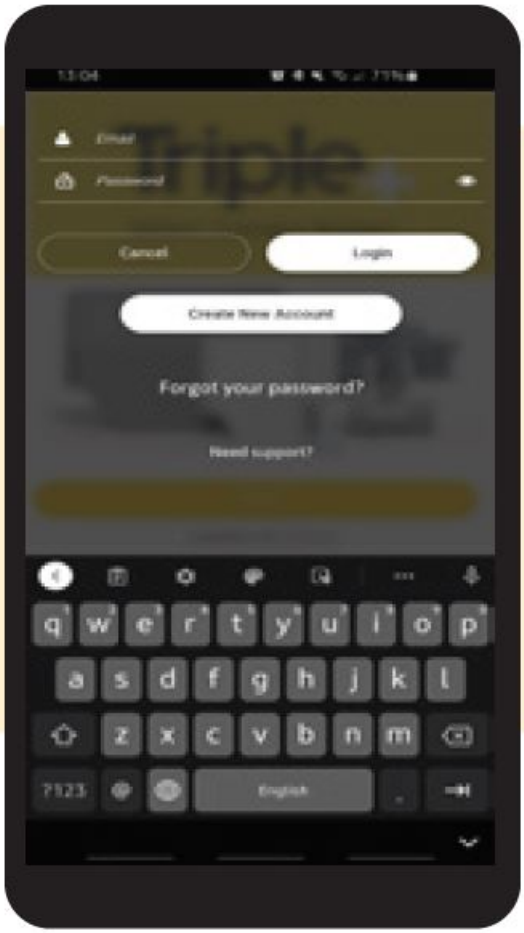
3. Read the terms and conditions, scrolling all the way down, then tap the “I Agree on button” at the bottom if you approve

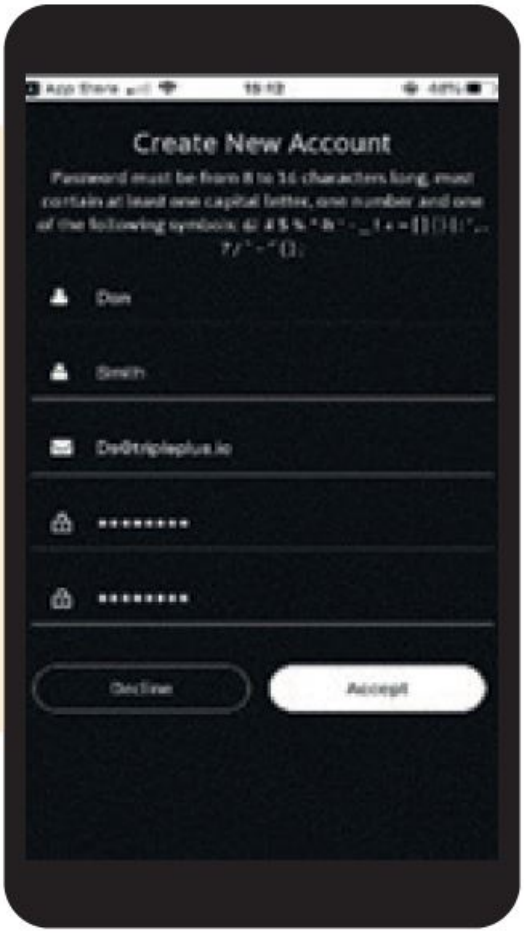


4. Tap the login button select your language

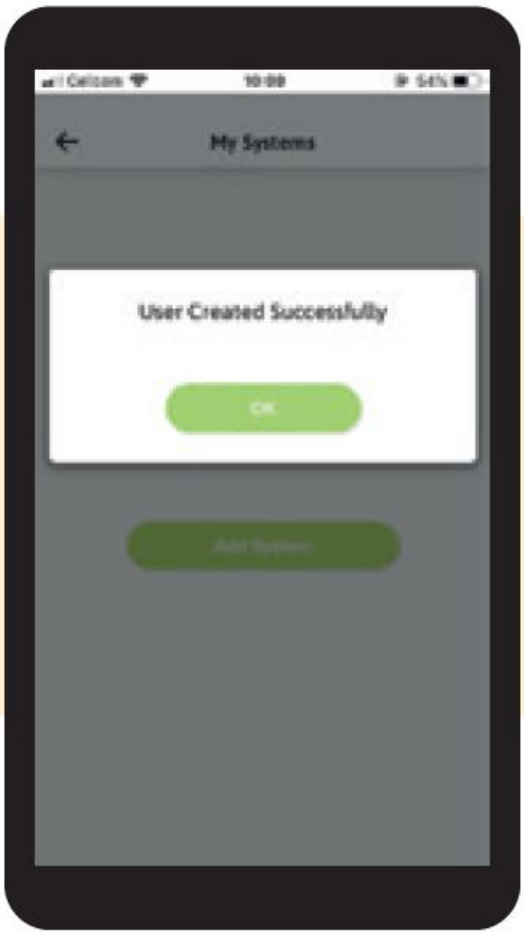


5. Tap the Create New Account button fill out the required fields and tap the Accept button

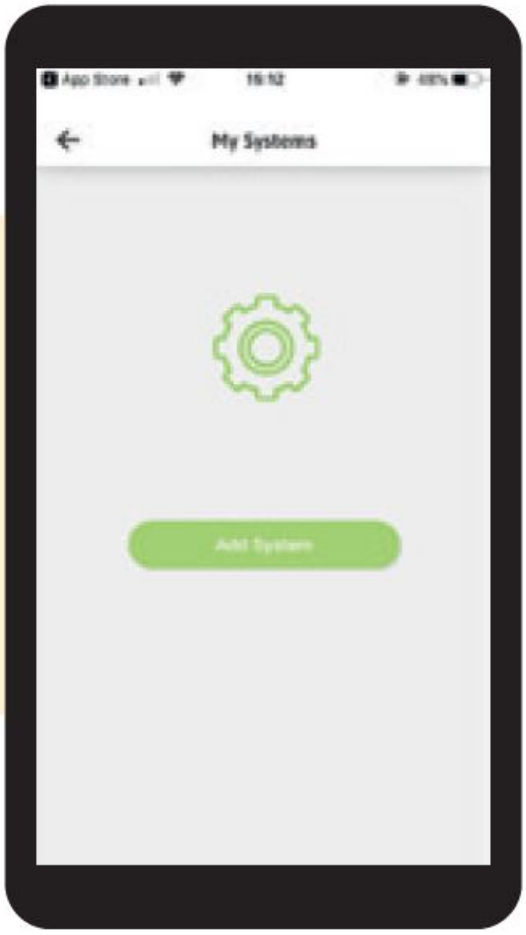




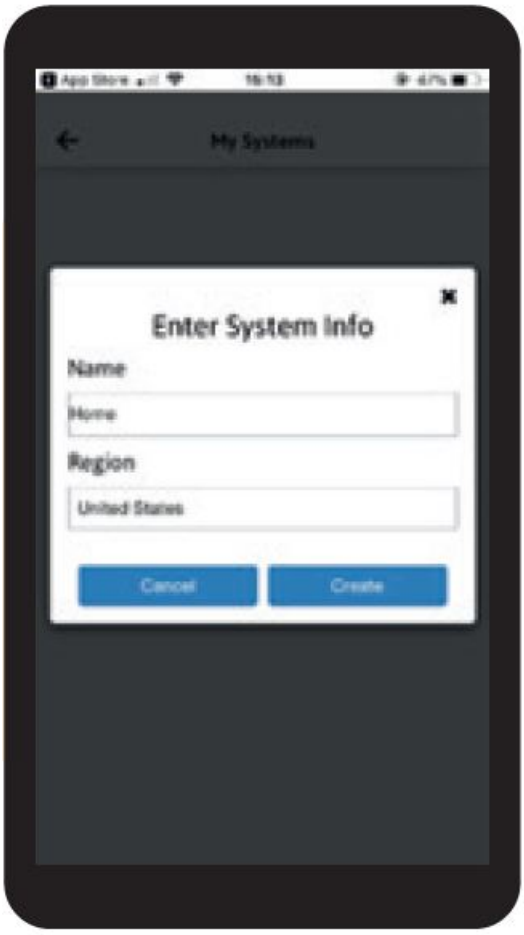
6. Tap the OK button



Tap the Add System button

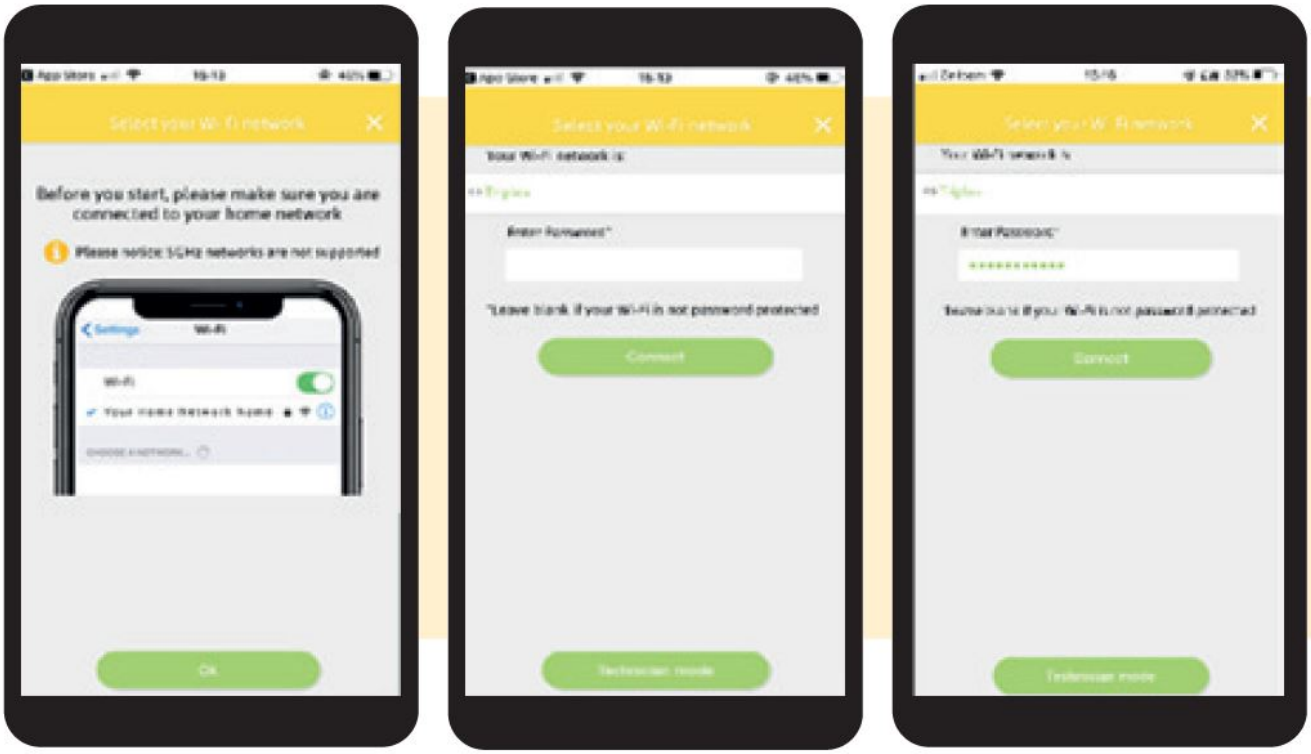


7. Scan the Kit installation QR code on the OUTSIDE of the main kit box delivered
8. Then tap the Add System Name button and create your System- using your address is preferred, as it is unique. Then choose Region and tap the Create button.

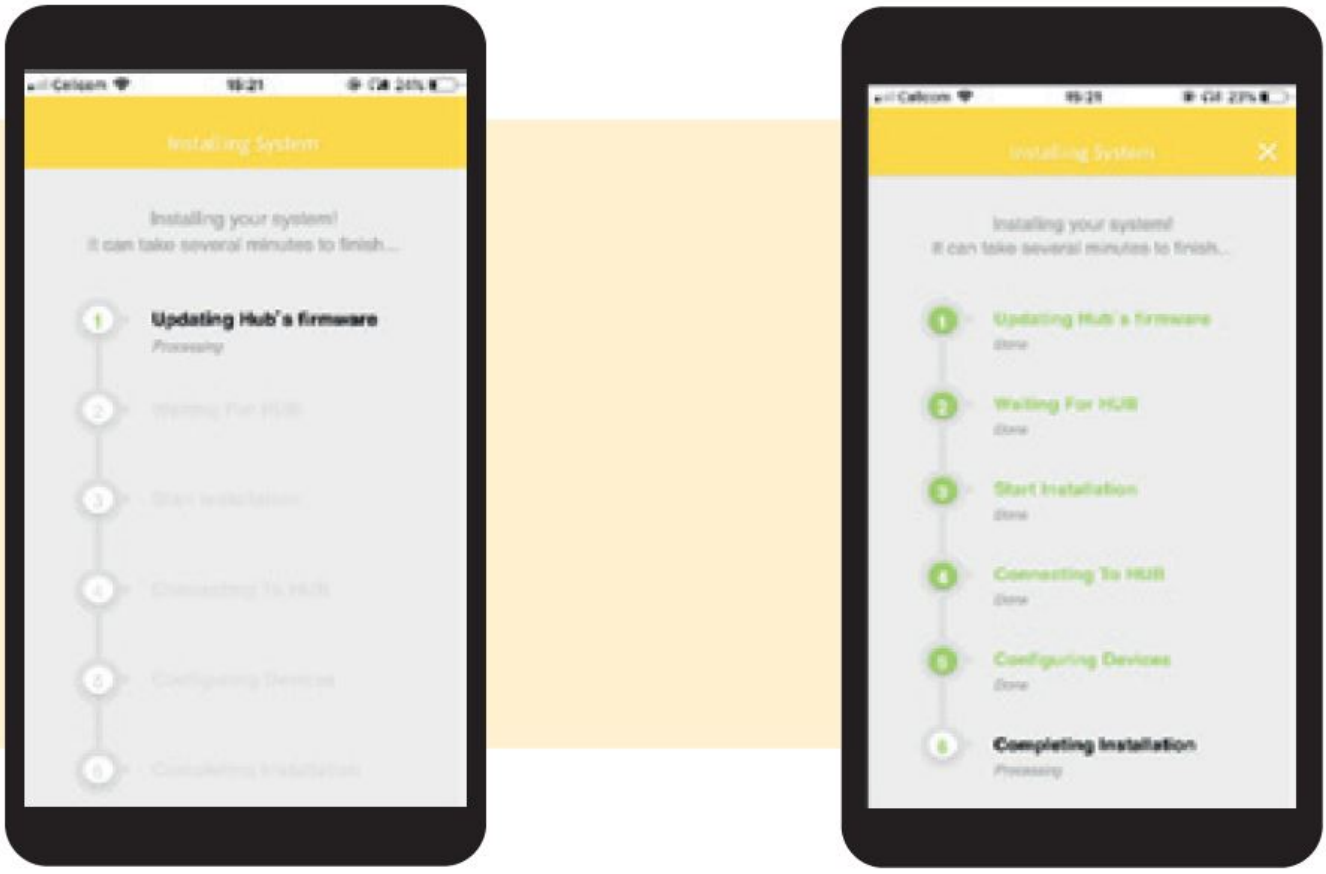


9. Follow the instructions on the APP to initiate the installation sequence. When requested to unplug the power from the Hub, please disconnect AC power first, then remove AA batteries, and reinsert AA batteries before plugging AC Power back in, then tap the “OK” button

10. batteries back in the hub and plug in the AC power, please check to ensure that you are connected to your selected WiFi network



11. After the Hub connects to the Wi-Fi the installation will start automatically



12. Locate the devices in their intended, permanent location and verify that all the devices communicate with the Triple+ CLM™ Hub V2.0 by verifying that all display in green. You can now secure the devices in those locations with two-sided tape or screws.
