TURTLEBOXG3 Bluetooth Speaker

Specifications

- **Ports:** AUX Input, Microphone Input, Charging Input, USB-C Charging Output

- Breather Valve for pressure equalization
- Bluetooth connectivity for pairing with devices
- IP67 Waterproof/Dustproof rating
- TUV Certification mark

PORTS

Port Flap must be closed in order to protect the ports from water or dirt.

BREATHER VALVE

- This area allows air to pass in and out of the box, but not water.
- Pressure equalization can be important on airplanes or super hot days. Keep breather living free of debris, salt build-up, and don't cover it with a sticker.

CHARGER

Plug into 100-240 volt outlet

BLUETOOTH PAIRING INSTRUCTIONS

THIS BUTTON CAN BE FLASHING OR SOLID

- **FLASHING** button light means “looking for a device to pair with”
- **SOLID** button light means “found/paired with a device”
- **A DEVICE** is your phone, tablet, or computer
- **To UNPAIR** a device, hit the solid button and it will start flashing again
- **PAIRING A DEVICE:** When  button is blinking, select “Turtlebox” on your device’s bluetooth menu. After you pair the first time, the Turtlebox will remember your phone and re-pair automatically the next time you power it on.

STEREO PAIRING TWO TURTLE BOXES

1. Pair your phone to the first Turtlebox with  button.
2. Make sure the second Turtlebox is not paired to another phone.
3. Push  button on the first Turtlebox, push  button on the second Turtlebox.
4. To end stereo pairing, push the  button on either speaker. The primary speaker will continue to be connected to your phone.

Note: Keep your phone within clear range of the primary Turtlebox (the Turtlebox with the solid Bluetooth light)

PAIRING 2 OR MORE COMPATIBLE TURTLEBOX SPEAKERS: PARTY MODE

1. Pair your device to the first Turtlebox with  button
2. Make sure the additional Turtleboxes are not paired to another device.
3. Push the  button on the first Turtlebox, push the  button on every other Turtlebox you want to join the party. This button works like an on/off switch.
4. To end party mode pairing, push the  button on any speaker. The primary speaker will continue to be connected to your device.

CARE & MAINTENANCE AROUND WATER

Your Turtlebox speaker has an IP67 WATERPROOF/DUSTPROOF rating WHEN THE PORT FLAP IS CLOSED. Nonetheless, special precautions must be heeded when using your speaker:

1. Always keep the port cover closed around the water.
2. Do NOT allow your speaker to be exposed to any water or moisture while it is being charged or while it is plugged into a power outlet. Doing so can raise the risk of electric shock and also cause damage to your speaker.
3. If your speaker is exposed to salt water, wash it off with fresh water after use. Treat it like a nice fishing reel.

TECHNICAL SUPPORT

For technical support issues please visit our website at www.turtleboxaudio.com. You can find operations manuals, videos and Frequently Asked Questions at the website.

IMPORTANT SAFETY PRECAUTIONS & BATTERY INFORMATION

1. Do not allow children to play with your speaker without adult supervision.
2. Before using your speaker, inspect the ports and jacks to make sure that they are clear of dust and debris before charging or inserting an AUX Cable.
3. Do not drop, disassemble, deform, or modify your Turtlebox.
4. Do not insert any objects into the charging or auxiliary ports, as operating damage will result.
5. When your speaker is not in use, the best place for storage is in a cool, dry place
6. Do not expose your speaker to excessive heat, flames or fire.
7. This product will turn itself off when the internal temperature reaches 140 degrees F.
8. Do not listen to your speaker at high volumes for extended periods.
9. Observe all signs and displays that require an electrical device or RF radio product to be switched off in designated areas.
10. Turn off your product before boarding an aircraft.
11. Do not attempt to repair this product yourself. Contact Turtlebox Audio at turtleboxaudio.com if your speaker needs service.
12. Do not place the speaker near objects that generate a strong magnetic field.
13. Unplug this device when not in use for long periods or during lightning storms.
14. Do not play your speaker while it is charging, as it will reduce the life of your battery.
15. The device is equipped with an integrated lithium-ion battery. Do not attempt to remove the battery from the

device.

16. The battery used in this device may present a risk of fire or chemical burn if mistreated.

FCC

CERTIFICATIONS

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference.
2. this device must accept any interference received, including interference that may cause undesired operation.

Caution: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, under Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates use and can radiate radio frequency energy and, if not installed and used per the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or experienced radio / TV technician for help.

FCC Caution

- Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.
- This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.
- This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body.

Industry Canada (IC) Compliance Notice

- This device complies with the Industry Canada license-exempt RSS standard(s). Operation is subject to the following 2 conditions: 1) this device may not cause interference, and 2) this device must accept any interference, including interference that may cause undesired operation of the device. Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.
- This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment.
- This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your

body.

The TUV Certification mark is located on the label under the input flap

FAQ

- **Q: Where can I find technical support?**
 - A: For technical support, visit www.turtleboxaudio.com for manuals, videos, and FAQs.
- **Q: What precautions should I take with the speaker around water?**
 - A: Always keep the port cover closed around water, avoid exposure to water while charging, and wash off salt water with fresh water after use.
- **Q: How do I pair multiple Turtlebox speakers in party mode?**
 - A: Pair your device with the first Turtlebox, then push the button on each additional Turtlebox you want to join the party. To end party mode, push the button on any speaker.
