#### Features

- All-in-one CCTV Tester
- 5-inch IPS touch screen, 1920×1080 resolutions

- 8MP CVI/ TVI/ AHD camera test
- H.265/H.264, 4K video display via mainstream
- HDMI output, support 1080P
- DC12V 3A, 48V PoE power output
- Rapid ONVIF, Create the test report and modify IP address, etc.
- Auto HD, auto recognize HD coax camera type and resolution
- RJ45 TDR cable test, cable quality test
- UTP cable test, detect open, shorts, mis-wiring
- Works 4 hours after a 2~3 hour charge
- Includes 7.4V Li-ion battery, AC adapter/charger, DC power cable, BNC cable, RS485 cable, audio cable, wrist strap, and carrying case

## Specifications

|                    |                                                                                                |
|--------------------|------------------------------------------------------------------------------------------------|
| IPC Protocol       | ONVIF, RTSP, RTP                                                                               |
| Network Test       | 10/100/100M detect; IP address scan, ping, packet test, DHCP server; trace route; link monitor |
| Rapid IP Discovery | Discover the IP address in the connected device's network segment                              |
| WiFi               | Display upload/download connection speeds: create a Wifi hotspot                               |
| IP Camera Test     | Display image from the 4K H.265 camera by mainstream                                           |
| Data Monitor       | Capture and analyze the command data from controlling device; can also send hex or decimal     |
| Video Test         | NTSC/PAL/HD-CVI 3.0/AHD 3.0/HD-TVI 3.0                                                         |
| Audio Test         | 1 channel audio signal input                                                                   |
| PTZ Control Test   | Support RS485; Compatible with more than 30 protocols                                          |
| Lens Simulation    | Simulate different lens display areas: 2.8, 3.6, 4, 6, 8, 12, 16, 25mm                         |
| POE Test Power     | 48V power output; Max power 24W                                                                |
| 12V Power Output   | 12V/3A output interface                                                                        |
| Snapshot/Video     | Capture and record images and live video with playback                                         |
| Memory             | Internal: 3.2GB; External: optional microSD 32GB max                                           |
| Display            | 5" IPS Touch, 1920 x 1080                                                                      |
| Power              | Lithium-ion battery 5 hour work time                                                           |
| Dimensions         | 183 x 110 x 36.5mm                                                                             |
