Install Type S LED APP on your smart device. Search for the APP through the APP Store or Google Play by:

TYPES LED

- Or scan above QR code to find the compatible APP for iOS or Android.
- Once installed, open the APP and begin enjoying your Plug & Glow™ experience.

USING THE APP

1. **HomePage**

USING THE APP CONT

APP will be connected to the Wireless Smart LED Switch Panel simultaneously when both the Switch Panel and any/all of your Type S Smart LED products are connected, powered on and within the 30ft. Bluetocth range.

NOTE: Before making any customizations or presets using the APP, test all your Type S Smart LED products using the APP and the Switch Panel, and make sure they are all installed, connected and powered correctly.
All connected Smart Hubs are highlighted in Blue.
Tap the Smart Hub icon to enter each of the O Smart Hub Preset Page.
Tap the Smart LED Switch icon to enter the 8 Smart LED Switch Preset Page.
If you encounter any issue or question, please feel free to contact us at **info@typesauto.com** or visit us online at: **www.typesauto.com.**

USING THE APP CONT

NOTES:

- ln-app presets can be made and synced to the Switch Panel even if each individual switch is not turned on.

- One individual switch cannot control two or more Smart Hubs at the same time.

- If multiple APPs are connected to the Smart LED Switch Panel and have made presets separately, the Switch Panel will only keep the most recent preset that it receives.

OPERATING INSTRUCTIONS
- When all 3 switches are paired, the Wireless Smart LED Switch Panel can control 3 different Smart Hubs at the same time. Flip the switch to turn On/Off. The blue LED indicator in the switch indicates it is on.
- NOTES: Press and hold the Reset Button for 5 seconds to clear all the presets.

Smart LED Switch Preset Page

User can customize their favorite lighting options using in-app presets.
Tap to choose a switch to begin with the preset. The chosen switch will be highlighted in blue.
Tap to choose a Smart Hub that you prefer to be controlled by this switch.
The in-app preset from the
Smart Hub Preset Page

will appear in here. You can control the number of zone(s) by tapping on the icons. The selected zone(s) will be indicated by a white border.

Once you are done with the settings, tap confirm. This Smart Hub will be paired to the switch. The preset will be saved and synced to the switch as well.

Smart Hub Preset Page

User can preset the Smart Hub in here. Refer to the manual that comes with the Type S Smart LED product for step-by-step instructions on how to preset the Smart Hub. Or tap the O icon for on-screen instructions.

Close the APP

Close the Type S LED APP after you are done with the preset in order to let the switch that is paired with the Smart Hub to take effect.
