Dimension

These items are recommended for use with the TRUPER cargo net models RED-C18 and RED-C24.

WARNING

Do not exceed working load limit of 220 lbs per belt.

INSTRUCTIONS

Before transporting, consider the weight and distribution of your cargo.

Ensure that the anchors are securely attached to a part of the truck or trailer's chassis or to an area designed to handle the high tension of securing the load.

The capacity of the anchors depends on both the proper use of fastening screws and the durability of the surface where they're installed.

Always inspect your load after the first 10 miles and then at every subsequent 50 miles.

Ensure that ropes, threads, or tie-downs align with the anchoring points.

If you're hauling wheeled items, engage their brakes and use wheel chocks for added security.

INCLUDES:

10 anchors
10 screws
10 washers

Importado port
