ub EUPHO E3 Bluetooth Speaker User Guide

CONGRATULATIONS

You are now the owner of a UB+ EUPHO E3 Speaker. The UB+ EUPHO E3 Speaker incorporates the best elements of traditional speaker design and the latest audio technology, to create a large size speaker, that is suited for wireless devices in this age of mobility.

This quick guide is meant to be a simple introduction to the usage of the speaker.
The full manual can be downloaded from the UB+ website (ub-plus.com/images/Files/EUPHO_E3-User_Manual.pdf) or by scanning the QR code below.

Please contact us if you have any comments or questions.

FEDERAL COMMUNICATIONS COMMISSION REGULATORY INFORMATION (FCC)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. this device may not cause harmful interference, and
2. this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no

guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
