TVCmall F4 Gravity Sensing Timer

Product Overview

Please read this manual carefully before using the product To ensure that the product is used correctly

Gravity sensing mode/countdown operation

Gravity mode: Toggle button to mode 1

Turn 5-10-30-60 minutes up, the countdown automatically starts, the screen turns up to pause, on the contrary, the screen turns down to timekeeping is zeroed out (as shown)

Transfer the value to
Corresponding position

Value up
Start the countdown

Screen up
time-out

Screen down
Timekeeping is zeroed out

Manual mode

Manual mode: Toggle button to mode 2

Adjustable M/S button, click the center button to start the countdown

S(second) key:
00, 01, 02-59 seconds
Cyclic regulation

M(minutes) button:
00,01,02 -99 minutes
Cyclic regulation

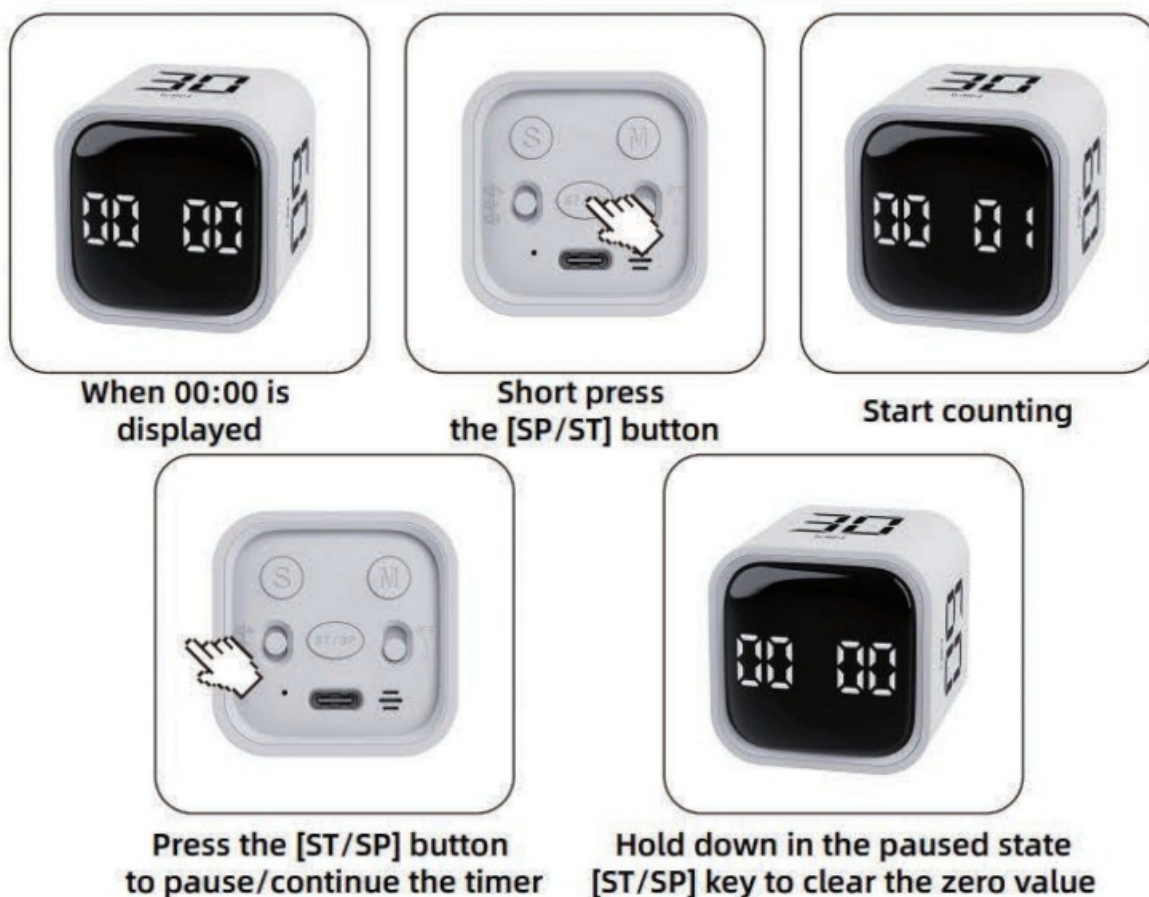

Positive timing:

1. When the display shows 00:00 seconds, short press the [SP/ST] button to start the positive timing.
2. During the timing process, short press the [SP/ST] button to pause/start the timing.;
3. In a paused state, long press the [ST/SP] button to timekeeping is zeroed out.

Countdown setting

1. Short press the [M/S] button to adjust the countdown time, long press the [M/S] button to adjust the countdown time quickly, and after setting, short press the [SP/ST] button to start the countdown.
2. During the counting process, short press the [SP/ST] button to pause/start the countdown;
3. In a paused state, long press [SP/ST] button to timekeeping is zeroed out.
4. After the countdown time reaches 00:00, there will be up to one-minute alarm reminder ("di di di" LED screen lights up / sound stops LED screen off – these two prompts 1-second group – so the cycle). Silent mode vibration reminder.
5. Memory mode: After the countdown is finished, short press again the [SP/ST] button to display the current setting time. If you need to reset the timer, long press and ST/SP button. Short press again to cycle the operation
