|  | pour water reminder                                                                                       |
| V                                                                                 | the mode is ready when the V/S flashing water flow speed mode                                             |

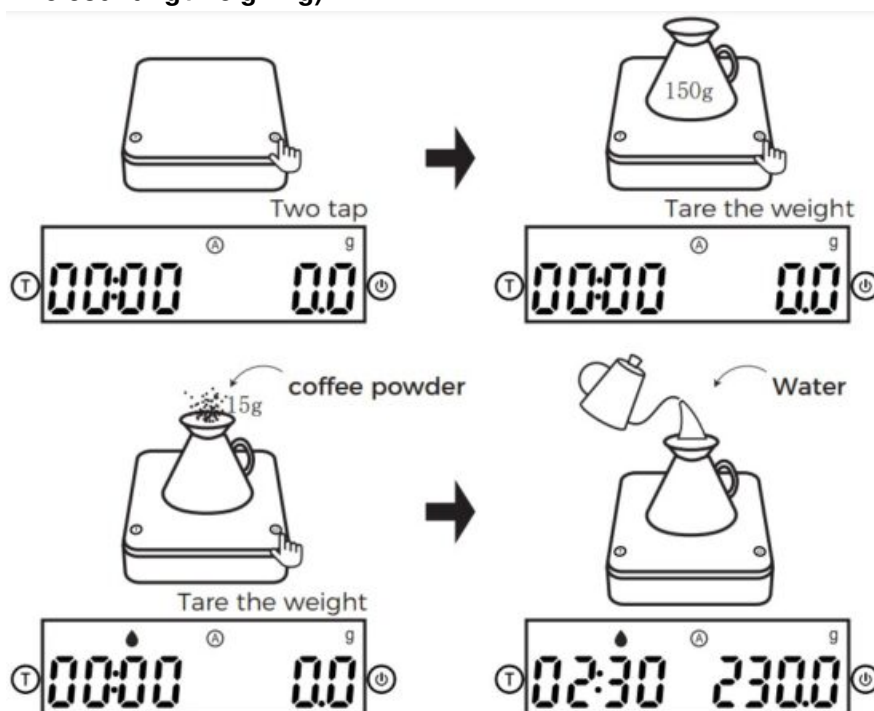

## Manual Mode & Auto Timer Mode

### Manual mode Time counting +weighing

Short press  to start / stop Timer, long press 2 seconds to clear Timer, the maximum Timer is 99'59".

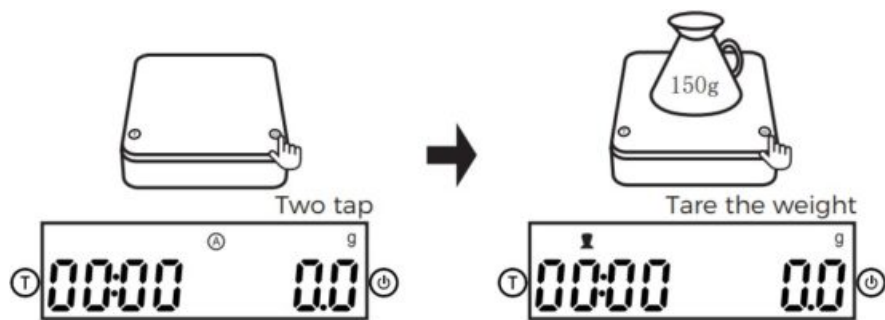

### Auto timer mode (Time counting+weighing)

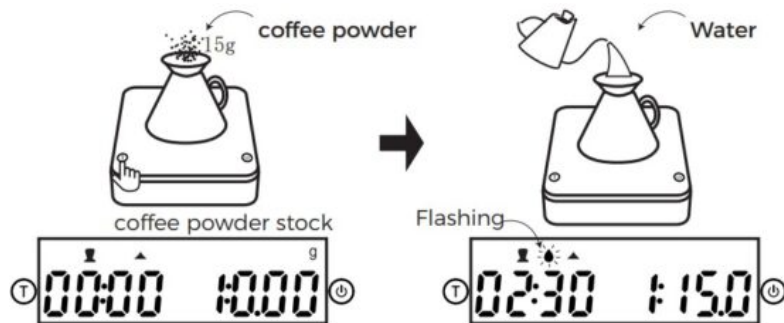

Short press twice  to get into Auto mode, icon  light up, put kettle & filter on the scale, press  to clear weight, add coffee powder, press , icon  light up, pour water in, timer auto start, stop pouring water, timer continue running, take all object off the scale, timer auto stop.

## Ratio Mode

### Ratio mode(Weighing powder + water )

Short press  $\text{⏻}$  twice again to get into Ratio mode (when in Auto mode), icon  $\text{⬆}$  light up, put the kettle & filter on the scale, short press  $\text{⏻}$  to tare the weight.

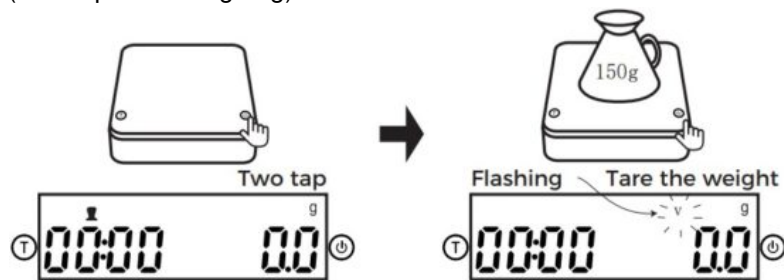

Add coffee powder, short press  $\text{⏻}$  to get the coffee powder weight, icon  $\text{⬆}$  light up, display ratio on screen (1:0.00, 1 refers to coffee powder).

PS: object cannot over 999g (when over it, screen flash once with beeping sound, then back to the mode). Can tare the weight many times before the Ratio mode is ready.

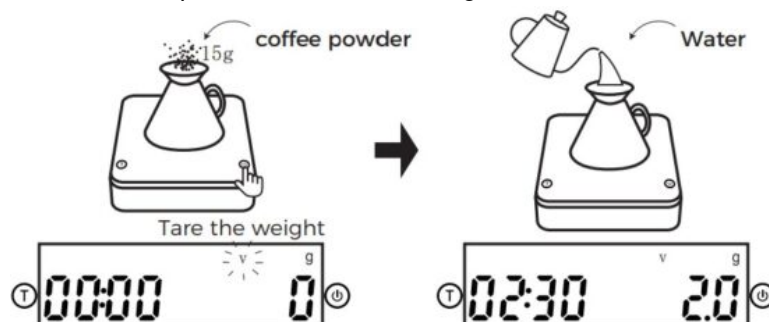

Pour in the water to start the mode, timer auto start counting with beeping sound (icon  $\text{⬆}$  flashing until stop pouring water), display the ratio of coffee powder & water, timer will be stopped automatically when stop pouring water, icon  $\text{⬆}$  stop flashing with beeping sound, Alternate display 3 times the ratio of coffee powder & water, time, weight of power, weight of water, then all back to zero.

## Water Flow Speed Mode

Water flow speed mode (Flow speed + weighing)

Short press  $\text{⏻}$  twice again to get into water speed flow mode (when in Ratio mode), icon  $\text{v}$  light up and flashing, put the kettle & filter on the scale, short press  $\text{⏻}$  to tare the weight.

Add coffee powder, press  $\text{⏻}$  to clear the coffee weight, then pour water, the weighing reading area displays the water flow speed, and the  $\text{v/s}$  symbol remains light up during water pouring.

After stop pouring water, the weighing area displays the total weight of the water, the timer keeps running, after removing the kettle & filter off, the timer stops automatically.

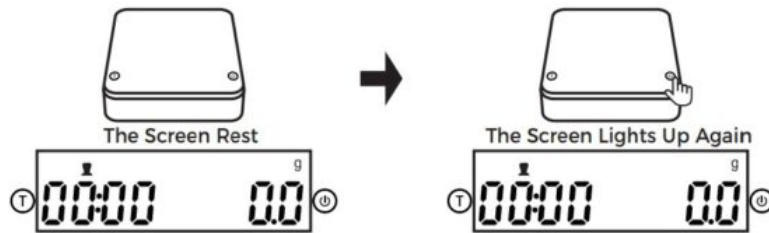

\*The water pouring flow speed only be triggered once. If it needs to be triggered once again, short press the  $\text{⏻}$

button.

After finish, press  in 2 seconds to turn off the scale.

## Memory Mode & Specifications

### Memory Mode

The LED screen will return to its previous state when the power button is pressed again after the screen has turned off.

### Specifications

- Product size: 104.5×104.5×18.5mm / 4.11"x4.11"x0.72"
- Power: 3.7V rechargeable battery
- Weighing range: 0.3-2000g
- Division: 0.1g
- High precision sensor
- LED screen
- Auto / Manual timer
- Auto off in 2 minutes if no any operation
- Auto power off within 3 seconds when low voltage icon indicate on screen: LO
- Display "EEEE" when the weight of object over 2099g.

### Warning & Warranty Card
