tunuo Rectangular Frameless LED Mirror

IMPORTANT SAFETY INSTRUCTIONS

When using an electrical furnishing, basic precautions should always be followed , including the following:

WARNING:

- To reduce the risk of burns,fire,electric shock or injury to persons.
- Use this furnishing only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer. Never drop or insert any object into any opening.Do not use outdoors.
- Risk of electric shock.Connect this furnishing to a properly grounded circuit only. See grounding instructions.

ELECTRIC CONNECTIONS

ALL WIRING SHOULD BE DONE BY A QUALIFIED LICENCED ELECTRICIAN.

WARNING:

Shut off power before wiring. Requires 120 VAC 20 Amp GFI protected Circuit.

GROUNDING INSTRUCTIONS

CAUTION:

This product must be connected to a grounded metal permanent wiring system or an equipment-grounding

conductor must be run with the circuit conductors and connected to the equipment grounding terminal or lead on the product.

WARNING:

An Electrical option mirror must be wired to a 20 Amp GFI(Ground Fault Interrupter) protected circuit when used in bathrooms and all other locations required by the National Electric Code.

HOW TO CONNECTIONS

If there is a suitable socket on the wall, plug in the mirror's own plug and you can use the electric functions.
If a cord is reserved on the wall behind the hanging mirror, please cut off the plug of the wire on the mirror and connect them according to steps A and B.
