Trust AEX-701 Wireless Signal Repeater

INSTALLATION

Make sure the Trust Smart Home transmitter is assigned to the Trust Smart Home receiver before proceeding.

Read the receiver's manual for the code learning procedure.

2. Install batteries:

1. Detach the foot stand with a screwdriver.
2. Remove the screws to open the battery compartment.
3. Insert 2x 1,5V AA alkaline batteries with the correct polarity into the battery compartment.

3. Activate learn mode

Press the learn-button for 1 second. The learn mode will be active for 15 seconds and the LED-indicator on the front will blink.

4. Assign Trust Smart Home transmitter code

While the learn-mode is active, send an ON-signal with any Trust Smart Home transmitter.

The LED-indicator will slowly blink twice to confirm the code has been received.

5. Close battery cover and click-on the foot stand.

Tighten all screws to ensure waterproofness.

6. Mounting inside or outside

Use the foot for horizontal placement or use the rear slots for vertical mounting.

7. Single code delete

1. Press the learn-button for 1 second. The learn mode will be active for 15 seconds and the LED-indicator will blink.
2. While the delete mode is active, send an OFF-signal with a Trust Smart Home transmitter to delete the transmitter code.
3. The LED indicator will blink twice slowly to confirm code deletion.

8. Full memory delete

1. Press and hold the learn-button (aprox. 7 sec.) until the LED-indicator starts blinking. The delete mode will be active for 15 seconds.
2. While the delete mode is active, press the learn button again for 1 second.
3. The LED indicator will blink twice slowly to confirm memory deletion.

Safety Instructions

Product support: www.trust.com/71029. Warranty conditions: www.trust.com/warranty

To ensure safe handling of the device, follow the safety advice on: www.trust.com/safety

The Wireless range is strongly dependent on local conditions such as the presence of HR glass and reinforced concrete. Never use Trust Smart Home products for life-support systems. This product is water-resistant. Do not attempt to repair this product. Wire colors may vary per country. Contact an electrician when in doubt about wiring. Never connect lights or equipment that exceed the maximum load of the receiver. Exercise caution when installing a receiver voltage may be present, even when a receiver is switched off. Maximum radio transmit power: -7.30 dBm. Radio transmission frequency range: 433,92 MHz

Disposal of packaging materials – Dispose of packaging materials which are no longer needed in accordance with applicable local regulations.

Disposal of the device – The adjacent symbol of a crossed-out wheellie bin means that this device is subject to Directive 2012/19/EU.

Disposal of batteries – Used batteries may not be disposed of in household waste. Only dispose of batteries when they are fully discharged. Dispose of batteries according to local regulations.
