U-tec LATCH 5 NFC Smart Keypad Lock\$

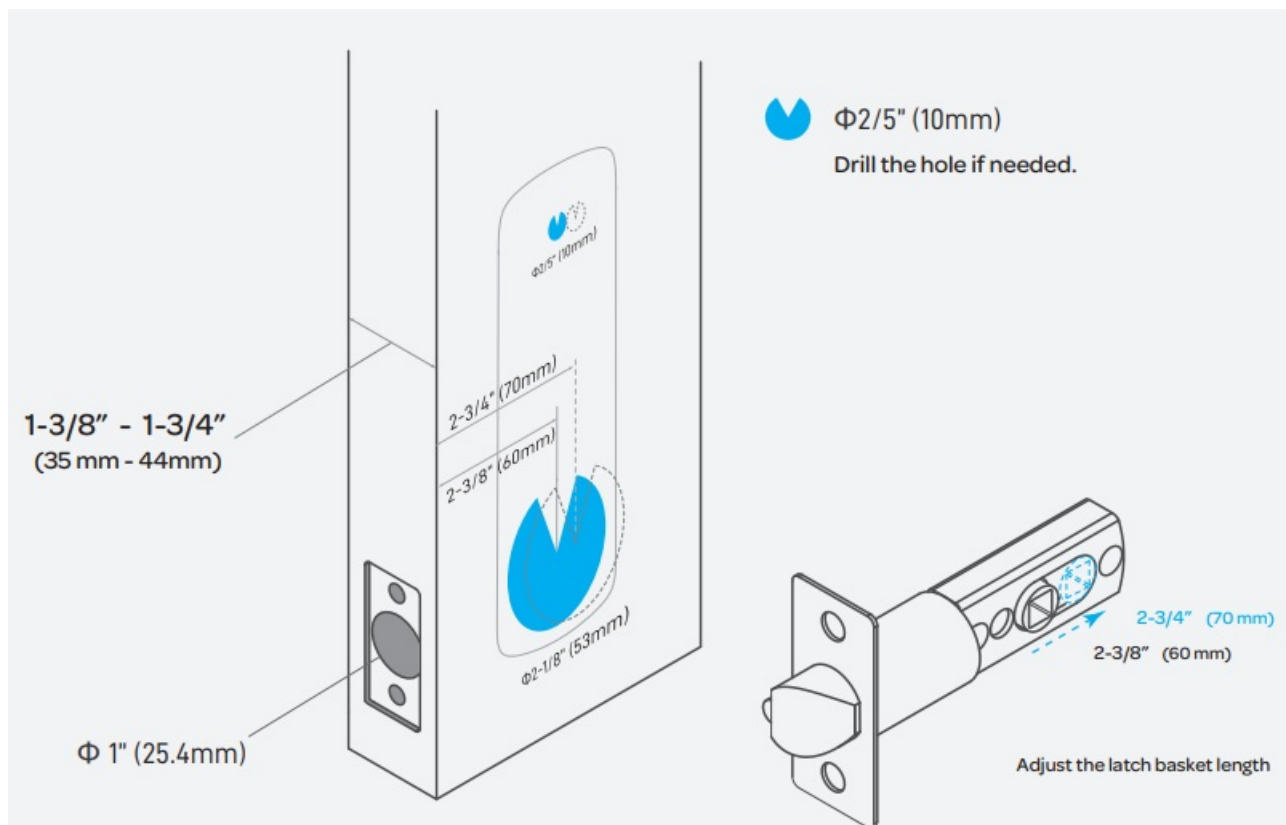

Install latch and strike

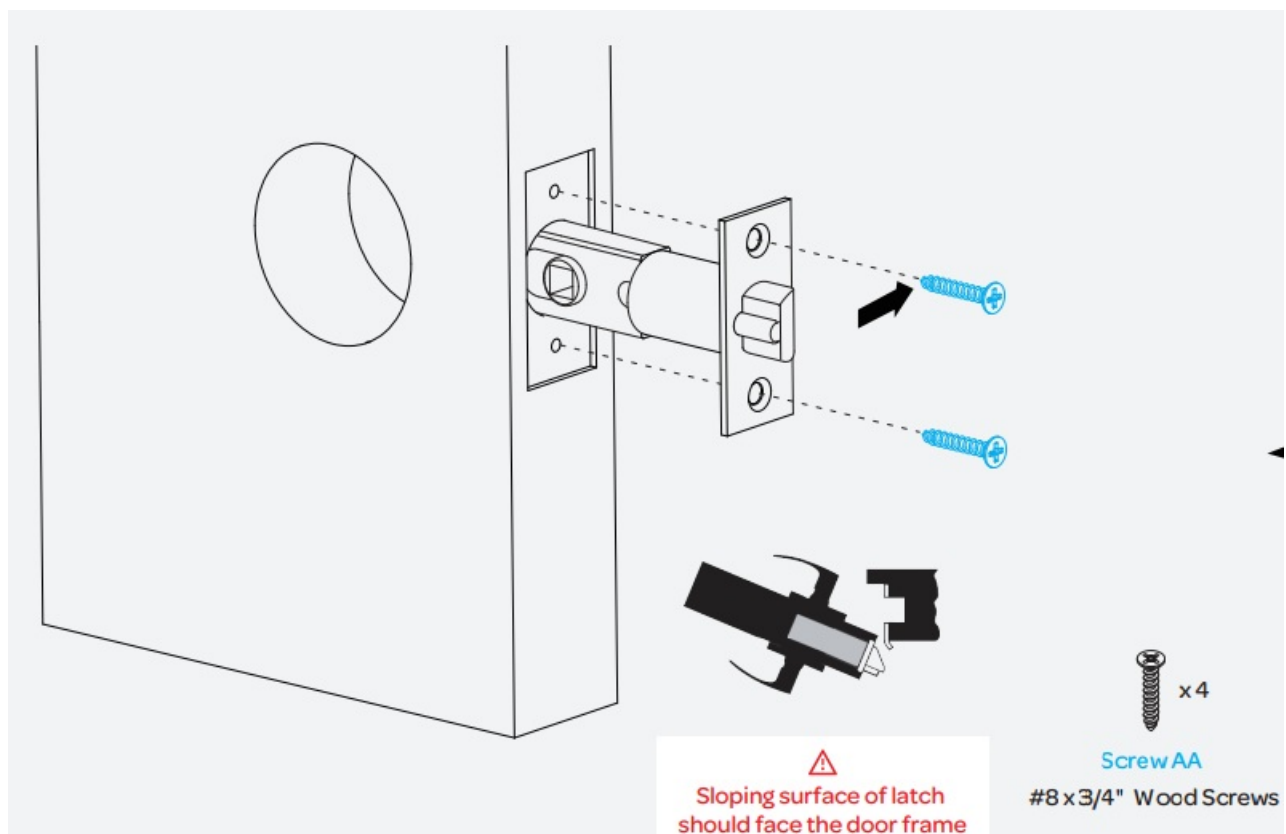

- Prepare the door.

- Make sure the latch angle faces the door jamb.

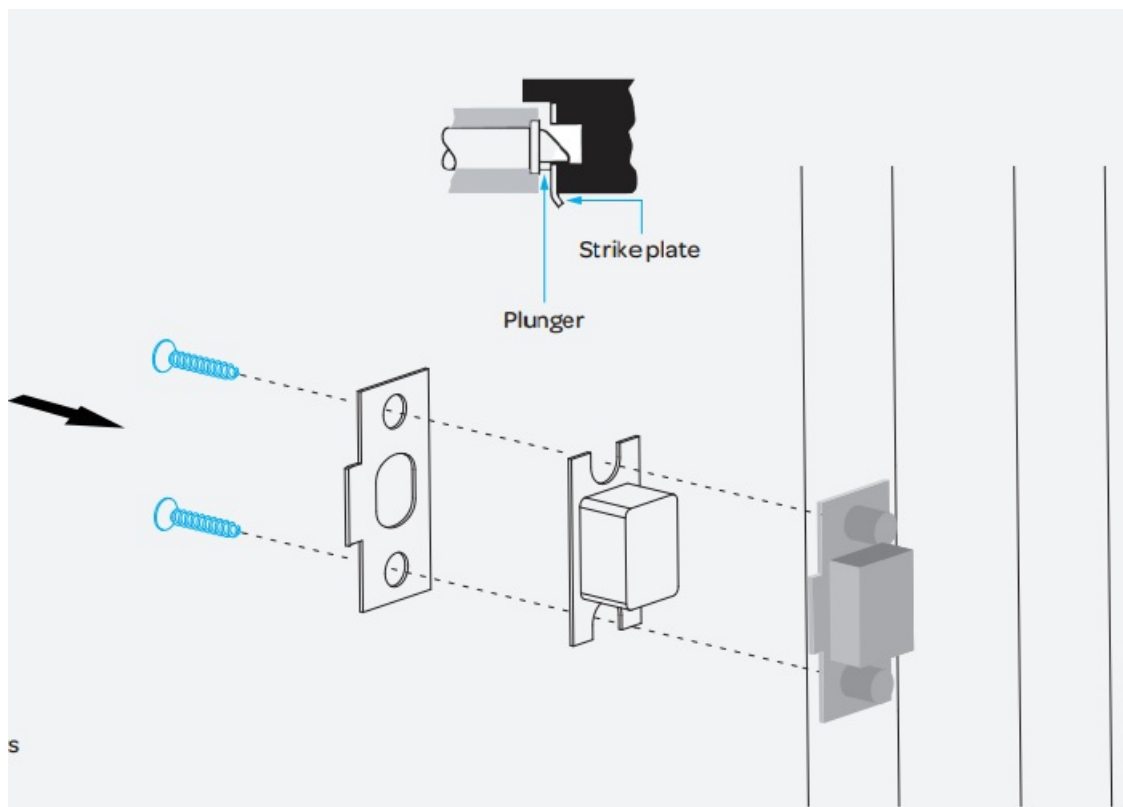

- Install the strike on the door frame and ensure the latch will match the strike.

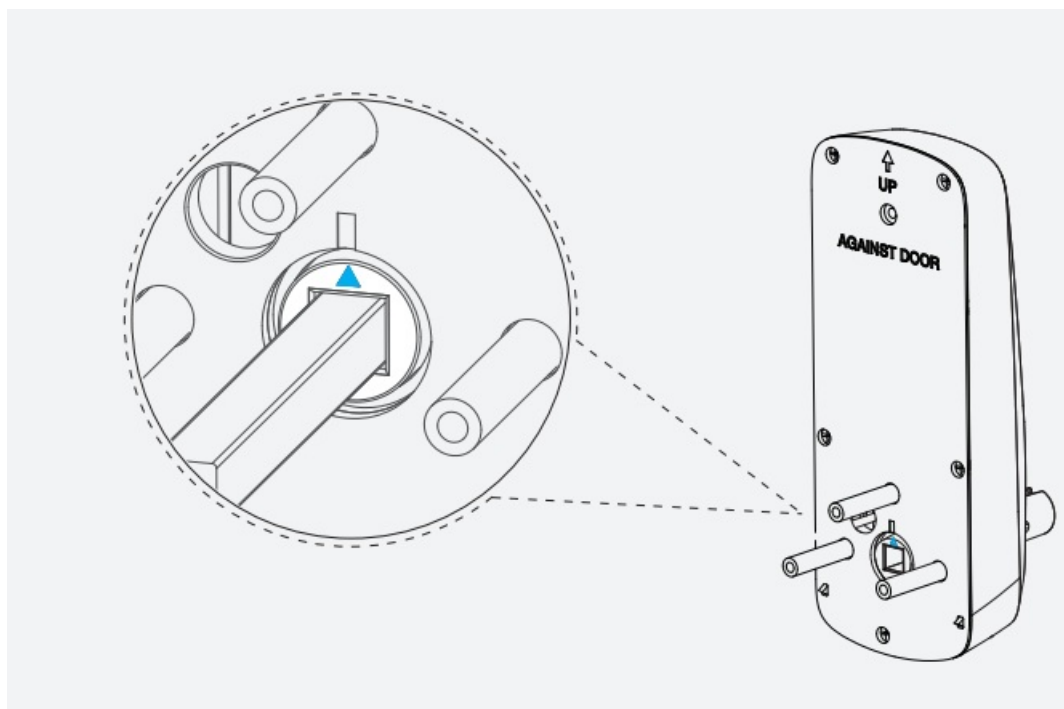

Install exterior keypad assembly

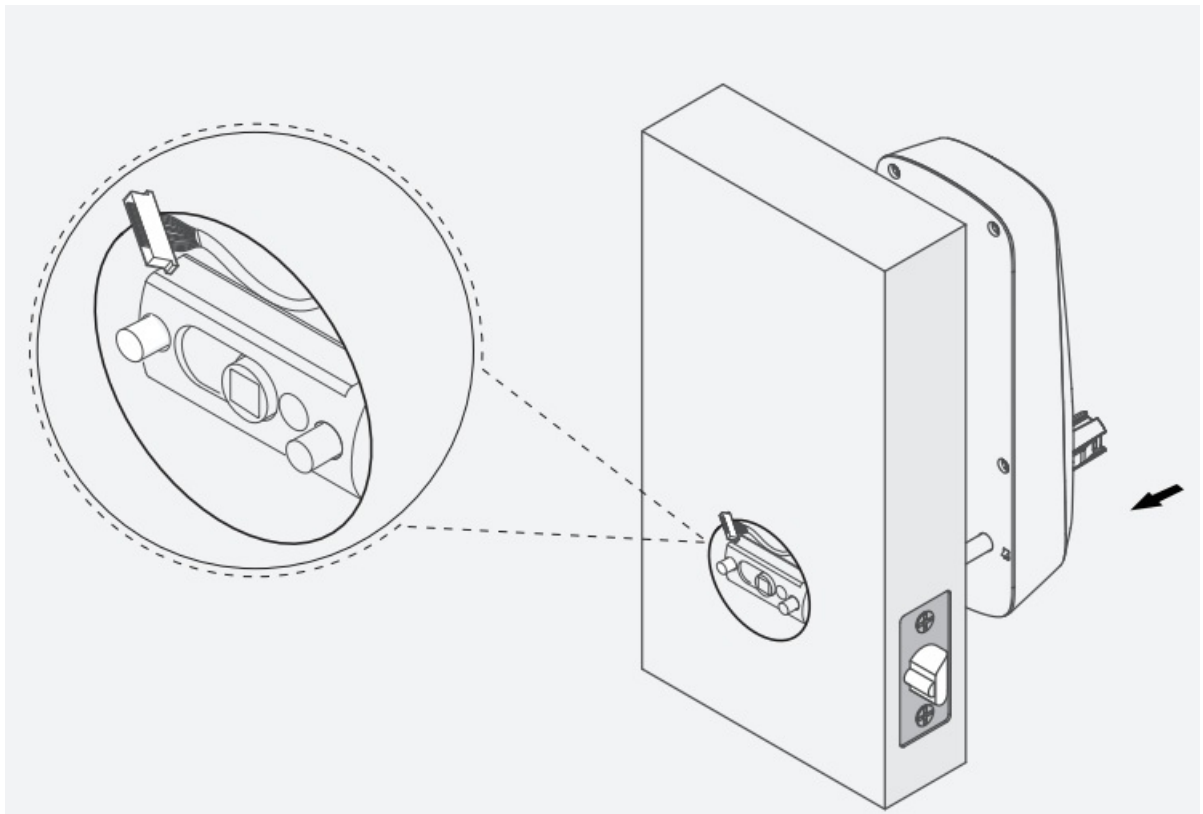

- Make sure the triangle is facing upwards as illustrated.

- Route the cable above the bolt and through the hole stated below

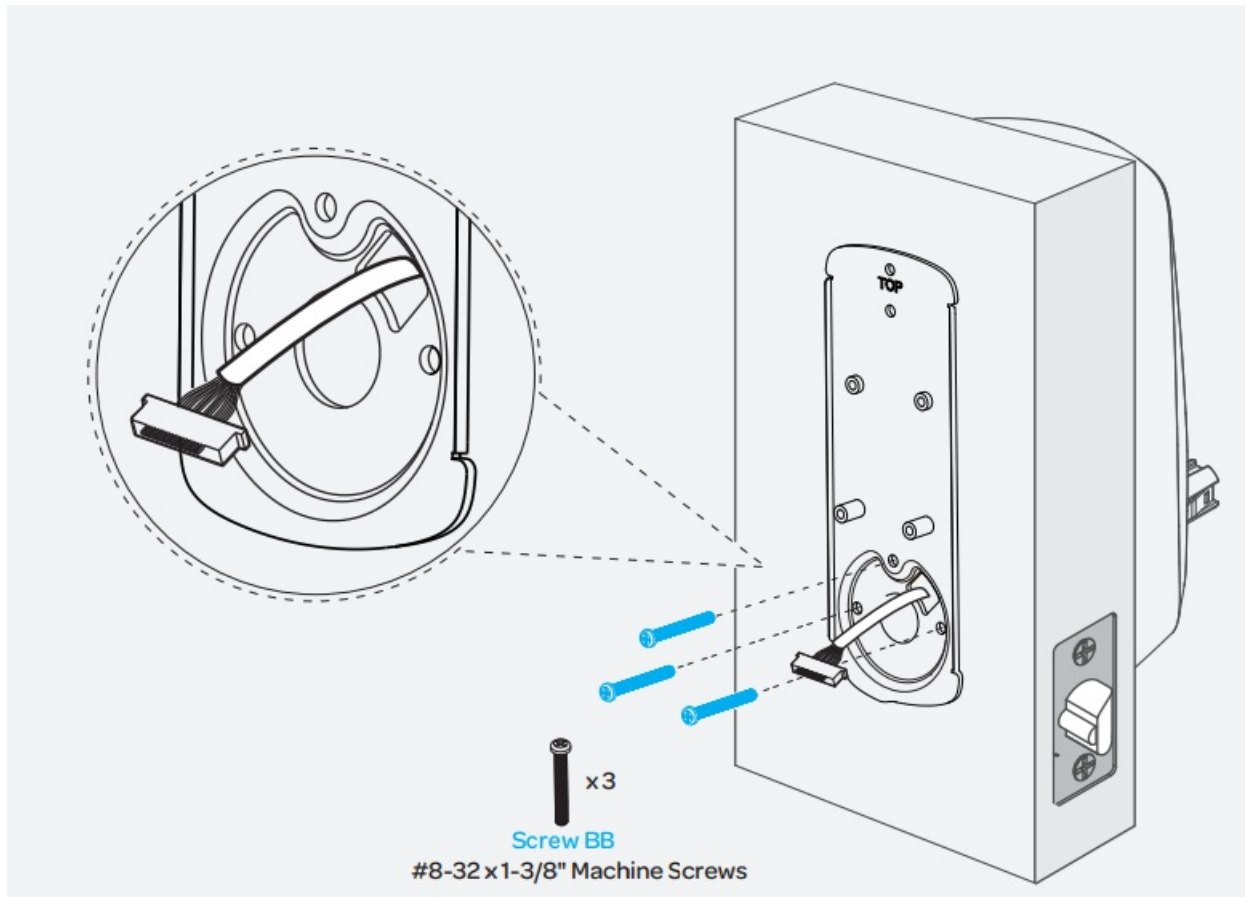

- Install Interior Mounting Plate

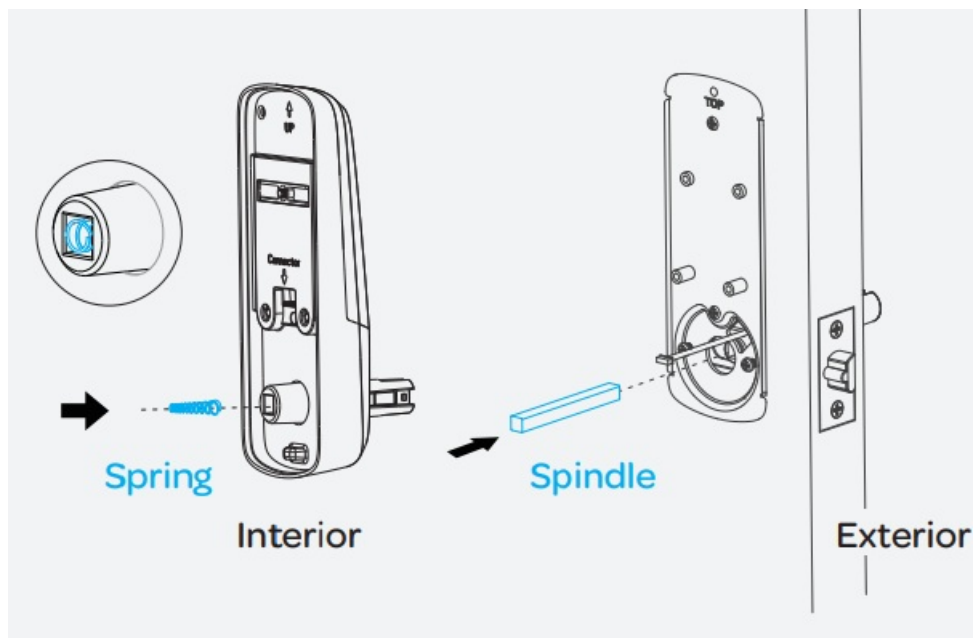

Install interior assembly

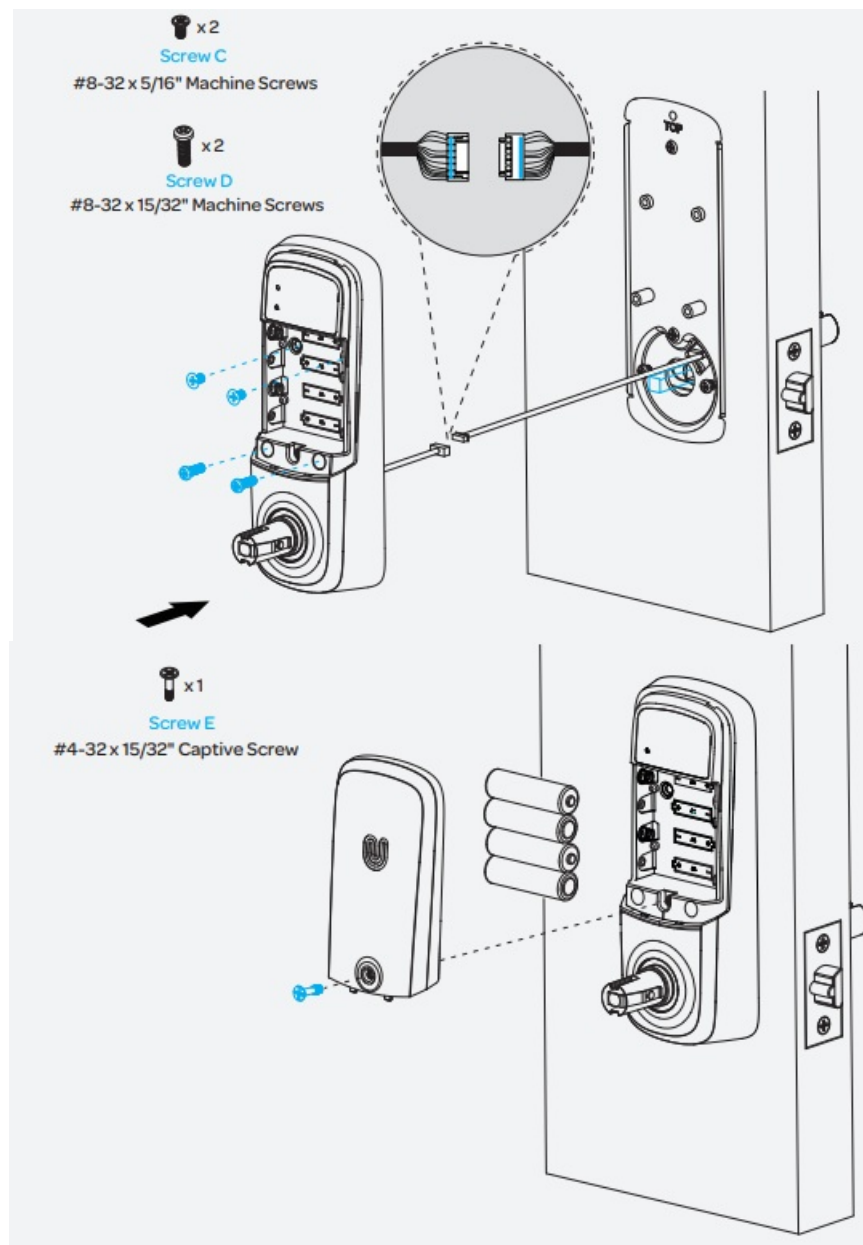

- Install the spring if the door thickness is over 1.65"(42mm). Plug in the spindle.

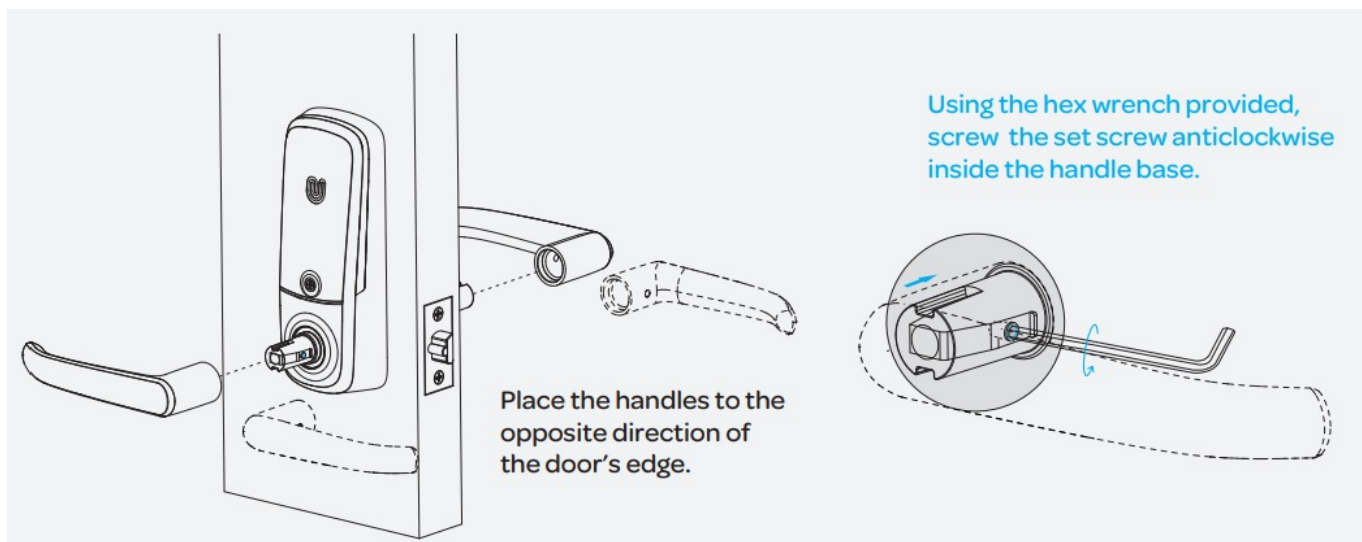

- Attach the connectors as indicated and secure the interior assembly. Attach the connectors as indicated and secure the interior assembly.

- Install batteries and cover

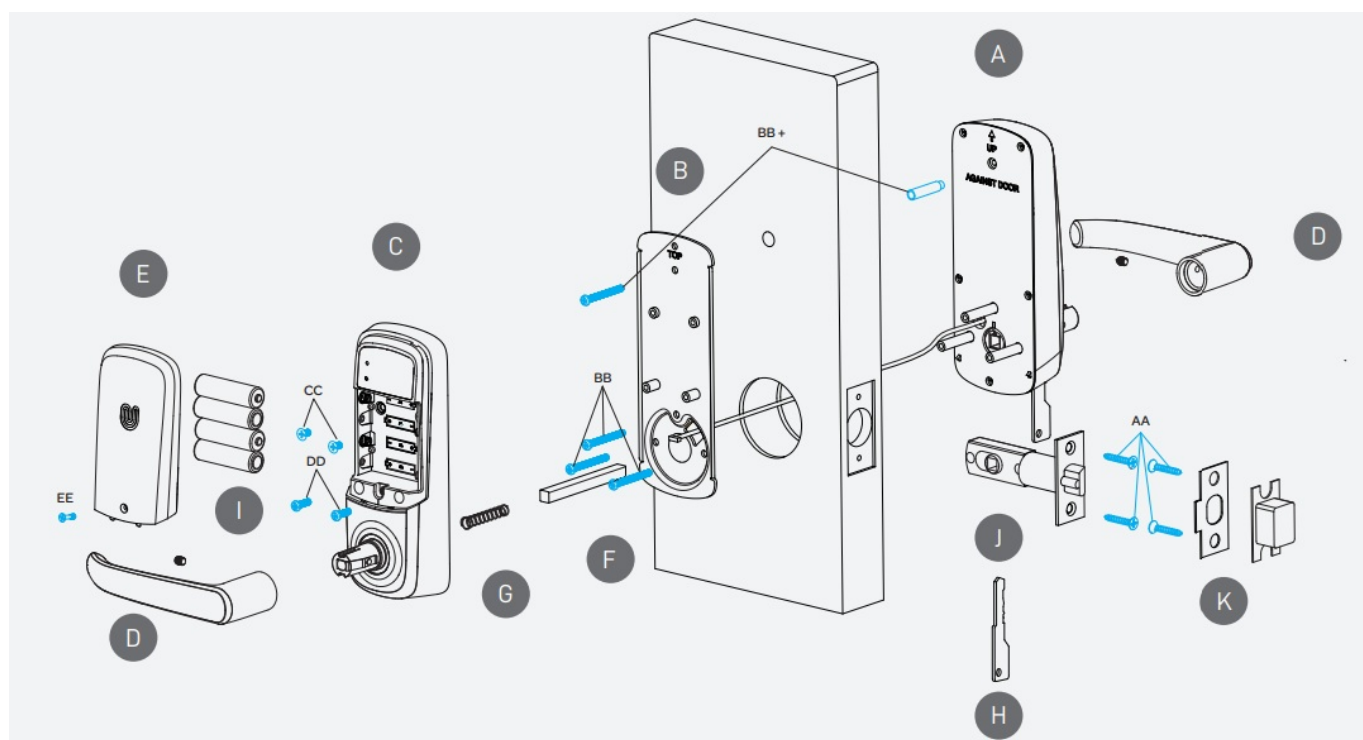

Install interior/exterior lever
